New Whistleblower, New Reality

Spiritual aspirants annoy me with their "no drama" meditations. But the practice of "beginner's mind" can alert us to news that may otherwise be obliterated by cognitive dissonance.

"My taxes go for national security" may be what we learned in civics class but must make way for new information, for instance, that our taxes paid for the 9/11 pulverization of the World Trade Center and [Building Seven](#).

Another mind-jarring revelation?

The assassination attempt on President Reagan included a **second patsy** besides Hinckley.

Who cares? If mainstream media's vicious attitudes toward our current POTUS are any indication, Trump may be murdered by the same [cabal of perpetrators](#).

Randal Turner's facial features [match old photos](#) from the [shooting of President Reagan](#). Why was he carrying the nuclear briefcase for Reagan that day in 1981? Turner believes he was a [sixteen year old](#) MKUltra victim set up to be another patsy alongside [Hinckley](#).

[Randal Turner](#) came forward a month ago with his claims. Till last year, Hinckley was held in a [CIA-linked](#) psychiatric facility for 35 years. By contrast, Turner says he succeeded in exonerating himself in court. The records of that trial were sealed on the grounds of "national security."

The official story was that the guy in the photos was Reagan's usual aide [Jose Muratti](#). Contending he was disguised with his hair dyed, Turner himself says, "It took Jose Muratti's sister confirming he was with her (during the shooting) for me to win my case." Turner now urges Muratti's sister to come forward again to help him correct the history books.

Randal Turner in 2017 still looks like "Muratti" in 1981

The real [Muratti](#) has a [shorter nose](#) than Turner

Jodie Foster supposedly
obsessed Hinckley

Of course then-VP Bush Sr. has long been [suspected of arranging](#) the attack. For one thing, Bushes are related to and were friends with the Hinckley family. One rumor is that the family's IRS and other debts were erased.

According to Randal Turner, immediately after the shots, he ran toward the entrance to the hotel. "[Hacking the Headlines](#)" noticed that he looks like a skinny sixteen-year old [as he runs](#) and not a 39-year-old Lt. Colonel who in the [photo](#) below appears to [tower over](#) 6'1" tall Reagan.

Randal Turner was [sixteen years old](#) and carrying the nuclear football.

Turner claims that [news media](#) lied. A commenter online recalls:

"ABC-TV Reporter Jessica Savitch [[RIP 1983](#)] was on scene live, on the other side of the limo, and when the shooting started.... she said, "There's a man on that BALCONY with a RIFLE". The feed immediately cut away from her and NEVER went back to her." -[Fred762](#)

Turner was designed to be a [Manchurian candidate](#); he describes the effects of MKUltra programming:

"I have an alternative [personality] they can control, make him do things like what they had me do when Reagan was shot. It is possible they had me [shoot him](#) but I can't recall anything after hearing a woman yell 'Mr. Reagan! Mr. President!' then I draw a blank until I recall looking around on the ground with chaos around me. I got up and ran to the limo, grabbed the door handle then they took off. I then [ran towards the upper Hilton](#), saw a cop and told him to take me where Reagan was."

Another corroborating detail: the official narrative skips that Turner was in [the back](#) of the police cruiser and [locked the back door](#) of the car when security tried to put Hinckley inside with him. The press covered the video up of [somebody in the back seat](#).

"Then took me to the police station and [tried to take the \[nuclear\] codes](#) from me, starting beating me up calling me a little punk..." - R. Turner

George HW Bush must have his name stripped from all federal buildings, Highway's or airports. He tried to kill Reagan

Turner/"Muratti's" face is [rarely visible](#) at the shooting

One motive for the assassination attempt was leverage for a [trade agreement with China](#). Reagan's anti-communist stance had particularly hampered the interests of American weapons and tech industries.

Turner says, "The FBI held the [nuclear] codes for 2 days until Bush took control of things at the White House and the trade agreement. [Bill] Gates' father had something to do with convincing the FBI as he is the one who spoke with them on the phone."

The court case that cleared Turner of any wrongdoing awarded him a \$10 Million settlement which he never received. He also had been promised [shares of Microsoft](#) for helping Bill Gates to manufacture in China by convincing Reagan to change the trade agreement.

"The FBI later found out that two of their agents were involved [in the shooting], they fired the agents and then led me to believe I was going to get not just my settlement money but my shares of Microsoft. Again they ended up drugging me and making me do crap to make me look bad, Gates was behind what they did so he didn't have to give me my shares."

Elsewhere, Turner explained that the criminal masterminds enslaving him turned him into a Hollywood agent for the kids of celebrities. He invested his fees in newly booming Microsoft whose CEO lived nearby. In exchange for influencing the China trade, Turner was offered more shares in Microsoft; he claims it amounted to a one-third ownership! That's credible if Bill Gates and Paul Allen had the contract destroyed: it's like a store offering an irresistible sale on an item that's not in stock.

Turner sums up,

"I have lost everything in my life because I tried to stop some wealthy and powerful people from abusing kids. For that, I was drugged, tortured and turned into a slave to the elitists. If you had any clue of the things they did to me and things they made me do while drugged up, you would be screaming at the top of your lungs."

Randal Turner exposes an angle of history that the CIA and other powers driving the shadow government smear as "conspiracy theories." Members of the "Deep State" have operated behind that curtain at least since killing [John F. Kennedy](#). Any wonder that, decades later, their crimes seem exaggerated into a monstrosity unimaginable for us puny taxpaying peons?
