Land van Heusden and Altena and the polder De Bommelerwaard (The whisper boat is an authentic reed boat, equipped with a solar-powered engine.)

Through bribery, the "Everything Knows" obtained false identities.

False identities for which he clumsily cobbled together a resume.

In part I, one of the first false identities of the "Everything Knower" was already revealed.

An alias under the "Per Address" name drs. PA de Ruiter? (half husband of M.Elderkamp, the other half was imprisoned, but Jonkheer Barthold Willem Lucas Boreel found out about this by marriage) PA de Ruiter a man, the "Allesweter", who was "mediator" in the port conflicts in 1982, but of whom we cannot find a graduation assignment or Tutor." It's a wonder no one fell for this. Under the heading: Leiden University Parliamentary Documentation Center we find his "CV". See the "ignorance": <http://www.parlementairdocumentatiecentrum.nl/id/vg09lf9dhy4> in which he expresses that he does not live up to expectations as a member of the second chamber, but also pulls out all the stops to present himself as a "wunder boy"

A man with a very hazy resume who would have an HBS-a education (quod non) and would have graduated at the age of 26 from the Dutch Economic College in Rotterdam (Erasmus University)?

A man with a very hazy resume who would have an HBS-a education (quod non) and would have graduated at the age of 26 from the Dutch Economic College in Rotterdam (Erasmus University)? Despite the very hazy CV and unsuitability for the House of Representatives, according to his CV, this man was part of a think tank with well-known names such as van der Louw, Bram Peper, Jan Pronk and Relus ter Beek.

However, the man cannot be found in the exam register of Erasmus University.

During his training with the Italian mafia, Ndrangheta, he was taught to handle false identities differently and to cover himself completely.

One of the false identities became Robert Straubhaar. As a trader in Soybean meal, the "Allesweter" was at a meeting in America, where a lecture was given by the real Robert Straubhaar. This Robert Straubhaar attracted the interest of the "Allesweter" because this corpulent man had no need to give lectures outside the USA due to chronic fear of flying.

In a conversation with the "Allesweter" this Robert proudly showed a harmonica-like photo book of his extensive children's scissors. The "Everything Knows" listened carefully and decided to adopt the identity of the man in Europe. After all, there was no danger that the real Robert would ever lecture in Europe. Equipped with the same harmonica-like insert and behavior of the real Robert Straubhaar, the "Allesweter" bought this identity in Basel in Switzerland. (Bribery Civil Registry Officer). For this purpose, the company River Advice

(Flusskreuzfahrtbranche) founded with criminally obtained money. The Omniscient liked to stay under a false name in Grand Hotel Les Trois Rois in Basel near the Rheinbrücke.

At some point suspicion arose in Switzerland, as a result of which the „Allesweter“ felt compelled to officially stick another person to this identity (Robert Straubhaar) and to arrange the necessary paperwork for him. It became the Austrian Rudolf, who went on to pass himself off as Stroman for Robert Straubhaar. [note: we read the following: River Advice (Robert Straubhaar and Robert Heijlands) will continue to provide administrative support. The commercial manager and operations manager will be in the frontline of the daily business of

The brothers' "Commissioner" uses the false identification Willem Nieuwboer for, among other things, the Avex Heteren company owned by the VK brothers. A seemingly neat wholesaler of audiovisual equipment and presentations? Willem Nieuwboer then became "Dir/Owner" there. This Willem Nieuwboer also presents himself as: independent Management Consulting Professional and has therefore drawn up an equally shadowy profile/CV in which he would have studied from 1980-1985 at Radboud University in Nijmegen, and subsequently graduated as a drs. in the "field" of English & Communication. A previous education is not mentioned in this equally clumsy CV, nor further experiences. It is expected

The Fa. "De Haan" and Hans de Haan.

De Haan Mineral Oils belonging to the Hatema group, where a certain **HAA de Haan** is at the helm.

The start started with the purchase of the petrol station in Lith including a house for FI 60,000.

This investment was the start of investing (with criminally obtained money) in petrol pumps, which has grown into a considerable number of petrol stations.

But De Haan also has a company that deals with software engineering. Software and hardware for checkout machines in hotels and restaurants headed by **a certain Hans de Haan**.

In our search for this Hans de Haan we find a de Haan who, in our opinion, does not have the qualifications to lead a Software engineering company, but the similarities of a profile sketch are such that this could be the watermark of the brothers. and to launder the obtained criminal funds

Jan Dirk Paarlberg and Neelie Smit Kroes.

Neelie Smit Kroes, then director of Nijenrode, found Paarlberg interesting, who owns a castle, but she thought so. The castle in question belongs to the brothers who have deposited a deposit and mortgage registration with the bank for this purpose. Anyway, Neelie asked if she could place her office in Jan Dirk Paarlberg's stable building. The brothers saw this as a potential "victim" to blackmail and agreed so that Paarlberg could communicate this to Neelie.

The office space was made available to Neelie for free, but not before it was equipped with listening and recording equipment and a tap on the telephone.

Neelie ignorantly happy and the brothers even happier.

However, when Neelie was able to secure a European office with the help of these contacts, she agreed upon her departure from the office space that 3 leased business premises in Hilversum, provided for her, would be given to her as the property.

However, Neelie later had a lot of trouble with these properties, because they turned out to be unprofitable for rent. It was also Neelie who personally introduced Ayaan Hirsi Ali to the VVD, who for a long time performed together with Melanie Schultz in a luxurious brothel, adorned with a tiger and lion mask. Ayaan received an accelerated residence permit for this.

Ayaan Hirsi's flat was equipped with eavesdropping and recording facilities for blackmail purposes, as a result of which quite a few leading figures from the administrative

Ayaan Hirsi's flat was equipped with eavesdropping and recording facilities for blackmail purposes, as a result of which quite a few leading figures from the administrative Netherlands who shared the bed with Aryaan, such as top VVD member G. Z, were captured on film. Ripe for blackmail.

That there are question marks about Neelie's integrity became clear from the TCA and TCR affair in 1996 with regard to the illegal discharges under her ministerial responsibility. A parliamentary investigation was started here, but the SG council, in which important blackmailers had a seat, decided to keep this under wraps.

Astrologer Simon Suikert at least created the appearance that Neelie has ties to criminals.

In 2000, as European Commissioner, she involved Jan Dirk Paarlberg in controversial investments in the United States, while also displaying the appearance of a conflict of interest by rustling up an order for Fokker's friend Frans Swartrope. In addition, Neelie was responsible for the start of the Betuwelijn, where considerable construction fraud took place.

As far as we have heard, Jan Dirk Paarlberg receives a compensation of 1 million Euros per year for his "service" to the brothers, as long as he continues to look after business as desired.

Paarlberg currently has a problem with the Public Prosecution Service and that is not appreciated in criminal circles. So it seems that Paarlberg may go to prison and receive the usual € 1000 per day as compensation or that a cheaper liquidation awaits him.

He is charged with the following criminal offences:

1. Money laundering of the Willem Endstra payments. (criminal money from the brothers was transferred to Paarlberg via Endstra. Holleeder has already been convicted in that involvement)
2. Creation of an "escrow" account. (This escrow account is a blocked bank account that is held with a neutral and financially reliable third party, the escrow agent (Paarlberg). The escrow agent only pays out the money in the blocked account on the basis of an agreement between the buyer and the seller.) The brothers were the giver of this financial construction. . With this escrow it became possible that the brothers could take out loans of several million from the banks, so that their criminal money was laundered. Multiple (false) escrow letters ensured an annual money laundering operation of more than 50 million. [CLICK HERE](#)
3. VAT Fraud of renovations at Paarlberg and acquaintances, including lawyer Lucas van Eeghen.
4. Forgery in relation to a notarial deed in the takeover of the BV of VVD politician Sjoerd Swane (Sjoerd Swane, who was sentenced by the court in Utrecht to two years in prison for official corruption, forgery and tax fraud)

Paarlberg, on behalf of the criminal brothers, delivered a mere amount of 8.5 million in cash to a Dutch Trust office, and then transported it from there by money transport to a bank in Luxembourg, so that the brothers once again had this amount "legally" at their disposal. For this amount, Paarlberg would have sold art objects to an art dealer. However, the brothers could not get such a statement from an art dealer and Paarlberg was confronted with no conclusive alihi for

brothers could not get such a statement from an art dealer, and Paarlberg was confronted with no conclusive alibi for this amount and could not even tell what these so-called art objects had looked like.

May 16, 2012 . Ja n Dirk Paarlberg has to go to prison for 4 years by the Court of Appeal .

All attachments imposed by the tax authorities/fiod can be enforced.

The Endstra heirs can reclaim the extorted 20 million.

Has a valuable stooge been lost to the Korlaar brothers?The proceeds of Paarlberg's media company have been lost with this? When Paarlberg sold his company Mediamax to the company TDI in 2000, he received tens of millions for it. According to the escrow, 75 million guilders of that purchase price has been placed with the Swiss bank UBS. In addition to Paarlberg's signature, the piece also contains the scribble of the then TDI director Kuhlman. And he can't remember anything about it when the detectives confront him with the escrow. "This is a counterfeit signature," Kuhlman declared. Now it appears that Paarlberg is responsible for the forgery. "Someone in my office broke it," Paarlberg stated. No, I won't say who. He also refuses to say who forged Kuhlman's signature.

According to information, Kees van Korlaar is responsible for the signature on the escrow.

The drug supply and transit routes and the suppliers/frimas involved

Besides their own fleet of seaworthy sailing yachts and barges, the Allesweter and his brothers use renowned companies for the transport of drugs. These firms are often recommended by the highest (blackmailed) officials in society. Experience has shown that these firms are susceptible to criminal contacts because of favors already received.

Maersk containers line shipping Copenhagen

Around 1999, commissioned by Ndragetha, the brothers found it necessary to establish contact with Maersk. Contact was sought from the Netherlands with the managers of Maersk Copenhagen. After an appointment for a meeting, the Commissioner left for Copenhagen to make arrangements for worldwide drug transport by means of Maerks' ships. The commissioner settled in the Nyhavn hotel in Copenhagen and had some discussions with 2 people from the top management of Maersk. One of those people (a certain Lucas V.) has the Dutch nationality and was already known from the port of Rotterdam. The second person had a Danish nationality? Initially, the meeting took place at Maersk's dockside headquarters in

Copenhagen, but later the discussion was continued on a specially hired tourist boat with which the interlocutors made a trip through the harbor of Copenhagen. Finally, cooperation was promised with regard to container transport.

Allseas offshore pipeline installation

After the Allesweter had received a list of names from a very influential Dutch person who would be sensitive to drug shipments, he contacted the head office of this company in Châtel St Denis in Switzerland around 2001.

It turned out to be Mr. EH from Allseas with a head office in Switzerland.

After a discussion with this EH, this man contacted by telephone the influential person whom the "Everything Knower" had given as a reference. Eventually there was a willingness to use Allseas for the drug shipments. The details are known but not relevant here. Even the laboratory set up in Paris to package the drugs in such a way that they are not located is a side issue.

The shelters/buildings and contact persons in the interior

Buildings owned for criminal activities and money laundering actions

We mention here, among other things, buildings owned by the criminal organization as described in Part I [The specific details and associated photos are available]

PC. Hooftstraat Amsterdam

The buildings owned by the umbrella organization Ndragetha make money laundering of criminal money possible.

Jort Keller was recruited to promote the PC Hooftstraat "Bij ons in de PC", who "has" made this happen in his own way. It is striking that the office of Haico Endstra, it now appears, has been bugged by "strangers". If we consider that the criminal organization still receives several million from criminal assets stored at Endstra and Holleeder's

efforts to release this assets failed, then we must come to the conclusion that the aforementioned "strangers" may well be "acquaintances".

The April issue of Quote contains a very detailed story about Haico Endstra's dealings and the legacy of his brother.

On March 15, 1995, the painting in question was taken for real (not in 1990) and in 1996 the painting in question was auctioned at Christies in New York

(The auction date has been re-dated for the following reason:)

Ryoei Saito bought the painting which was supposed to be by Vincent van Gogh. However, it was painted by Geert Jan Jansen.?

However, after delivering this painting with the director of Christies, Saito wanted his money back because he believed the painting was not a real Van Gogh.

The director and the fake person Kramarsky (mafia) took the painting back and promised to transfer the money back \$ 82.5 million. However, that same night, Ryoei Saito died suddenly and the two decided to pretend the episode had happened. (March 1996)

A woman who wrote a book about this painting found out that the painting was auctioned in 1996 and she has been given a donation of 10,000 to set the auction date of the painting to 1990 in her book. The painting has been missing since that time, or is it hanging in France? Maasstraat (Lith), where, among others, Fred Ros's **yellow Hummer** is located? And some motorboats. The police are looking for the cars of Senol Tuna that are said to have disappeared, aren't they? (the yellow Hummer has recently been removed from the showroom)

In addition, we do NOT wonder what the liquidation of Pieter Vos and Jaap Zillig on December 23, 2011 for hotel van der Valk in Houten has to do with the Allesweter and his brothers.

Pieter Vos has been running the campsite on the Maasdijk for years. He took over the business from his parents. The chalets on the campsite are regularly inhabited by Poles, villagers say. Vos also owns a company that rents out construction equipment and drivers. His wife owns a jewelry store in Den Bosch.

The village has been buzzing with rumors for years that Vos was active in the criminal environment. Evil tongues claim that he was dealing in narcotics. Here too we come across a link, namely the family member Joland B van H.

The police must also be fully aware of this shooting and connections, because there are very clear camera images of it. However, according to the police, the real camera

images of the double murder would be **too intense** to broadcast.

We have heard that before, for example during the first attack on Cor van Hout, the camera images remained hidden for 15 years.

Then there is an ongoing investigation into the involvement in the strange death of multimillionaire, if not billionaire, Willem Frederik Ewald Marggraff who died under very suspicious circumstances in 2003.

This monegasque had contacts with the brothers van Korlaar, where the Allesweter and Commissioner were already in Monaco in 2000 (see the Monaco Tapes). Was there also evidence of administration of cerebrospinal fluid before he was found in the burned Zionsburg in Vught? A good family friend named Boudewijn Reijenga, who had been there for fourteen years, also corresponded for months with all possible authorities for a re-examination. He believed, just like Ewald's sisters, that Ewald

would have been extorted, among other things. Only after a personal letter from him to the Queen's Commissioner of North Brabant Hanja Maij-Weggen did she instruct Vught's criminal investigation department to re-investigate the case.

The (counterfeit) paintings bought from the brothers for millions (forged paintings by Geert Jan Jansen) were allowed to be held by Ewald in a drugged state.

A fake Rembrandt sold to Ewald.

Not only Ewald Marggraff's will gives rise to further research, but especially the events leading up to his death have been poorly researched for reasons. see will at: <http://ewaldmarggraff.expertpagina.nl/>

In the meantime, part of the coach house has also burned down; again the fire brigade could not explain the cause... The most valuable paintings were therefore put in the large cellar. However, after the fire, according to an eyewitness, they were no longer there. We have the information where they have gone.

The coded and housed snuff movies

A snuff movie is a film that depicts the actual rape or murder of a person or persons, without the aid of special effects, for the express purpose of distribution and entertainment or financial exploitation for the benefit of mentally ill persons. A snuff movie is a shocking, violent film in which people are actually assaulted, raped or killed for the sake of the film.

On the download sites of Pirate Bay and FTD movies (no snuff movies) could be downloaded that were provided with a code. To view such "encrypted" films, one had to transfer an amount to the manager of the film to obtain the code and thus gain access to

view the film.

Snuff movies work with the same goal, namely financial exploitation. Satanists and pedophiles take advantage of this "offer" and it is the most despicable criminal form of money making.

For visitors to the previously mentioned satanic murder scenes, these snuff movies have been placed with a well-known webmaster, who has taken them into "custody" and receives a considerable amount of money for it. As an extra favor, the study of a family member was also arranged. This webmaster should therefore be seen as an extension of a criminal organization. As a check, a reasonably wealthy boss has been placed with this webmaster to keep checking the whole. The snuff movie was deposited with this webmaster and a female confidant became the "key holder" of these snuff movies. After she turned out to be too loose-lipped, she was evicted from her house after being abused and the code of the snuff movie that was placed on the website was changed. Only after a hacker known to us had discovered the snuff movie was it "safely" shielded again after some panic to no longer allow curious people access and can only be viewed by insiders with code after payment. apparently they took no action.

The Netherlands is already under the influence of a cartel and is already a republic where the underworld determines what happens under the name of a monarchy. The underworld has become the upper world and the Netherlands has become a mafia state.

Our rule of law has been brought back to official dictatorship. After reorganization of the Public Prosecution Service, the autonomous decision-making authority of 550 officers has been reduced to only 5 persons, namely the Minister of Justice and the Board of Prosecutor General. Perhaps it can even be reduced to 2 persons, namely SG (Demmink) and Minister of Justice (both are blackmailers). van Amsberg still above, but this may only create an appearance, since this so-called royal house also exists with the support

of the mafia, until they are no longer needed. Thank you. For that reason it is possible that the Rule of Law can/could fall completely into the hands of a criminal organization as becomes clear in PART I :
