S3E39 | J.R. SWEET – OPERATIONAL CIA MONARCH MIND SLAVE ON DISNEY, LDS CHURCH, & MK ULTRA SECRET OPS and transcript

JR Sweet remembered about his mind control

2023 jul 24 S3E39 | J.R. Sweet – Operational CIA MONARCH Mind Slave on Disney, LDS Church, & MK ULTRA Secret Ops

This week I'm thrilled to introduce to you yet another male survivor who has been speaking out. After saying just a short while ago that there needs to be more men willing to step up and expose the criminal cabal trafficking and abusing our children, I began meeting male survivors who reached out via email as well as discovering them on other podcasts. This week's guest has an incredible story and I'm honored he chose to share time with us on the show. Introducing, Operational CIA MONARCH mind slave, overcomer, blogger, husband, father, whistleblower and walking miracle, J.R Sweet!

Like many survivors you've heard on the show, J.R. lived his conscious life believing he grew up in a normal household environment with a normal family. What J.R. would come to find out as an adult 2017 when he began having memory recall completely shook his world in discovering the narrative he had always told himself about his family couldn't be further from the truth.

J.R. grew up in a multi-generational incestual satanic and Mormon family bloodline who's lineages trace back to King Henry the 8th and he didn't begin to recall his and his family's involvement with the CIA's MK Ultra mind control program until he was 38. Without giving too much away, I will say that if you are familiar with former podcast guest, Cathy O'Brien's story – you will see a lot of parallels that run through J.R's testimony as well. Since awakening to his abuse and the truth about his family, he began an incredible blog titled 'The Mormon Monarch' where he shares harrowing details about his life and past. I highly recommend you guys check this blog out – you can head to [redacted] to learn

<https://yabasta1.wordpress.com/2023/07/30/s3e39-j-r-sweet-operational-cia-monarch-mind-slave-on-disney-lds-church-mk-ultra-secret-ops-and-transcript/>

more – I'll have this linked in the show notes and encourage you all to go support J.R.'s work!

J.R.'s story is jam-packed with information and I suggest you grab a pen and paper and shut off whatever you're doing and give him your full attention. The amount of courage it takes for a survivor or these horrific atrocities cannot be understated. And with the stigma around men and abuse, we really need to show our support and stand behind and next to the men who are willing to be on the forefront of exposing these crimes against children while breaking generational abuse cycles and stigmas. J.R. is a hero.

Before I finish introducing our guest – I wanted to give a reminder that if you are a survivor or whistleblower who wants to share your story on the podcast or wants to share any information privately with me, you can now email me at [REDACTED]! Please send me a briefing of who you are and how I can support you whether it's through podcasting or sharing information. I also just started a Substack that you can support at [REDACTED]. Here I will be doing weekly recaps and insights on my podcast and using this as a place to publicly journal my journey as an advocate for our children. All my social, email and project links can also be found in the show notes and as always – I'm so grateful for all your support.

Transcript

heavenly father today we put on the full armor to protect us against attack we put on the belt

0:08of Truth to protect against lies and deception we put on the breastplate of righteousness to

0:13protect our hearts from The Temptations we put the gospel of peace on our feet to walk in your

0:19light Peace and Freedom with the Holy Spirit we rebuke anxious thoughts we take up your Shield

0:25of faith for protection to block and destroy all the darts and threats thrown at us by the enemy we

0:30put on the helmet of salvation to cover our minds and thoughts reminding us that we are children of a mighty king we are forgiven set free safe by the blood of Jesus we take up the sword of the

0:42spirit your living word that has the power to demolish strongholds and is sharper than any double-edged sword we come to you Lord in prayer daily in Jesus mighty name we pray amen amen

0:54what's up you guys welcome to the imagination I'm your host Emma and this week I'm thrilled

1:00 to introduce to you yet another male Survivor who has been speaking out after saying just a

1:05 short while ago that there needs to be more men willing to step up and expose the criminal cabal trafficking and abusing our children I began meeting male survivors suddenly who reached out

1:15 via email as well as discovering them on other podcasts this week's guest has an incredible

1:20 story and I'm honored he chose to share with us on the show introducing operational CIA Monarch

1:27 mind slave Overcomer blogger husband father whistleblower and walking Miracle J.R Suite

1:35 like many survivors you've heard on the show Jr lived his conscious life believing he grew

1:40 up in a normal household environment with a pretty normal family what Jr would soon come to find out

1:46 as an adult in 2017 when he began having memory recall completely shook his world in discovering

1:52 the narrative he had always told himself about his family couldn't be further from the truth Jr grew

1:58 up in a multi-generational ancestral satanic and Mormon family bloodline whose lineages actually

2:04 traced back to King Henry VII and he didn't begin to recall his and his family's involvement with

<https://yabasta1.wordpress.com/2023/07/30/s3e39-j-r-sweet-operational-cia-monarch-mind-slave-on-disney-lds-church-mk-ultra-secret-ops-and-transcript/>

2:09the cia's MKUltra mind control program until he was 38. without giving too much away I will

2:15say that if you are familiar with former podcast guest Kathy O'Brien's story you will see a lot of

2:20parallels that run through Jr's testimony as well since Awakening 2 is abuse and the truth about

2:26his family he began an incredible blog titled the Mormon Monarch where he shares harrowing details

2:33about his life and past I highly recommend you guys check his blog out if you head to

2:39www.mormonmonarch.com I'll have this listed in the show notes and really encourage you all to

2:45go support Jr's work Jr's story is jam-packed with information and I also suggest you grab a

2:52pen and paper and shut off whatever you're doing and give him your full attention the amount of Courage it takes for a survivor of these horrific atrocities to come forth and speak their

3:02truth cannot be understated and with the stigma around men and abuse we really need to show our

3:07support and stand behind and next to the men who are willing to be on the Forefront of exposing these crimes against children while breaking General abuse cycles and stigmas Jr in this

3:18sense is a hero before I finish introducing Our Guest I want to give a reminder that if you are a

3:23Survivor or whistleblower who wants to share your testimony on the podcast or who wants to share

3:28any information privately with me you can now email me at imagine a better world2020 gmail.com

3:35please send me a briefing of who you are and how I can support you whether it's through podcasting or sharing information I also just started a sub stack that you can support as well at www dot

3:47Emma catherine.substack.com here I will be doing weekly Recaps and insights on all of my podcasts

3:54and using this as a place to publicly Journal my journey as an advocate for our children on my

4:00social email and project links can also be found in the show notes and as always I'm so grateful for all of your support so you guys without further ado please help me in welcoming this

4:09week's guest of honor Monarch Survivor voice for the voiceless advocate for our children and generational circuit breaker J.R sweet Jr thank you so much for being here with me today

4:21thank you Emma thank you for having me it's an honor I appreciate it yeah it's great to be here

4:28I appreciate the opportunity yeah it's good to get the message out to the people on what's going

4:34on so I appreciate it I know and I appreciate you I know that these these topics can be very

4:41triggering and they're very hard to talk about and people like you hand off the torch to other people

4:47 who see your light and then it gives them courage to talk so it's not easy being on the Forefront

4:52 of this and I really do appreciate that you were and are willing to talk about this because I know it's so hard and stressful on you also um so I'd love to actually hear and maybe let's talk to the

5:03 guests about why did you start speaking out you know we'll get into your story but what was your

5:09 inspiration for actually wanting to go public with all this information because I'm sure you had a lot to lose I'm sure you were targeted I'm sure that it hasn't been the easiest thing for you

5:18 to come out and talk about this publicly and I'd love to hear your inspiration behind your mission

5:24 yeah yeah thank you it hasn't been very easy and I have lost a lot

5:31 um of in that sense uh when I remembered things that I was remembering about my past

5:41 um I was living in Idaho at that time I was raised in around Idaho in Idaho and in Salt

5:48 Lake born in Oregon and so all over the west and in 2017 when I started to remember things

5:57 um it was I realized I was not in a good situation where I lived

6:05 um and so I had to move and leave Idaho that was in 2020 but you did a really good introduction

6:14 um I appreciate that thank you so I want to start where um with my

6:22I come from um and how I came to be here and so the reason that I'm speaking out is because

6:31because the things that I began to remember in 2017 were so awful and so overwhelming uh

6:39in in what I was remembering had happened in my life that I felt compelled to speak how it seems

6:49inevitable that if you have any kind of a moral standing you would speak out on these things it's

6:56just how it how it should be um they have killed me before through Monarch programming and that was

7:04for suicide programming and so I I was dead for for a short period And I went to the other side

7:11and I feel like that impacts my reasoning for speaking out as well because I know that when

7:18we leave this earth we go somewhere somewhere much more beautiful and wonderful than this

7:24place and we'll see a lot of the folks we knew in this life and so to me it's a it's a message that

7:32just needs to be shared but I come from I am a survivor of the Central Intelligence agencies

7:38trauma-based mind control program I was raised in a generationally abusive family a satanic

7:46family bloodline essentially my family reaches back as you mentioned

to King Henry VII and

7:55and that's something my family was always proud of that I was always aware of uh throughout my life

8:01every day always talked about it and we're proud of that fact um and my grandfather that's really

8:09where I feel like the Central Intelligence Agency comes into my life is through my grandfather and

8:15through my uncle and Handler and my grandfather he was a Marine in World War II and he became

8:26involved while he was in the Marine Corps uh with with various individuals involved with

8:34things revolving around the mind they would use them for various things such as carrying messages

8:40he worked for a colonel for a while and so he was a courier he would carry messages and he'd be made

8:47to memorize them and my grandfather was abused as a child in my mind that's how I perceive that and

8:54that's partly what was wrong with him he ran away when he was 13 years old and so he had

9:00a pretty rough go of life and then the war on top of that he was a Marine Corps scout sniper

9:07um and so it was pretty hard on him but after the war he survived the war and he he joined uh he

9:18worked for the Union Pacific Railroad the Union Pacific Railroad has a history of of Nefarious

9:24Deeds within the upper echelon of that company you can find that research in various books

9:32um but he worked for Union Pacific and in that time he would in his own journaling he

9:40talks about being a Union Pacific and a group of well-dressed suits coming in he'd been called into

9:48the corporate office and they wanted to talk to him and I believe that something happened at that

9:54time where he was pulled back into the military in some way and he was involved with the Central

9:59Intelligence Agency and the Monarch program for quite a ways back I'm not exactly sure how far

10:07back Emma but it goes back a long way and he knew such people as Walt Disney for example who was

10:16connected to Monarch programming and trauma-based mind control um and so my grandfather brought it

10:24into the family in my mind my grandfather also played the role this is a little strange and

10:30hard for people to get their head around but we only know what we're told and so if for example

10:36someone dies in the media do you really know that they're dead or is

10:43 told and so for example my grandfather he was Jim Reeves he played that role in the country music

10:50 industry and then when they were done with that character for whatever reason I'm not entirely

10:56 sure he was killed that character was killed off and my grandfather lived another life as

11:03 as the individual that he was I suppose he was a multiple and he had lots of his own own problems

11:12 um and we'll go through some of that but so it comes through my family and then my uncle and

11:18 CIA Handler uh he was a close Uncle Gail Pooley and he he was my Handler and very close member of

11:27 our family and he brought it to the family as well I'm not entirely sure about how that relationship

11:34 all came together but so I was selected uh because of my ability to dissociate um we were tested as

11:46 children tested by a man named Alex Houston to um test us for our ability to disassociate and that

11:57 took place at my grandfather and grandmother's house outside of Nampa Idaho at Lake Lowell and

12:05 and that was that was a pretty pretty traumatic little ordeal there we were each taken Alex

12:14 Houston came out to the house see my grandparents had gone to Disneyland and for the for the week

12:22 as a as a vacation a romantic vacation for them to Southern California and Disneyland

12:28 and what they were really there for was they were getting um they were getting told and taught how

12:43 and so while they were away to Disneyland getting their their training on how to

12:49 raise children in the project we were at my grandparents home staying there for the week and

12:57 um they had a guy coming out to entertain us kids and so we were all waiting and you know

13:04 as little kids we were excited this guy had a dummy doll thing that he was going to show us you know and and do a little show for us and and so he came up the drive finally it

13:15 was evening and he he did a little show for us Alex and um what Elmer I want to say his dummy

13:23 yeah and they did this show for us and then after the show they said that they wanted to do a test

13:30 they wanted to do something with us kids and so each one of us was taken back into a room there

13:38 with Alex and we were tested for our ability to dissociate and so what that entailed is

13:46 um we were taken back there one by one first of all and my sister was

13:51and they had in the room a box that had a hand in it it was a separate human hand and

14:01they just opened it so my sister went back there and she what what the thing was was

14:09would you dissociate and so my sister screamed when she went back there and they showed it to

14:15her and then my older brother he was taken back and he screamed when he saw the human

14:22hand he didn't dissociate and then when I was taken back I didn't scream I saw the hand

14:29and I just dissociated from the situation I was there with my grandfather and his friend

14:37I just dissociated and so I was taken back and so I was selected for trauma-based mind

14:44control programming sponsored by the Central Intelligence Agency because there's a lot of

14:50people doing it not just the CIA the satanic what I call the satanical leader also doing it really

14:57rich people will we consider to be the elite a lot of them now I'm not saying all I don't know

15:05that for sure but what I witnessed was a lot of them are involved with Satanism and trauma-based

15:12mind control they put their own kids through it and so that was the test that we were put through

15:20uh there at my grandparents house and so I was selected at the age of five and then the next year

15:26we began our trauma-based mind control programming at the Disneyland facility in Anaheim California

15:35there's a lot of human human bio programming trauma-based mind control programming going

15:41on at Disneyland in Anaheim California I realized how crazy that sounds but that's what's going on

15:49it the best place to hide something is in plain sight and so in Disneyland underneath that park

15:58there are various tunnels and rooms and areas set up specifically for Monarch programming for

16:07doing things like filming Kitty porn killing people human trafficking holding people there

16:15for use by the agency or other individuals I'm not entirely sure who else on that but there's

16:25a lot going on there and so we every year we'd go there well not every year I take that back there

16:33were a couple years we didn't go I believe and so I don't I don't know Emma how many times I've

16:39been to Disneyland so many times that it it just every year that's where we went on family vacation

16:47um but there was a lot of programming that took place there I've been able to work through uh my year there in 84 and my year there in 93 or 95 I forget which

17:02and so it's been a lot of work though working through those those events and those years and

17:09so I'll keep working on them and try to get through them all but there's a lot there to work through and so I started to remember all these awful things taking place in 2017

17:24um which sent me on this journey to understand what had happened to me and how I had gotten to

17:31where I was and Disneyland was part of it because my wife would ask me you know why can't you

17:38remember things about this or that and I couldn't tell her a whole lot about our trips to Disneyland

17:45um and so she noticed that I had memory issues as far as my past goes and so

17:53um things like that really started to push me into exploring what was going on

18:00um I feel like I should talk about that a little bit how I came to the point where I

18:05was where I'm at now does that make sense Emma yes absolutely yeah let's do that and then we

18:13can you know is your connection going okay yeah it's good okay my connection's acting up pretty

18:20bad and so I'm trying to make sure that you can still hear me yep I can hear you okay very cool

18:28yeah so you know Disneyland was a huge part of our Lives growing up and I didn't understand the

18:36context of that until around 2017 when I started to work through these things

18:42and so one of the things that pushed me through even wanting to know what had happened to me in

18:50my past um was the fact that I felt like something was wrong in my life because life was really Emma

19:00pretty good like I had have a beautiful wonderful wife we have beautiful children we had land in

19:06Idaho it was a beautiful place and a beautiful place to be in life but I felt like something was

19:13wrong all the time in my mind I felt like there was it's difficult to explain and my wife noticed

19:20this as well and one of the things that really was a catalyst though and so I started to feel like

19:30something was just a little bit wrong but I also began to understand I couldn't remember things

19:36and so one of the catalysts of that was uh that Charlie Pride you maybe have heard me

19:43talk about it before seen it in my website Charlie Pride I went to that Charlie Pride

19:48show with my grandparents when I was a teenager and for the life of me the way that I remembered

19:56it initially up until 2017 when I started to work through it I did not meet Charlie Pride I did not

20:04meet that man he was backstage and I never talked to him and when my wife and I were talking about

20:12the picture that he signed it blew me away that he had actually signed it because in my mind he

20:20hadn't signed it we got an autographed picture there at the show and in my mind only oh two

20:27maybe three individuals had signed it from the band but not Charlie and so when my wife said

20:32no Johnny Charlie signed that picture and I went and I found it and it was signed it was up in our

20:39attic it blew me away I was like oh my goodness I just could not believe it how could it be that I

20:46couldn't remember meeting this man he was a famous country musicianist why wouldn't I remember that

20:53and so when I understood that that I couldn't remember things I thought well

20:59it was a hard thing to do Emma but I thought to myself I need to see a therapist that's a hard

21:05thing to accept as an individual that you need to see a therapist

21:12made that choice I said something is wrong and so I started seeing a therapist and I started

21:18working through it unfortunately I wasn't able to see her for very long because uh the things

21:23that would happen when I'd come to see her uh it just started to scare her and the things that I

21:30was talking about she didn't it was just way over her head she was this sweet sweet older

21:36lady this older Christian lady and and it just it was too much for her really all of it and so I

21:44was only able to see her for a short time yeah which was unfortunate but she helped me a lot

21:51she helped me to work through that first barrier because in in Monarch programming you hit walls

21:58you hit walls and they're difficult to go through and it takes something to push you sometimes

22:04through that wall and so that's really that leads right into the premise of Monarch programming

22:12which is dissociation and the creation of multiple personalities within an individual and so that's

22:20the whole point of all of that I don't know if we've said that another thing I'd like to say just so folks are aware as we're talking about these things we may cover some things that are triggers

22:31um I don't know if you warned anyone of that yet or not but that might be something people

22:36need to pay attention to so that there will be triggers in our conversation

22:42so I started seeing a therapist and and um started to work through all my memories and

22:50tried to understand clearly what I had uh what had happened to me when I was a child

22:57and what I started to find was just mind-blowing Emma it just blew me away

23:03and one day I came home and my wife she was and she was down taking a walk and I ran down to her

23:11on her walk there on our property and I said babe babe this is really weird but you're married to uh

23:19CIA Sleeper Agent a CIA sleeper assassin I said this is really it really freaked me out because

23:30of the things that I was remembering and one of the ways that I was able to start working through

23:36these things really the therapist helped a lot Emma but what really helped was journaling it out

23:43I read some of Kathy O'Brien's work I haven't read it all um seems to me like she's a wonderful

23:50individual and I think very highly of her but her work is really

23:58done and so I read her first book and some of so when I thought I saw a therapist and started

24:06to understand that something was wrong and we started to work through it after that period

24:12of time started I started looking into Kathy's work and one of the things that really blew me

24:18away in Kathy's work were the correlations and so for example there's a part in Kathy's book where

24:26she talks about being programmed to be a message Courier by someone sticking a knife in her chest

24:34and the first night I read this I didn't it didn't hit me and I put the book away and I went to bed

24:42and then the next night I sat down with the book and I was reading it and I didn't know where I had

24:49left off the night before and so I just started at the top of the page and said I'll just read the whole thing and so I started reading the whole page again and when I came through the the section

25:01where she talks about the individual sticking a knife in her it hit me like a ton of bricks

25:08my uncle doing the same programming to myself and my uncle was the first person that I remember

25:15doing it to me I was had that happen to me by several individuals and was also tortured in

25:20that way by my grandfather at another experience in McCall and that was actually on the 4th of

25:27July that's something I haven't written about but that was a horrific experience they're just cruel

25:32people they're dissociative multiples and so but back to this back to where I was at and so I

25:41I remembered this event uh occurring and it just blew me away because I have a scar on my chest

25:48in the exact location that Kathy described I just took my shirt off and I was like holy [____] look

25:55and I could remember my uncle with the switchblade sticking it in me making me memorize and things

26:02that's what I first remembered and so that was really shocking the scars that I found on my

26:09body have really been been difficult to to just disregard because I have scars that I'm I've been

26:19like well how did I even get that for years I wonder how did I get this scar where did it

26:25come from and to remember where I got them is is interesting it really you just remember how you

26:33got a scar that's that's all there is to it you just remember um do you have any questions Emma

26:42I'm sorry I'm talking an awful lot oh you're doing awesome thank

26:47that you're sharing I know that this stuff you know it's like you said it it sounds crazy because

26:53it is you know these are literal Psychopaths that are you know collaborating together to exploit the

27:02gifts that we're born with in children you know and it's just horrific you know and then seeing

27:08all the different elements that go into these stories you know people get little Snippets here

27:14and there about you know human trafficking for example you know that word was word now but like

27:21the misunderstanding of what that entails to the depths of it and even as you were talking about

27:26with therapy you know it's really sad even that in therapeutic settings you know did

27:33um trauma actually storing in the body manifesting as disease you know and the different symptoms

27:38that SRA and MK Ultra survivors go through it's so discredited and you know conspiratorial in a sense

27:47and it's really sad you know because it's like gosh how I mean how much more amazing would your

27:52healing Journey maybe have been in the beginning if you would have had a therapist that like was on the same page with you and was like oh I know exactly like you have did you know let's work

28:01through it yeah of like getting scared you know so I really appreciate you bringing light to all

28:06of this because it it doesn't sound crazy when you actually hear all the pieces and how they

28:13fit together in a story like yours you know it makes sense and so you talking about this is so

28:20important to validate so many other experiences of people who maybe can't get up here and talk or will never have a voice for whatever reason you know it's so validating for people listening

28:29and for other survivors so you're doing awesome yeah well thank you all right on yeah well I'm

28:36glad you can hear me on that side my internet is working a little better now so oh good okay yeah I

28:43wanted to invest so if I can um you mentioned the 4th of July is there anything in particular about

28:50that day um of why they would choose the Fourth of July for an event I don't sell I don't hear

28:57that event talked about as much as say Christmas or some of the other holidays that they choose to

29:03do really horrible things on and since it's July I thought maybe I'd ask you about the significance

29:08yeah yeah no that's a good question Emma um they they use holidays a lot and so are they

29:16you they use and they used on me holidays a lot and so I have to pay particular attention

29:22to those like you say Christmas Thanksgiving big family get-togethers when people would get

29:29together my family we lived really close with my my abuse base was close and so it get-togethers

29:39even included birthdays I gotta watch those because a lot of things on your birthday

29:47um about the Fourth of July I I don't know quite how to answer that because it is an important day

29:55in the country and for various Patriots and so yeah I I don't quite know how to answer

30:04that yeah I don't know of the randomity of that date compared to any other so as

30:10far as the holiday goes anyway yeah that's totally fine I appreciate you you know even

30:15just explaining the holiday concept because it is you know they they take everything that's good and they twist it so it's not they do what they do is they turn it upside down

30:26um yeah to use a trigger is up is down and so in Satanism and in the project

30:35um Up Is Down you take good turn it bad you take bad you make it good dark becomes light

30:43they're they're really into opposites and so it's important to pay

30:50example uh one opposite to pay attention to is uh in numbers the numbers 666 is always considered to

30:59be the devil's number but in Satanism everything's inverted and so an even more important number is

31:06999 because 999 has been inverted and so it has hidden meaning and so that's something I pay close

31:14attention to and I'm out and about and maybe there's a car that is making me uncomfortable

31:21what is this license plate say so yeah just as a side note there um but maybe what I wouldn't mind

31:30doing really quick Emma is explaining to folks what trauma-based mind control is because there

31:37might be some folks who don't understand that and this helps to explain why I'm trying to blow the

31:42whistle on this because I've tried very hard to blow the whistle on this I've contacted the FBI

31:48I've contacted the Attorney General of the United States I've contacted Trump when he was in office

31:54I don't trust Biden I'm not going to contact Biden I don't want to get into politics but

32:00I've contacted a lot of people and I've tried to blow the whistle on this even down to talking to

32:07 local sheriffs and everyone is just afraid of it they they don't even know how to even as law

32:15 enforcement to process it or they've been told to shut up and they're not going to talk to me

32:20 about it right one or the other one or the other yeah and so what it is the Central Intelligence

32:28 agency's trauma-based mind control program it is essentially taking children um and bringing them

32:37 up through trauma the most important children are children who were generationally abused

32:44 so children who abuses runs in their family one of the most horrific forms of abuse for a child to

32:53 push you to a point of dissociation is child abuse and child abuse by your own family it's it's awful

33:02 and it's so awful that it pushes your mind out of your body you disassociate sometimes you leave

33:08 entirely and I can remember I have several flashes of I should say on that of being out of my body

33:17 I can remember being out of my body when I was in the depth tanks and they had run me through

33:23 suicide programming but that was a different experience but they will push you out of your body

33:28 and the point of the whole project is just that to find children that disassociate who are strong

33:36in dissociation and the strongest ones come from generationally abusive families and a lot of those

33:45generationally abusive families uh come from Elite bloodlines and so the rich are into this like I

33:53was saying the very wealthy they live a completely different lifestyle one might say than the general

33:59population and the strongest that disassociate are those that come from generationally abusive

34:09families and then you include in that satanic generationally abusive families and that's what

34:15I come from is from a generational a satanic generationally abusive family my family are

34:22satanists and they're hiding in the Mormon Church religious institutions are free of this and it's

34:29not only the government religious institutions are aware of this I was raised in the Mormon church

34:36and so that's where my background comes from and I was connected to Gordon B Hinckley and Thomas

34:43Monson and Aaron and those are the individuals that were in my life I was going to be placed

34:49under uh Hinckley in an internship in Salt Lake but back to what I was talking about with the

34:56purpose of it the purpose of it and how they do it is they do it

35:04you from the time that you're born I can remember being abused as far back as I can remember and

35:12and then they make you witness awful things and so my grandfather for example he was a psychopath and

35:19he killed people for the CIA and so I would have to witness this firsthand as well as the disposal

35:26of individuals which was very bad to go through and so I don't eat pork a lot of people that were

35:34were killed by the agency and the satanic Network were fed to Hawks they're fed to pigs pigs will

35:42eat anything and so I've heard people talk about well where's the evidence where are the bodies

35:48for these things well they were fed to Hogs it's they control Hog Farms and so there's also other

35:56means such as there's a beetle that'll eat the human body as well and so I've witnessed those

36:02being used as well and those are not a very cheap option they're very expensive um so you witness

36:10all these horrible things the first time I can remember people being killed was in Disneyland

36:17um this little girl that was held under the park there and we were taken off of a ride

36:23um and taken down under the park and then made to witness uh

what I would call a blood sacrifice

36:30ceremony of sorts and um that's a long story do you want me to tell that story it's kind of

36:37gruesome I can tell it if you want it's up to you if you're comfortable telling it I know it always

36:43gives listeners context but there's absolutely no pressure If it's not something that you want to get into right now okay I don't mind talking about it these things are all pretty awful

36:52and they're you know I live through it so and on this too like your your the audience listening to

37:01you they've listened to you know they kind of expect a level of discomfort you know they're

37:07they're listening to horrible things every episode you know so you're in front of the right people who are going to be receptive to you know holding and holding space for what you're saying okay okay

37:17so at Disneyland uh one of the ways that they do programming and this isn't the only way but one

37:26of the ways is uh they will act like a ride broke down and so you'll be loaded on the ride and then

37:33the ride will start up and usually you're put in between various cars so my family my older

37:40brother and sister oftentimes would be loaded in front of us me and my younger brother because my

Houston and so he also went through

37:53a lot of a lot of trauma-based mind control programming and we went through it together

37:58and so we would be loaded on the right but they'd put a car between us or two and then put us on and

38:06then send us in and then the ride would break down and it would stop and it wouldn't be going and a

38:14moment or two would go by we would be unloaded from that ride it would be in the it would stop

38:21at the right spot and we would be unloaded from the ride and we would be taken under the park

38:27and in one particular instance on my first trip there I can remember being taken under the park

38:33taken off the ride and being made to witness my grandfather um yeah committing murder under the

38:42park so what happened is uh it was the wild toe bride and it stopped out in the ride I was with

38:50my little brother and my dad and someone came out through a door out of the the ride setting

38:57and they got us but my we were scared me and my little brother and so we didn't want to go

39:04without our dad and he came with us that time this was right at the beginning of it all in my

39:09 life as far as programming at Disneyland and so he came with us and we went under the park and

39:19 and when we got down into the tunnels we were taken into a room by this young man

39:25 and my grandfather was in this room it was very dark my grandfather was in there he had

39:31 the robe on a black robe and he was very angry at this individual for bringing my dad he told

39:38 him not to bring my dad with him and so he he had to take my dad back up my grandpa he took

39:45 me and my little brother back into this other room and in that room Emma were cages set up

39:52 in that room and they were set up around what I would consider to be an altar and that altar

39:59 was there for killing people for killing the children that were held under the park in

40:07 these cages and so this might be really hard for people to hear but these people are inhuman and

40:13 the trauma that they're trying to initiate is so bad it's unimaginable there are two children that

40:20 were held under the park at that time in cages and my grandfather he he killed in front of me

40:26 and my little brother one of the girls that was held there she was just

40:33and he just took her out yeah and he he put her on the on the Altar and he he killed that little girl

40:41and the altar was designed so that um the blood of the people that they would kill

40:48would be caught and they would catch it in a in a bowl it was usually white because of the contrast

40:55of the blood and see blood Emma that's drawn through trauma it has certain chemicals in it

41:03and satanists believed that that blood is powerful and it gives them longevity in life and so a lot

41:11of the stuff that we're talking about too when we're talking about traum-based mind control is

41:17um it's very satanic and it's involved with dark magic when I first remembered or or I shouldn't

41:25say first remember when I first started to remember and it when I realized what I had

41:33lived through it hit me so hard when I broke through the wall when I was with my therapist

41:42and now we're going back to 2017 when I see my therapist it it felt as though I had broken a

41:49very powerful spell that is the only way I could describe it to my wife was that a very powerful

41:59spell had been broken and so there's a lot of Satanism involved with that in particular in

42:06what I was what I experienced and what I lived through unfortunately and what a lot of other

42:12people live through which is terrible but back to Disneyland that little girl was uh murdered

42:19and we were made to drink and consume her blood my grandfather made my little brother and I both

42:26also drink they started that from a very young age and that followed through my life up until

42:34I was a young adult the last time I can remember being made to do that was on an operation in Haley

42:43Idaho there and outside of Ketchum and so then you'd be put back on the ride so at Disneyland

42:51we were made to be involved with these things and then we'd be put back on the ride and then

42:56the ride would start up again all these things we were also made to make porn under there that was a

43:02common theme and um and be involved with things of that nature there are also people Emma that

43:10were there being programmed for acting which is interesting to me and so that in the project in

43:19the program there are your program a lot of people are programmed for different life paths I would

43:25call them and so for me I was being raised uh in a family where we got rid of people for the federal

43:33government that's what we did as a family and we also got rid of people with the satanic Network

43:41and the satanic Network that I was involved with is directly connected to the Mormon Church

43:47which is it's just too bad that the religious institutions are involved with these things but

43:55that's somewhere that Satan is hide and so the Mormon church is well aware of trauma-based mind

44:01control programming and and they're directly involved with it they provide generationally

44:07abused children to the church one of the big things in the church for example is genealogy

44:13that genealogy that they're working on is also used to find Elite family Bloodlines satanic

44:19family Bloodlines and they're able to follow that and they're able to work with those children this

44:26helps them in the project and so these various institutions such as religion government those

44:32are able to be used by the satanic Elite and by the government intelligence Community for various

44:40things and that's one of the things that they use it for and so I've

44:47lot I want to finish up on on the premise of trauma-based mind control programming

44:53um because it is important and so the premise of it is to cause you to disassociate through

45:01trauma we talked about that and then once you are in that state of disassociation and Trauma they

45:09program you we could call it with a new personality for whatever it is they want you

45:17doing in that personality and so there are lots of different personalities that they will create

45:24I don't know how many I have but I've learned to work through them that's something that I still

45:30work with and still have to work through and they will create them for uh doing things like

45:39um well we've talked about assassinations that will program you to do such things as that or

45:45murder for the network they will also program you to make pornography I was made to make an

45:52extensive amount of child pornography I was used as a child to make I I can't even tell you how

46:00much and my family was heavily involved with that they had a video store there in Nampa and and so

46:08 out the front door they'd be renting videos about Disneyland and the recent Blockbusters and then

46:14 out the back door would go kitty porn it was very messed up and I can remember being made

46:20 to be involved with that uh clear up into being a young adult and that's something that the satanic

46:27 leader into too what we're talking about are moral boundaries and if you're a Satanist you

46:33 are not concerned about moral boundaries those are something for common people and so yeah it's

46:41 difficult to get into the minds of those folks they're yeah they're not very healthy but the

46:49 premise of it is to create those personalities so that they can use you for various tasks and one

46:55 of the benefits of of a mind slave because that's what it is you're a slave you're a trauma-based

47:01 mind slave you're living in a state of mind slavery which to me is one of the worst things

47:07 you can do to an individual and that's one of the reasons that I'm so outspoken on this is because

47:13 you steal someone's free will to live their life and do what they will with their own body

47:20 and their own mind they steal your mind through this process of disassociation and the creation

47:26 of another personality or multiples of them and so it's a terrible thing to do you're stealing

47:34 someone's Free Will which is just wrong you're you're living in an upside down um world and

47:44 what they're able to do Emma is make it so that you can't remember being in that personality or

47:52 going through the trauma that you endured and so yes you are caused to dissociate you're put

47:59 through trauma which in and of itself is difficult on the human mind and difficult to recall pure

48:05 trauma and then you add into it creating a multiple personality well the CIA in particular

48:12 has gotten very good at the scientific aspect of it we're going to call it and one of those

48:18 scientific aspects is hypnosis this is an old practice that is very effective on dissociative

48:28 people and they will use uh hypnosis every time I was put through trauma I was put through hypnosis

48:35 afterward to remember to forget those events and they will put various things in that hypnosis

48:43 like suicide programming and things like that if if that's what they're working with and so they

48:52 will use hypnosis and then another thing that they will use is

48:58he was given when I was six years old and I was in Disneyland
they're in 84 we were at the hotel

49:04and um this is where nefarious individual named Mr bird comes in
because um I knew Senator Robert

49:13Burke he was a scumbag he was in charge of of funding the Central
Intelligence agency's mind

49:21control program not a good person and he was friends with my
grandfather my grandfather and

49:27him worked together I'm not quite positive about the extent of that
but it seemed to be pretty

49:33extensive from what I can remember and so when I was in
Disneyland we were me and my little brother

49:40we were sent out and we're in a hotel to backtrack just a little bit just
to digress we were in

49:46a hotel we've been at Disneyland all day this was after we'd
witnessed that that little girl

49:52um having you know being murdered and we were taken back to the
hotel after that day at the

50:00hottest part of the day and we went swimming and so when we were
swimming my mother she stayed in

50:09the hotel and she came and got us after a short time my dad he was
out soon with us but my mom

50:15came out and she got my little brother and I and my dad and brought us back inside and um there was

50:22someone there to see us and so we went out front and it was my grandfather and Senator Berg and

50:27they were there uh they had a black Cadillac that they had driven there they like fancy nice cars

50:34and they were both in suits and as a kid I was like my God it's so hot how can you even be in

50:40that thing and that was um that was the first year as a Disneyland and bird gave my father a taser

50:50at that time out there in the parking lot he said here this is for uh working with the kids

50:56you have to use this on them and he explained that we had to pick a spot on our bodies where

51:02we were going to get hit with this thing for the rest of our lives because it leaves a scar and I have that scar right here on my leg and I was always told it was a birthmark as far back

51:13as I can remember but I'm like no no no dude I remember that's not that's not a birthmark and so

51:25um we were hit with a taser after we talked to them so Mr bird and my grandfather they left they

51:32talked to us for a little while you know asked us how Disneyland was and all that and asked how we were doing because we were pretty shook up from it as little kids really you know and then we

51:42 were taken back into the hotel and my father hit us with those things and you want to talk about betrayal and uh the feeling of just pure betrayal because I had no idea what was coming I was six

51:53 years old and to be taken back into the bathroom and you know my dad's like so where are we gonna

52:00 do this thing at and I had to choose you know on my leg and and then Wham and I just went down and

52:08 the pain is just Indescribable of what that thing does but it it it it erases your it doesn't erase

52:16 your memory it compartmentalizes it it pushes it away it pushes it back and with the hypnotism you

52:23 give did a conduit to go away as well that's something else that's important because these

52:31 things are all used in conjunction with each other it's not just you can do one thing and expect an

52:37 outcome and so they're all used in conjunction they have it down to a science and so people like

52:43 me because we disassociate and we have multiple personalities for multiple purposes we're used

52:51 for a lot of Nefarious and illegal activities by the federal government and so you'd be brought in

52:57 for for basically the Dirty Deeds of the federal government what they needed to do that that could

53:05 not be out in the open and they needed to have full deniability of it

53:11things like assassinations for example where we would be sent in and we would get rid of people

53:18I was used in um in Japan for example over in Kobe Japan that was in 1997 I want to say

53:29and I was taken over there and we got rid of a man named masaro takumi and I was a sniper that was

53:37positioned up on a roof because the gang that was going in see the Massaro takumi story is very long

53:46because Masaru was connected to the cult the alumsham rikyo cult and the gassing of the Tokyo

53:57subway system he he provided funds he didn't know it he didn't know he was providing funds to the OM

54:05shinrichio and that they were going to use it to gas the Tokyo subway system he didn't know but his

54:13mistress was the brother of heideki sejal who it was a famous musicianist in Japan he died back in

54:222018 when I started to remember all these things all of a sudden heideki dies of a heart attack

54:28within oh I forgot how long when I started to remember it was terrible but he was involved

54:36because he supported the OM shinrichial cult and he would provide them with funds I don't

54:43know that he knew what they were going to do with him either but his sister who was masaru's

54:49mistress would ask Masaru for money she'd give it to her brother he'd give it to the cold and that

54:56cult ended up gassing the Tokyo subway system but the cult itself was an MK Ultra product

55:03this is such a such a twisted deep Network that they have created and so those people in that

55:11cult that were at the top were mind slaves and they were created uh through Monarch programming

55:18and they were a CIA asset and the CIA was well aware that they were going to gas the Tokyo subway

55:24system and the Pentagon even provided the gas they are the ones who sold the Colt the gas to do it

55:33which is it's incredible the way the network goes but people aren't all good and they don't

55:42all see the world through the same eyes that that people who are good see the world through

55:49and that is a problem but we can learn to work through it part of the problem is the National

55:55Security Act a lot of these things are hidden behind the 1947 National Security Act and people

56:01have no idea what's going on they don't know and it's all under lock and key labeled as top secret

56:08and classified and people aren't allowed to see it and so it's a terrible thing but

56:15right yeah do you have any questions Emma I've been talking an awful lot no you're doing great this is a lot of information I appreciate you giving some background on that

56:26um again it makes it validating to understand the logistics and the intent behind creating something

56:36like this because without the context again all this stuff the way that it has been leaked into

56:43society the little bits and pieces that people get again it becomes conspiratorial so really

56:50understanding the history and the purpose in realizing we're not taught about how powerful

56:55our bodies are and our brains are in school that that information that the Divinity within us is

57:01left out of any education like people feel like crap we have depression everywhere and if people

57:07understood how how they could use something that you understand that was exploited in you

57:13for something good yeah you could be able to in an instant turn all this around you know but they

57:20hide that Divinity from us and instead they know it exists and they exploit it on the back end and

57:26 profit from it and it is so sick and sad you know and again like you

being able to to break that

57:33 down so eloquently and to articulate the purposes why somebody would want a mind sleeve right why

57:41 wouldn't the government want just kind of not Expendable people but people that aren't them to

57:47 do their Dirty Deeds so they can continue to be in the spotlight and look good and have other people go and do the stuff that they you know are to you know cowardly to do themselves in a sense and and

57:58 so evil to even want to do to begin with you know so I just want to thank you for giving some of

58:04 that history because it really does help people connect dots on their head and say that makes

58:10 sense like I could see our government wanting to do that I could see how and why somebody would

58:15 choose a church to hide this in you know it's the perfect disguise exactly how you know Freemasons

58:21 hide in plain view and through charity and they're so evil you know and even mentioned Disney you

58:27 know he was a Walt Disney was a Freemason I've heard higher than the 33rd degree but I mean these

58:33 people hide in these very you know charismatic and exciting archetypes you know and even talking

58:40 about your grandpa like wearing the identity of a a singer that's just

58:49wasn't even his true identity you know these things are so left out of society so I really

58:55appreciate what you're bringing to the table because it does validate these stories on such a deep level and I know it's going to be it's going to be very helpful in connecting dots with people

59:04yeah yeah all the stories coming together do help connect the dots but something I'd like

59:10to add when I first started to remember these things I had a friend of mine ask me he said why

59:17would they do this why would they why would they want someone like that why wouldn't they just have

59:24have an agent or a soldier do that and the reason Emma is because it's not all black and white and

59:34if you have a healthy minded individual who is your agent or Soldier and you tell them I want

59:41you to kill this man who is an enemy of the state and I want you to kill his wife and his children

59:51as well that individual is going to say he's going to question that or she that individual

59:59if they're a healthy minded individual is going to question that that's immoral and that's one

1:00:05of the reasons that they want mind slaves it is because they don't remember because they will do

1:00:11things such as smuggle drugs or be used in porn or be used for blackmail or be used for assassination

1:00:17and they won't remember but it's also because they will do what you tell them to do without question

1:00:25that's a big key to it as well and so I had to explain that to my friend and when you bring that

1:00:33into context it also helps with an understanding of it because it is dark and it is evil I was used

1:00:41um so I was raised in in this program with through the Central Intelligence Agency and I was used for all kinds of Nefarious things including child porn and assassinations

1:00:54which is too bad it's a terrible thing and a terrible thing to live with but

1:01:05and I do if I could ask you one question actually yeah you can I mean the role that your parents

1:01:11played in this or how like kind of their history and their role um whether they were mind control

1:01:18slaves to you or sort of how they fit into the picture well that's a good question Emma yeah so

1:01:26my father he was very he was abusive but he seems as though he was a disassociative multiple in some

1:01:33way as well and he was involved with the project because my grandfather it involved all of us in

1:01:41the project that he was able to and so my father he was involved with the project but he didn't

1:01:47we all have strength strengths and weaknesses and my father um he made

1:01:55it so far I guess you would say in the project and his role um when he had us was to raise us

1:02:04um to raise us in the program and in the project and so he was one of our key abusers

1:02:11and so it seems to me that he was a disassociated multiple because of the

1:02:16horrendous abuse that he was capable of my mother she also seems to be a dissociated multiple but

1:02:24I don't yeah I I pray for my mother I hope that she's okay but yeah but I that's a difficult one

1:02:35because she seems to me more like a tool than anything who is disassociative and they're able

1:02:42to work with and keep her under control I would say and so my parents um yeah does that answer

1:02:54your question yes thank you so much for that yeah because I know it does it does have a generational

1:03:00effect you know and a lot of times unfortunately there does seem to be more of a I know they're all

1:03:08unconscious to a degree but there's there does seem to be kind of a leader in the family that originally takes on the role and then it's very

1:03:18it's just an autopilot you know multi-generational it's how the trauma stores and the DNA you know

1:03:23it just becomes like a normal pattern in the family so it's really sad to hear about that you know that your father also didn't you know have his Free Will and you know was forced to do

1:03:35these horrific things it's just it's disgusting and it's sad you know it's yeah yeah it is yeah

1:03:43but that is what they do though they use families because families have a huge bind of trust within

1:03:51them you know you're your family that's someone that you should be able to trust right completely

1:03:59yeah not in the project yeah so so I was raised in this in the cia's mind control program but we

1:04:08were protected through the Mormon church I would say a message that I would like to communicate

1:04:14is that the more my church is being controlled by a satanic Kabul those men who are up there at the

1:04:22top those men are not good people they're very bad people I personally knew Hinckley I'd met him back

1:04:31in 95 after he became the prophet and I met Thomas Monson and they were both bad people not good and

1:04:42Hinckley I met because my my uncle and CIA Handler he did the presentation for Hinckley I I don't

1:04:50know if you're LDS at all or if you were raised in the church Emma but that in the church the prophet

1:04:57he's like the head guy he's the pope you would say of the LDS church and he was invited to to uh

1:05:07to my uncle's Ward I suppose he was invited he came to my uncle's Ward to speak in Haley Idaho

1:05:13and that's where I met him because I was told that I had to come and meet the prophet and see

1:05:19him speak and so we went and my uncle he housed us me and a friend of mine who was also a mind slave

1:05:26as well uh I was I was raised around other kids that were also my slaves said that we're in the

1:05:33project and in the program and we'd be used to handle each other and keep each other in line

1:05:39uh or be used for um aliases for various things you know where was so and so oh well this person

1:05:48can vouch that they were over here but we met we met Hinckley there in Haley uh they we did

1:05:55a presentation for him because my uncle arranged it because Hinckley had just become the prophet of

1:06:01the Mormon Church the president and he wanted to know what was going on with the Mormon kids from

1:06:09abusive families and satanic families he wanted to know what the

1:06:15and so me and this other kid Chris we were used in the presentation and it was done in my uncle's

1:06:22basement in his office there and we were used to show what it was that they were doing with us and

1:06:31so I thought as a kid you know that I was going to hear the prophet speak and I was just going to go

1:06:37to church and that was that but we went to church and we heard Hinckley talk and it was really weird

1:06:44when he even arrived at all because he came in through the side door after a church had already

1:06:49started and then he was seated up in the front and he sat next to my uncle and they talked for quite

1:06:56a while and it looked like they were having quite the conversation I can remember watching them and I was like my goodness what is what is Gail doing talking with Hinckley what are they talking about

1:07:06because you got to keep in mind we're in the middle of the service someone's given a talk

1:07:11you know and so they're up there talking and then Hinckley was finally got up he gave his talk it

1:07:19was short and just pretty mundane I was blown away I was expecting something prophetic

1:07:27like wow this is the profit this is going to be incredible I'm going to be moved Emma Beyond

1:07:33imagination no I it was like wow okay I've heard that talk like ten thousand times in my Mormon

1:07:41past you know and so that was a little disappointing and then they they he sat down after

1:07:48giving his talk and he talked to my uncle for a little while more and then they left the prophet

1:07:53left uh in the middle of the meeting they said okay everyone we're stopping for a minute and the

1:07:59prophet's leaving and so they all laughed through the same side door they'd come in but when he'd come into Emma he was surrounded by bodyguards uh the prophet which blew me away I was I was a young

1:08:11man and I'm sitting there and I'm like why why would the Mormon prophet need to be surrounded

1:08:17by bodyguards it didn't make much sense to me in my mind because I figured if you were a man of God

1:08:22God's going to take care of you until it's time to go and then it's time to go and so what's the

1:08:29problem why would you worry about it if you were the prophet well he was surrounded by bodyguards

1:08:34and so then they all laughed and then sacrament meeting ended and uh Chris and I we had been

1:08:41told that we're supposed to go back over to my uncle's house after church and we're supposed to

1:08:48um come back over there because there was something going on and so we were told to head over there and we got into our car we drove over there first I talked to my cousin because I

1:08:58was a little nervous about it uh I was like why are we going over there what's going on and so I

1:09:04went and found my cousin and she told me no we're not going back over to the house well what are you

1:09:09talking about and her and her friends went back in the building well Chris and I were like well we better get over there you know my I knew my uncle didn't like to be made to wait and so we headed up

1:09:19there drove up to the house we went inside seemed like no one was there we went down in the basement

1:09:25and uh knocked on the door well we were supposed to do a secret handshake my

1:09:31uncle had shown me this handshake you see Emma before this the night before

1:09:38all this happened before the prophet spoke we stayed at my uncle's house and we stayed in

1:09:45the basement next to my uncle's office and uh we were very heavily abused that night

1:09:53because they were getting us ready to meet the Mormon prophet my grandfather came up from the

1:09:58Boise Valley it was about a two and a half three hour drive from Boise to Haley my grandfather

1:10:04drove up and another individual that I know is Kyle he was there

and if Kyle wouldn't have been

1:10:11there it would have been really bad my grandfather might have killed us it was such a horrible

1:10:17experience and my grandfather was out of his mind and so they tortured us through the night I don't

1:10:23I'm not sure how long they tortured us for and and worked on us to get us ready for in the morning

1:10:30and in the morning when I woke up I felt terrible Emma I just felt horrible and my body would just

1:10:37felt awful and I I couldn't understand why I was like is the room stuffy what is wrong with

1:10:43me and got out of bed got moving and my uncle he met me in the hall and he told me that he

1:10:51needed to show me a handshake and this is where he told me I needed to come back to the house after church and he showed me this handshake and he said you need to remember this because

1:11:01when you come back after church you need to come down to the office and you you need to know this

1:11:06handshake to get in the door when you get here and I was just kind of like okay like I was half

1:11:13awake I'd been up all night being tortured and he showed it to me and I could not remember it

1:11:19and he says do you got it and I tried it again and I I couldn't hardly

1:11:26and he he was like okay you got it you're good and then he left and in my mind I was like oh

1:11:33no I don't got it I sure hope I got it because I don't feel like I do and then and so we went

1:11:41to church and we listened to the prophet and all that and then we came back to the house well now

1:11:47we're standing at the door to get into his office and I knocked on the door and Chris he's behind me

1:11:52and Chris he was a young man he was a funny kid he had a loaf of bread we'd been fasting all morning

1:11:58because we were supposed to fast we were often told we couldn't eat when we were going through

1:12:03programming sections because it affects the human mind it puts you into more of a survival State and

1:12:10so we were fasting quote that morning and so Chris he grabbed a loaf of bread on the way in and he's

1:12:17standing there eating a loaf of bread and I know on the door and the door I hear some noise inside

1:12:24and I was like oh man what what is going on in here and the door opens and a hand sticks out

1:12:32and I see the hand and I realize okay I have to know the handshake now and so I tried to shake

1:12:39 his hand and remember but Emma I couldn't remember what the handshake was my uncle had not programmed

1:12:45 me well enough to remember it these people are not perfect and they don't get everything right and in

1:12:52 my mind you know they have a process but they're really not that great at it there's a lot of flaws

1:12:58 to it and yeah part of it is just because they're scum but I couldn't remember the handshake and so

1:13:08 so the hand goes back in and the door closes and I hear some some murmuring behind the

1:13:15 door and I was like oh no I did not remember it now in the project Emma if you screwed up

1:13:21 you just period you didn't know how long you were going to be alive you witnessed so many people die

1:13:27 in front of you and part of that was to keep you honest on a constant state of alertness that you

1:13:34 better keep your [____] together and you better do your job right or you might be the one who's

1:13:39 next and so I was a little afraid about the fact that I couldn't remember well Chris just pushed

1:13:45 me out of the way luckily Chris could remember well I guess luckily we should have ran the hell out of there at that moment but Chris could remember and he pushed me out of the way he

1:13:55 knocked on the door the hand came out and he was able to shake it

<https://yabasta1.wordpress.com/2023/07/30/s3e39-j-r-sweet-operational-cia-monarch-mind-slave-on-disney-lds-church-mk-ultra-secret-ops-and-transcript/>
and we were able to go inside

1:14:01and so he did remember because my uncle showed it to him as well and so we went inside and uh Gordon

1:14:08was in there with his Entourage of bodyguards at first I couldn't see Gordon I was just walking in

1:14:14this room and there's all these dudes in there in suits of various ages but a lot of them were young

1:14:19men there was an older gentleman there I remember and we went in there and Gordon he was sitting

1:14:25at my uncle's desk and he was turned backward so that we couldn't see him and my uncle was standing

1:14:31there and he says come in boys there's someone I want you to meet well it was Gordon it was Gordon B Hinckley he was there and that was the reason for his trip to Haley it wasn't to give that

1:14:41mundane speech or talk at church it was because he was interested in the project and we were there to

1:14:48do a presentation for him and so that night before we had um we had gone you could say we'd gone

1:14:55through the presentation and all the aspects of everything we were going to cover in this present

1:15:01Temptation and so we were made to we were made to strip naked there in front of Gordon we were made

1:15:08to enact homosexual acts have homosexual sex they're in front of Hinckley we were

1:15:16um made to electrocute each other with a cattle prod in various ways uh yeah my grandfather had

1:15:24brought the cattle brand he was yeah not a very good person and then we were made to

1:15:30um show him assassinations and not just how did how we do it but how we would even die ourselves

1:15:41and so because as a mindsave you mentioned disposability a little while ago well you just

1:15:49might be disposable and there are a lot of folks in the project that are disposable but the what

1:15:56what are called The Chosen are not we're going to say disposable you could be used as disposable if

1:16:05it was for some big purpose like some kind of cultural or social or political event and you

1:16:12were going to die in it you could be uh you could be killed in that way but for the general rule I

1:16:19would say those that weren't of the chosen were the ones selected to be killed most of the time

1:16:25but in this particular presentation I was made to get on my knees and I was Buck ass naked we

1:16:31both were and Chris held a knife to my throat and they explained how you know I would die

1:16:38and Chris would kill me and Chris he would have killed me Emma

<https://yabasta1.wordpress.com/2023/07/30/s3e39-j-r-sweet-operational-cia-monarch-mind-slave-on-disney-lds-church-mk-ultra-secret-ops-and-transcript/>
that he was starting to push that

1:16:44knife into my throat I could feel it pierce the skin I could feel the blood running down my neck

1:16:50and in my mind I was like oh [____] is Gail pissed at me that's what was going through my head are

1:17:00they pissed at me did I do something and this is it like it's over and so I started to turn my head

1:17:06because my uncle and Hinckley were talking and it would this was all just normal stuff

1:17:13like like you know two two three guys all sitting around talking about it though there were several

1:17:18others in the room but those guys were there as as uh security that they you know they were just

1:17:25talking and about these things as I'm on there on my knees and I had to turn my head so that my

1:17:32uncle when he finally looked my way again could see that I was bleeding and that I was about to Chris was about to kill me and my uncle was like Hey Chris don't kill Johnny what are you doing

1:17:43you know don't kill him we're not We're not gonna kill him right now and so he took the knife away

1:17:49and they didn't kill me which which is good it you know I'm glad to be alive but we also demonstrated

1:17:57pain as well but right after that we demonstrated what we what they do to not talk to program us to

1:18:05not talk because that was a big question Hinckley had how do you keep them from talking so after

1:18:11this presentation see Emma I was going to be moved into a position directly under Hinckley

1:18:17I was supposed to be in some kind of internship I don't quite understand it I was being moved to the Salt Lake Area to Sandy Utah and I was going to be um under Hinckley in some kind of an

1:18:28internship thing that's the reason that I went and met Thomas Monson and met with airing was because

1:18:34I was supposed to be moved up there and they were going to be using me for things and so this was the first time that I'd met Hinckley was at this presentation that that we're doing it there in

1:18:44Haley well I'd seen him speak but this is when I really met him and he had this guy there with him

1:18:52um but back to the not talking thing okay he wanted to know how how we were kept from talking and so we were brought up to the desk and we were made to hold knives to our genitalia and and say

1:19:04that we would remove our own manhood if we were to ever talk and this is the kind of programming

1:19:10that they're putting in these young people's minds and this is such a horrific thing that

1:19:16that as a young man it would just it's awful and so even the thought of it is horrible and

1:19:24so these are the kinds of things that they're programming young

people to do in the event that they would ever talk and so we would at

that time yeah I'd never talked at that time

1:19:36and then the next thing that we did uh was we were tortured by an individual there in hinckley's

1:19:43entourage because Hinckley even after all these things Emma was still skeptical how you know you

1:19:50have to picture this guy and he's watching all these things well how do you really know that

1:19:56it's all working that that this isn't all just a show and so we were to be tortured and the rule

1:20:03was that we weren't allowed to be bruised or scarred and so they couldn't do anything to us

1:20:09that would bruise us or scar us because people would ask questions about that scars are a big

1:20:14deal in Monarch programming you're not a if someone else scars you they're in deep [____]

1:20:20you don't want to hurt one of the chosen because there are consequences to that and I'll get into

1:20:26that we got rid of people that would that harm or injure me for example but Hinckley he picked a

1:20:36guy so one of hinckley's guys was supposed to do the torturing for him because he wanted to know

1:20:42that it was properly done and that pain was truly administered if my uncle did it how was he to know

1:20:49that he was really doing it and so he picked this guy he was an older guy I'm not quite sure how

1:20:55old it seems like 50s or 60s or something maybe a little older and he was ex-military very short uh

1:21:02flat top style haircut and uh he tortured us both and he twisted our arms is what he did he twisted

1:21:10our arms up behind our backs and just reamed them and twisted them good um this left no Scar

1:21:16and it didn't bruise anything and I can remember being put through that and it was really painful

1:21:22uh but we didn't scream that was part of our programming we would enter what I call my 10

1:21:28month 10-man programming and so this goes back to The Wizard of Oz programming uh they used various

1:21:36formats we'll call it for programming such as the Wizard of Oz Alice in Wonderland Batman Etc

1:21:42and so my Tin Man personality kicked in and when you're in that state you work through the pain

1:21:52um but you don't it's difficult to describe it's there but you're able to block it out there are

1:22:00times when I blocked it out entirely and have not felt anything and there's times where it

1:22:06is painful but you are able to work through it uh this time with this

<https://yabasta1.wordpress.com/2023/07/30/s3e39-j-r-sweet-operational-cia-monarch-mind-slave-on-disney-lds-church-mk-ultra-secret-ops-and-transcript/>
guy it was painful and I was

1:22:15able to work through it and so he tortured us both and then we did the presentation

1:22:20and this convinced distinctly because this it was his guy doing it you know and then

1:22:27um and then we did uh remote viewing for Gordon remote viewing and psychic abilities

1:22:34are something that people are prone to who have been abused and so the young children who've

1:22:41been abused for their whole life are more prone to psychic abilities than are uh healthy minded

1:22:48people who have not been put through such things and part of the reason I would say Emma is that

1:22:58you have a closer relationship to the other side when you are in real need does that make sense

1:23:11yeah it's like your senses it's like you have hyper sensibility in in a way where everything

1:23:16is constantly like your discernment you're so much more aware of things than other people

1:23:22and can pick up on energies and can pick up on cues and emotions and just yeah like it gets

1:23:30very spiritual when you talk about that aspect of it you know and Society doesn't want to believe

<https://yabasta1.wordpress.com/2023/07/30/s3e39-j-r-sweet-operational-cia-monarch-mind-slave-on-disney-lds-church-mk-ultra-secret-ops-and-transcript/>
1:23:35and that but that's that's where Society goes wrong because these people know that these gifts

1:23:41exist you know and that they can exploit them you know and it's very very real I've I 100 believe

1:23:48that and it absolutely makes sense yeah yeah so they're able to use that a lot in the project of

1:23:56different people for various things I was used for remote viewing and so we did a presentation

1:24:02for Hinckley on my ability to remote view which means uh for people who aren't aware means that

1:24:10I'm able to see things in what I would call the memory field I call it the memory field the energy

1:24:19field it's a field of energy that exists around us all and it records everything that's happening

1:24:28and if you're able to get in tune with that you're able to watch it and see various things happening

1:24:36I've had it occur since I've remembered my past back in 2017. I have a remote viewed for a while

1:24:43but I've been able to do it several times since then which is interesting I'm still working on

1:24:49that process and I don't have it down you know when I was a mind slave and under their control

1:24:57they were able to hit me with that pretty successfully and so for Hinckley I was able to

1:25:07um view his wife because it was hard to convince Hinckley once again that I was truly even remote

1:25:14viewing and so he said well how are you going to prove this and my uncle said well let's view

1:25:20your wife and so I viewed his wife and she was in church down in Utah and I was able to tell

1:25:28him uh well it was you know interesting because when I told him she was at church he he said well duh she better be at church you know because that's where she was supposed to be

1:25:43um but she had a certain kind of show I don't know exactly what to call it uh on and there

1:25:50was a specific color and I was able able to tell him that and he knew when I talked

1:25:56about that because that was a gift that he had actually given to her and so that convinced him

1:26:02of the ability and the the aptitude of remote viewing and so as an elitist you know back to

1:26:10the satanic Elite that they're able to learn these things like you were saying you know the general

1:26:16population they're not even able to believe that these kinds of things can even be happening but

1:26:23these people they know and they want that secret knowledge and it's dark magic to them and they're

1:26:30working at understanding it and having those keys given to them

in order to do those things and so

1:26:37I was going to be moved to the Salt Lake where I was going to be used by the church and the church

1:26:43leadership I'm not exactly sure what form but it doesn't seem good to me um and so yeah does that

1:26:53make sense Emma yes thank you for sharing that I'm so sorry that you had to go through that just

1:26:59thinking about that child like mine you did a good job kind of putting yourself in your shoes

1:27:04as a child you know and it's so sad to think that you had to process all of that and such a quick

1:27:11time at such a young age you know just over and over and over again it's just it's unfathomable to think about you know oh yeah and part of it with their programming in my mind I perceive

1:27:25that they even see themselves as being merciful because that you don't have to remember it you're

1:27:33able to forget what just happened but it still lingers under the surface it's still there it's

1:27:40just at the back of your mind behind a wall or several walls thresholds are a big part of it all

1:27:47moving through that threshold and understanding what happened there so yeah and then I was um

1:27:59so that was when I was 15 years old that I was used in that

1:28:06about to turn 16. and that trip I was taking or that that year so I met Hinckley that summer or

1:28:15that spring that was in March towards the end of March beginning April that that happened that I

1:28:20met Hinckley and then I was sent to Disneyland uh that summer for my last year of programming at the

1:28:28Disneyland Park and so uh that was a really bad summer and then um after programming at

1:28:37the Disneyland Park I was taken back East with my grandparents and that's when I met Charlie Pride

1:28:44um had a couple experiences with bird uh saw bird over there um and that was the year that

1:28:52he bought me that he bought me as a slave that he paid for me and so that was a big year for me

1:29:07oh sorry Emma it's all hard to talk about I know I appreciate you shining a light on this it's it's

1:29:17horrific you know and then just thinking about again trying to process that as a child it's like

1:29:26it's impossible to put yourself in those people's shoes you know it's like there's no empathy it's

1:29:32just stripped from people and it's so terrible to even try to comprehend you know what goes through

1:29:38these people's minds and to think about you know what like the child you were you know and I just

1:29:44want to say you know little J.R I know he's proud of you for being up here today and talking about

1:29:50this and bringing Justice to his story and and empowering other people yeah yeah he tried

1:29:59before to speak out but they would he'd get shut down pretty quick but 95 was when I met Hinckley

1:30:08and I want to say Emma that it was 93 that I was sold to the CIA in 93 and that that is when I was

1:30:21um bought by Senator Byrd and 93 was the last year that I went to Disneyland yeah and Disneyland

1:30:33was a bad year that year it was close to my birthday um going back to 93 and when I was

1:30:44in 93 yeah when I met Gordon oh I'm trying to remember how old I was at all of these times I'm

1:30:54sorry it all gets a little bit jumbled even for me after working through it all it's really difficult

1:31:00yeah but Disneyland that year um that was a bad year and that was the year that I learned that I

1:31:07was being sold to the CIA and they let me know it before before I was my uncle had talked to

1:31:15me about it and and so I was sold to bird that year in 93 and I became an active CIA mind slave

1:31:28now when you're a mind slave for the CIA you have different levels of what you're going to

1:31:35be used for and so I was used as a courier I was used in porn and then later when I got older I

1:31:45was used as an assassin I was used to get rid of people and this is what I would call my Pentagon

1:31:55level Black Operations experience because I was tested by Dick Cheney of all people that son

1:32:04of a [____] I hate that man he is a terrible man and he tested me uh for my Pentagon level

1:32:12uh Black Operations and that took place in my hometown and was arranged through my grandfather

1:32:19and for that I was made to murder a girl from my high school they made me kill her and yeah it was

1:32:28an absolutely horrible experience because they had asked me my grandfather had asked me Emma who out

1:32:38of everyone you know would you want to marry and that is the girl that I was made to kill

1:32:46it's all about completely twisting everything that you can ever imagine in one moment of time

1:32:56and so Dick Cheney did that test and that cleared me for Pentagon level operations and

1:33:03the premise of that test was to prove that I would do anything that

1:33:10that is what that was about for the reason that I just gave you that to have to do that to someone

1:33:18that you would want to be so close to you it was a horrible and that cleared me for my Pentagon

1:33:26level operation so and then I was used in Japan and I was used again in Haley they'd tried to use

1:33:33me on an operation in Boise uh but that didn't go well something for your listeners to understand uh

1:33:42which may sound odd but um The One Drug there's a lot of drugs Emma in the program and in the

1:33:49project they constantly are feeding you drugs they call them potions back to the black magic concept

1:33:57and they're constantly feeding you these drugs and they have different drugs for different purposes

1:34:04one to wake you up one to put you to sleep one to make you angry one to make you feel Invincible

1:34:11Etc the one to Mellow you out as well yellow mellow that's what we used to call that and

1:34:19they would feed you drugs constantly but the one drug you weren't allowed to have was marijuana

1:34:26you were not allowed as a trauma-based mind slave to have marijuana now not everyone in the project

1:34:35let me rephrase that not everyone who is aware that you're in the project knows that they don't

1:34:44all know or understand why you're not supposed to have that because I would acquire that from people

1:34:50even who knew that I was in the project but they didn't completely understand what that was all

1:34:57about but what that that particular herb does is it disrupts your programming somehow somehow it

1:35:05it breaks it breaks down the programming so that you're able to have logic and use your

1:35:12conscious mind and not lose your mind to them it's difficult to explain when I was in Boise and I was

1:35:22on the rooftop my uncle had placed me there I was supposed to shoot a guy who was going to come out

1:35:28of a bar the neurologics yeah I'd been in the bar I'd seen the Target and I was positioned on

1:35:36the roof Zion's Bank actually and Zions Bank was well aware that the Central Intelligence Agency

1:35:43was using their bank and they had arranged it with Zion Zion's own that started as a Mormon company

1:35:52you know they don't want us using the term Mormon we're supposed to call them Latter-Day Saints and that's all fine and dandy but I always knew him as Mormon said so that's a Mormon Bank

1:36:01and I was positioned on Zions and I was supposed to eliminate the

1:36:07bar at closing time well my programming broke down one reason it broke down was I'd been smoking

1:36:14marijuana with some friends of mine couple nights before I'm not sure exactly how long before and

1:36:22just that one time in that time frame was enough to break the programming enough to

1:36:30where it failed and so I was up there on the roof now when I'd been sent into the bar so I had been

1:36:36sent into the bar and I had was supposed to lay eyes on the Target now Boise is where I

1:36:42grew up I grew up in Nampa just outside of Boise and so I have friends in that area

1:36:49and I ran into the bar and when I was leaving after I I deed the Target and seen him I went

1:36:56to leave and my friends one of my good friends older sisters was walking in the bar and she

1:37:02was she was a little snocker she was a little drunk and she saw me and we started talking and

1:37:08I couldn't sneak out I couldn't get away from her and so we talked for a little while and she almost

1:37:16blew my cover Emma because I had a radio receiver in my ear a device for listening and communicating

1:37:24with my uncle who was out in a van outside of the building a calms

band and so she almost blew my

1:37:31cover because she saw that calm's device and she said what are you and she was so drunk you know

1:37:38the yeah and she was just a little gal and so it didn't take a whole lot and but a sweetheart of a

1:37:45gal you know and so this really bothered my uncle that she almost blew our cover and that she had

1:37:52seen me at all because now she had seen me in the bar and so I was positioned up on the roof and I

1:37:58was finally told you are to not only eliminate the target you're also to shoot your friend's sister

1:38:06and you're supposed to shoot everyone else in front of the bar that you can hit with the ammo

1:38:13that you have in this weapon and so I was supposed to basically commit a mass shooting was going to

1:38:20cover up this assassination we were going to cover it up with a mass shooting I don't know if they

1:38:27even gave a damn if I was caught in all of that and my programming broke down through all this

1:38:34I was up there on the roof I was freezing it was cold it was raining on me the wind was blowing and

1:38:42my programming started to break down and my mind could process you're about to shoot your friend's

1:38:49sister like this something's wrong and I just couldn't I couldn't do it it all broke down and

1:38:56I freaked out at my Uncle who was below me in the van they closed off the parking area underneath us

1:39:04on the building the buildings ions had its own parking lot and a parking attendant was there

1:39:10making sure that no one would come up to that level that level was closed off my uncle was parked there in the van and so we were working in conjunction with the bank and my uncle he

1:39:22got pissed when I got pissed because we started you know when I would be in those personalities

1:39:27Emma it was a different guy like I could be mean and you know [__] you Gail we got into

1:39:35this big argument about what was going on and he said you get down right now you just get off the

1:39:41roof and so I got off the roof we aborted that operation the but that man didn't didn't get to

1:39:47live he was an individual from a foreign country he was some kind of foreign National and he

1:39:55we ended up getting him in um in Haley Idaho he didn't he survived that attempt but we got

1:40:05him later and so unfortunately his whole family went the second time we were I was made to to

1:40:14eliminate not only him Emma but but everyone there in the house

and so and that was that's

1:40:22a terrible experience a terrible thing to talk about these are the kinds of things that they do

1:40:28and that's why I'm so motivated Emma to talk about it with people because it's wrong I'm sure that I

1:40:35have rambled and I apologize for that but these things are wrong the Central Intelligence Agency

1:40:44is sponsoring slavery and human trafficking drug trafficking and murder and these things are wrong

1:40:54and I'm a living witness to that and I have tried to communicate this with law enforcement

1:40:59and government officials and they've done nothing but harass me and try to keep me quiet

1:41:06and I'm not going to be quiet of all the things that I've talked about it's all wrong

1:41:12and we as the people have to stand up and understand that these things are happening

1:41:21I know it's really hard for people to even comprehend that these things can happen

1:41:27I I get that and that's part of that's part of the Mind science of it is that it's difficult

1:41:36for the healthy human mind to even perceive that anyone could go to that level is so bad

1:41:45but they do and they are and they do it to their own children and to other people's children

1:41:53and if we don't do something then I just can't be quiet about it so I am I'm against it and all

1:42:03those people that are in it they need to wake up you know not everyone who's in it even understands

1:42:11what they're involved with like we talked about earlier my parents they don't completely

1:42:18understand everyone does it even those in the project even Charlie Pride Charlie you know I I

1:42:26hate Charlie Pride like I'm pissed at Charlie but Charlie was messed up and even Charlie wanted out

1:42:34he wanted out when I saw Charlie Pride because I did Emma I was raped by Charlie Pride in backstage

1:42:42he was backstage I was taken back there and I met him and he signed my an autographed my picture

1:42:48because I met him backstage my cousin and I both did and I had carried a message to Charlie from my

1:42:55uncle and he took that message with the key which was the switchblade that I brought him and he

1:43:03stuck it in my chest and that's why my uncle had stuck the knife in my chest and I could put it in

1:43:08and that's how I could take the message out that was the key to

<https://yabasta1.wordpress.com/2023/07/30/s3e39-j-r-sweet-operational-cia-monarch-mind-slave-on-disney-lds-church-mk-ultra-secret-ops-and-transcript/>
that and so Charlie he tortured

1:43:14me for a little while and he raped my cousin and I he was not a good man but when we first walked

1:43:22in the room Charlie was sitting at his desk and he was writing there in his waiting room

1:43:28and behind stage you know whatever we call it and he was sitting there writing a letter and so here

1:43:36I am carrying this secret message in my mind well Charlie was sitting there writing a letter to bird

1:43:45and this this letter was saying I want out of all this you know this stuff is I'm done I don't want

1:43:54to do this stuff anymore I know that because bird told me that when I saw him a little while

1:44:00later because the next man in the project I can remember seeing uh in the following day or days

1:44:06was burned I met him at a memorial and so and I gave I gave bird that letter that Charlie was

1:44:14writing and Charlie wanted out but bird wouldn't let him out you know he was a slave too and so

1:44:24it's sad all these folks are all caught up in it but there is hope for us There's Hope For

1:44:30Humanity more and more people are learning about this stuff and more and more survivors are able

1:44:37to work through it and able to come out and talk and I don't think

that they can stop it

1:44:45you know they're Kathy O'Brien has a good way of defining them they're linear thinkers they are

1:44:53they are linear thinkers and that's helped keep me alive to be honest about that they

1:45:01are our such linear thinkers that yeah you just have to know what they're doing and so

1:45:10but God's also helped keep me alive and uh I give a lot of credit to God in all of this

1:45:17because without God I'd be dead if God didn't want this message being communicated then I would be

1:45:24dead and that's just how it would be they've tried that several times you know to ensure

1:45:32that it was most dangerous when I first started to remember they tried to kill me several times and

1:45:41and that was nerve-wracking we'll just put it that way but those are things that I was made to

1:45:47do and so part of it is I was able to see it and to understand that it was coming and to be able to

1:45:54face that fact and part of it was God stepping in because there were sometimes Emma when I remember

1:46:03one time in particular I was dead to rights there was a gunman and we were sitting in a restaurant

1:46:10and I knew he was there to kill me and I was armed and I'd gone out and I'd gotten

1:46:15my handgun and I put it under my clothes because I had to do everything I could but

1:46:23I knew that if this guy was able to do what he intended that that would have been it and God

1:46:29stepped in and the circumstances weren't perfect for them to kill me on that day

1:46:36part of it a lot of people are interested in that that's one of the reasons I'm talking about

1:46:42it I've been asked well how can you stay alive you have the government after you you're dead

1:46:48it's a sensitive thing for the Central Intelligence Agency or the Mormon church

1:46:55or those affiliated with them to to get rid of you because if they don't do it right

1:47:01they can get caught and that exposes everything and so the more I've talked

1:47:06about this the safer I am because if they whack me now well now they have proven their story

1:47:16so I thank God for all of his help in all of that and for everyone's help there's been a lot

1:47:23of support in the community and in the world and I appreciate that

<https://yabasta1.wordpress.com/2023/07/30/s3e39-j-r-sweet-operational-cia-monarch-mind-slave-on-disney-lds-church-mk-ultra-secret-ops-and-transcript/>
and so uh Humanity has hope so

1:47:36God blessio that was such an uplifting message to sort of follow so many dark

1:47:43things you know because this stuff does get dark and for people whether they're they've

1:47:48been digging in deep for a while or whether they're new to it you know this stuff has the

1:47:54the low frequency to kind of suck your hope out of you and to just think gosh there's nothing you

1:48:00know there's no hope like we're screwed and the world is a dark place and it's hell on Earth and

1:48:05you know realizing that that's exactly what they want us to think you know they want us on a low

1:48:10frequency and not realizing how beautiful this world is and our powers of creating you know an

1:48:16even better World by coming together and taking the gifts that they're trying to exploit and

1:48:22using them for something good you know creation creating our creating our way out of a bad world

1:48:27and creating the world that we wish we lived in you know and it's such a great message to remind people of that because we do have all the power it's them that don't you know they're weak

1:48:37cowards who Gaslight us into feeling powerless and their worst fear is to realize or is for us

1:48:45to realize that we're being gaslit and to say uh-uh I'm not I'm not tolerating that anymore I'm done with your abuse I'm taking my power back and I'm gonna do something thing amazing

1:48:55in this world you know and create something that is going to uh Elevate Humanity instead of

1:49:03perpetuating the abuse over and over again you know so I really appreciate everything

1:49:08that you do and the messages you know the stuff is really hard and somehow you find a way to make it

1:49:15somewhat lighthearted to where it's digestible for people and I really appreciate your way of breaking everything down to Jr so thank you nice thank you Emma yeah it is difficult to process so

1:49:29yeah well I'd love to have you back on I know we're getting up to the two-hour Mark and I

1:49:35want to be respectful of your time I know that we could probably talk about a million other things I wanted to see if there was anything else that you did want to cover before we maybe

1:49:42wrap up and to let you know that I would love to have you back for another discussion

1:49:48um to dive into some some more of your experiences and and some more education nice thank you Emma I

1:49:55think we've covered everything for today yeah and we can talk about that that would be good

1:50:01yeah it's nice to let people know so absolutely and can you talk just

1:50:08 off can you talk just a little bit about if you're on any other social media beside your blog and then maybe give people just a little synopsis of your blog and remind them of where they can

1:50:18 find that because I want people to support the work that you're doing also yeah thank you yeah

1:50:24 and so my blog Mormon monarch.com I call it my website um that's where I put my book essentially

1:50:31 and so and you can find that under writings on past and those are all um journaled memories

1:50:39 that I have uh worked through and most of them we're talking months and years to work through

1:50:47 these things and so I tried to work through as many as I can I've taken a break from it

1:50:54 um lately because you need a break once in a while and so I will take breaks from it

1:51:00 but what I do is I gain the best understanding that I can of those events and in my mind the

1:51:08 most important thing to share I can say whatever I want but what I remember is so

1:51:16 important because that is what they're doing and so I can say for example their satanists

1:51:24 well why and through my writings I explain why through what I remember of living and working

1:51:33with these people and and being made to be a trauma-based mindslave and so my writings also

1:51:42they I will write something out and if I remember something that adds to the context of that writing

1:51:52I come back to it and so uh Disneyland or my meeting with Hinckley any of those things if if

1:52:01one day it comes back to me oh well this happened as well then I work on journaling that and then I

1:52:08edit and adjust those memories accordingly and what I'm working on is I'm going to put a book

1:52:15together so those are all chapters of a book and I will have that book published at some time in

1:52:21the near future yeah because if if something does happen to me let's say I my heart stops

1:52:30beating for some reason then a book is a hard copy that can live on and other people can read it for

1:52:38generations and it can be passed on a website is something that's more vulnerable a website

1:52:46uh it runs in its course until it's submit its uh subscription is paid and so I will be publishing

1:52:54a book because I feel like this information is important for Humanity just for the people to know

1:53:02it and to be able to remember it for generations and understand it

<https://yabasta1.wordpress.com/2023/07/30/s3e39-j-r-sweet-operational-cia-monarch-mind-slave-on-disney-lds-church-mk-ultra-secret-ops-and-transcript/>
and I feel like it's gonna take

1:53:09him a generations for people to understand this thing completely and for it to work its

1:53:17way through our our social structure but I pray that it does and so and I'm also on Facebook

1:53:26um I've been on Twitter before but I'm not on there right now I yeah I still

1:53:33am a multiple and so sometimes I'll start a social media thing and then I get rid of it

1:53:41I'm trying to be more stable so yeah wonderful I'm gonna link all of that and if there's any other

1:53:49links that you think of or any specific article pages that you want me specifically to link that

1:53:54maybe can add context you can send it to me and all I always try to do an extensive show notes where people can just go click on all your links so I encourage people to go follow and support Jr

1:54:05you know this content none of it gets elevated in the algorithms there's nobody trying to help get

1:54:10the word out on this except us you know it takes you on the other side saying I'm gonna go visit

1:54:15this website or I'm going to share this interview I'm going to watch it all the way through and then I'm gonna go share it with somebody else somehow you know so we have to be the boots on the ground

1:54:25spreading the word about this and I would love for all of you guys

<https://yabasta1.wordpress.com/2023/07/30/s3e39-j-r-sweet-operational-cia-monarch-mind-slave-on-disney-lds-church-mk-ultra-secret-ops-and-transcript/>

to go share share our story to go support his blog jar I'd love to have you

back on like I said especially to help promote

1:54:34 your book so let's definitely get you back on uh also whenever you do that that way we can drive some traffic there and and you can talk about it a little a little bit but that's really exciting

1:54:43 too so we'll have something to look forward to you creating in the near future so you guys thank you

1:54:48 so much for tuning in Jr thank you for being here God bless you all see you guys next week
