Gabbi Choong has released a second interview with Svali, this time on the subject of international child trafficking and Svali reveals some new details on the child trafficking industry centred in Amsterdam.

A few notes on what the interview covers.

- Svali in training travelled in Ukraine and Asia in a big truck to orphanages, where they were told good homes would be given to infants or teenagers and then they give the orphanage a huge donation. The children were looked after in the truck by and transported to warehouse in Amsterdam.
- Procurers for the rich families and brokers who were owners of brothels from around the world would then place their orders
- Infamous auction house near Paris has Tuxedo ball as cover for child trafficking, the youngest ones sold in the early hours of morning
- Expendables were often taken to private party for snuff scenes
- Some children red specifically for these parties, genetically enhanced children like a child with two genitalia or three breasts
- At autcions they announced what sexual activities children were trained to do
- at private parties the children were also trained to gather intelligence for the Jesuit fathers
- Svali was a mistress to David Rothschild, when 13-21. He loved the auction houses
- One of Svali's jobs as a teen was to help keep books for child trafficking - a fair skinned infant then at the going rate about \$100,000, a pair of twins of Asian descent maybe three years old trained in certain sexual gymnastics might go for 150 to \$200,000, teenage girl of say 13 or 14 going to the brothel the \$50,000

- children addicted to drugs first before they would take them to the brothel
- one trafficking route was from Quebec through Canada through Toronto and then down into New York City
- They advertise for Nanny or housekeeper or model wanted and teenagers would disappear to brothers
- New York was a large CenterPhoenix Arizona Los Angeles another
- Trafficing in India Malaysia China Russia and South America
- Wherever war in Africa, pay money to allow them to come and just scoop children out of the village

thing goes including animal shows

[.h about child trafficking \[1r\]](#) Odysee

[1]

Thankfully I have found Gabbi's Rumble account so any views will not help the google / youtube monster, and it saves me uploading any more to Odysee to protect the videos.

Gabbi's Shownotes

Incredible survivor Svali joins us to share some of her lived experiences within Illuminati / Jesuit cults where she was trained as a programmer and an oracle. This week we discuss the horrific practice of child trafficking that is a huge money spinner for the cults. Svali shares how Amsterdam, sin city, is the centrepiece of these operations. She recounts her own experiences amongst brokers that deal in our most vulnerable, seeing countless children and infants transported, handled and sold

<https://foxyfox.substack.com/p/svali-interviews-with-gabbi-choong>

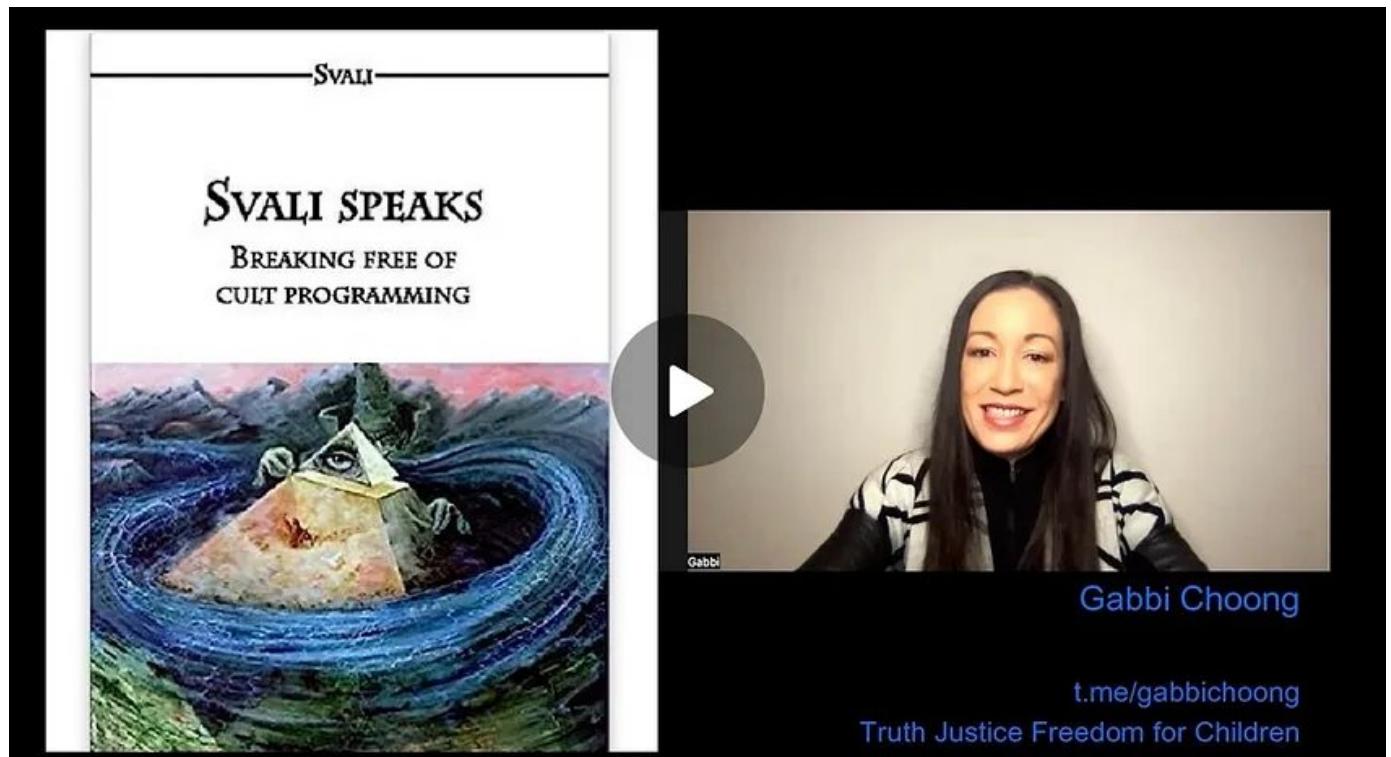

to powerful families, auction houses and sex clubs.

Svali has written a book called *Breaking Free of Cult Programming* and along with her blog, she shares her breakthroughs and journey deprogramming and getting free from the trauma bonds and mind control that enable these groups to enslave individuals and through this our world

Find Svali's blog about the Vatican and child trafficking here ;

Other Svali Interviews and Articles

I first posted about Svali in 2020 in this post *Svali, Illuminati Structure and Mind Control* [Sv1w] as her first blog *Svali Speaks* [6] had been such an eye opener and invaluable for me when learning about the system several years earlier. I knew she had gone underground again but did not know then that she had resurfaced and was already blogging her second blog after she had recovered deeper Jesuit memories which she wrote about in *Svali Speaks*

Appendix 1 Transcript

Gabbi Choong interviews Svali on the truth about child trafficking [1]

welcome everyone today we welcome back sarley you may know spy from her

0:07

Incredible Book Breaking Free of cult programming and her blogy speaks saliy

0:14

was able to break through from the cult group where she was being used as a programmer and an Oracle and through her own healing

0:21

Journey over many years she has created some amazing resources that detail the

0:26

techniques the rituals and the procedures used during mind control programming her articles are so valuable

0:33

both for people beginning to learn about this evil that's been hidden for from sight for so long as well as for

0:40

survivors who are healing from ritual abuse and mind control I'll add the link

0:46

for spar's website in the video notes we were actually discussing what would be a great topic to focus on Andy

0:53

suggested child sex trafficking and I feel this is such an important area to

0:58

unpack we know that the funds generated by the horrific practice of selling

1:03

children is such a huge dollar earner for the Cults and while recent movies suggest trafficking occurs in very far

1:10

away places and third world countries the truth is this modern day slavery is happening all around us in First World

1:18

countries in the US in Europe and right here in Australia as well spy has a book

1:25

<https://foxyfox.substack.com/p/svali-interviews-with-gabbi-choong>

about the Vatican that is free and part of her blog on her website and here she reveals how Amsterdam is actually the

1:32

worldwide Center for infant and child sex trafficking and while the city is known for its redlight District its

1:39

relaxed stance on brothels its sexual deviancy and its free flowing drugs it's

1:45

another whole level to see under those red lights it's not even just underage women which is bad enough that are being

1:52

sold on the streets it is actually our very youngest and our most vulnerable so welcome sley and thank you

1:59

for suggesting such an important topic I actually until I read your blog I had no

2:05

idea that Amsterdam was the centerpiece um or it was the S City for pedophile so

2:10

that was a real surprise to me um and I would love for you to share you know

2:16

what that setup in Amsterdam looks like and and how it functions as a a huge

2:21

black market money spinner for these ult Network Gabby thank you and um thank you

2:27

for having me again to talk about this topic this is a very difficult topic to

2:33

talk about in some ways so if I hesitate it's because I'm I'm trying to calm myself down emotionally I have a lot of

2:40

feelings surrounding this one but that's why I felt it was so important to share about it

2:46

too take you Sean absolutely and I also this is based on

2:53

my memories when I was in the group uh in the order as and um I know know that

3:00

it's been at least 16 years since I've not had any real contact so things may

3:06

have changed since then so what I'm describing is based on my memories how things were at least up until

3:14

um maybe 2006 give or take okay sure I don't think things

3:22

probably have changed at much in since then Amsterdam was a real surprise to me

3:28

actually like I I kind of was picturing maybe Ukraine or um even China as being

3:36

like a headquarters and to just think you know a city like Amsterdam in Europe

3:41

which you know I mean it's very it's very out there in its own way

3:46

isn't it with like you know the sex trade the the and the drugs but I just

3:52

wouldn't have pictured that as as being their headquarters you know it's it's such a compact little little city as

3:58

well I know surprise so yeah just I'd love to just hear you know how how do

4:04

they hide this kind of operation in such a busy tourist area like it's packed in

4:11

there okay Amsterdam is what I at least for the order I was in was the financial

4:18

center of the um of the trafficking

4:23

industry with infants and children and one of the reasons is because it does have a very um liberal

4:30

laws and what I recall is that I did spend part of my childhood there with

4:38

someone that I called Uncle Lou and Aunt Mary okay just those are pseudonyms but

4:44

um actually and what happens is they were brokers in the in the

4:51

industry because in the um trafficking industry you have people known as

4:56

Brokers and what they do is they they respons responsible for purchasing and having transported uh

5:03

infants and children into uh different places so what I recall is that like the

5:09

the this is the head area where a lot of brokers in the industry congregate in

5:14

Amsterdam and even I remember going there are coffee houses in a Amsterdam and there's certain ones that were not

5:22

generally used much publicly they were kind of private coffee houses where the bogers would get

5:28

together and discuss the um the sheets like the current prices for infants

5:34

children and things like that as a child going um uncle L said he wanted me to learn

everything about the

5:41

trade and so what I had to do is I had to go in a van with several people who

5:48

and we actually went through parts of Eastern Europe including

5:53

Ukraine and countries in that area and and we would do various trips or other

5:58

trips we would go go to Asia and they would visit orphanages and they were dressed very

6:05

nicely and the people and had business suits and they would talk to the heads

6:11

of orphanages and say that they could find good homes for the the children and

6:17

then what they would do is is they would um they would also give a huge donation

6:22

to The Orphanage and then they would go through and select the children they wanted and

6:28

these were often overcrowded understaffed orphanages yeah yeah with very little funds and so

6:36

um and once and so they go place to place like they might take one or two children from

one two or three from

6:42

another until the van was full and what I recall is that we also

6:49

there was also a couple of older ladies whose job was to take care of the infants in the back of the it was a huge

6:55

it was like a transport cargo truck van you know as big and what they would do

7:01

is they would take care of these infants as as we were transporting they would give them bottles change their diapers

7:07

and these were women who were sworn to secrecy on pain of their entire families

7:12

being wiped out if they ever shared any information so they were under strictest

7:18

secrecy to and then I remember helping to give some of the babies bottles and changing them um when we were going

7:25

through areas of that were considered sensitive or where there could be a lot of checkpoints sometimes they would they

7:32

would give the baby something to modly to date them so they wouldn't cry while we're going through them but most of the

7:37

check points had already been bribed and they were just wave through you

7:43

know and they it wasn't just infants and children though sometimes it was young teenage girls too and then when we we

7:50

get back to the city um there was a warehouse where we would go

7:57

to and it would look like a company warehouse and they would unload there

8:03

were sometimes there's an area with a lot of security and it looks like it it

8:09

would be like for a a corporation with high security so no one would suspect that they were actually put bringing

8:15

human beings into their warehouse and of course they had you know security guards everywhere as well and and they would

8:21

just unload these these infants and children and then what they would do is

8:27

is while they were there then then the Brokers would come and the Brokers would

8:32

represent um various brothel around Europe and the Brokers would come and then they

would put bids in and they

8:38

start bidding on on infants and children and young teens and

8:45

for and when they put in their bids um I'm I mean because this is so hard to

8:52

talk about okay when they put in their time it's such a dark

8:58

topic recognize the suffering you know that's causing oh my gosh well they

9:03

treat them like a commodity they have checklist and they say I need three females I need at least this many

9:09

blondes I I need four boys and I need and by the way there are as many boys trafficked as as girls I don't know

9:16

where people get the idea that's women and so you found just as many boys yeah

9:24

oh yeah oh yeah and so they I they say like I need one guy one broker might say well I have

9:30

an order for 10 boys you know I want you know three Caucasians two Asians

9:38

one you know this many you know with with uh dark skin you know and they would name the nationalities or ethn

9:45

Necessities they were looking for or what their clients were looking for and they would just they would just select

9:51

them from the children you know of course they had put in their orders ahead of time so that's what the B the

9:57

people in the van were looking for and then and then they would just take them and

10:04

then and they would take them to um various brothel like like one of the Brokers bought for a chain of brothel

10:11

that was located say in France you know uh throughout France and and and another for UK so different

10:19

Brokers from different countries would come and buy there and then get the children and sometimes they would transport them from the last checkpoint

10:27

directly to a warehouse closer to the country of origin but sometimes they would just come directly to the

10:32

warehouse and look over what they called the goods I know it sounds so demean but

10:38

that's what they call them they say we want to look over the goods today but the first selection went to um

10:46

the the auction houses there's special auction houses such as in um outside of

10:51

Paris France the outside Paris France there's a very Infamous Auction

10:57

House wow and they'll take infants and children and teen young

11:03

teens as well as children that have been genetically bred too sometimes they'll bring in children that've been gentically bred specifically with

11:10

certain characteristics I won't go into here but um and so then what the very wealthy

11:16

would do is they'll sit there and they'll have a dinner say the dinner will start at 6:00 pm and it'll last a

11:22

couple hours you know wine and dinner and everyone's in their gowns and their jewels and their Tuxedos and looks like

11:29

a high class charity ball you know for extremely wealthy organization but it's

11:35

not it's horrendous and so some these children would go to go to the auction

11:41

house like this and they're in various countries too France isn't the only one it's just the one that I have some of

11:46

the clearest memories of and um because I had to go to dinner

11:52

with a first class um s so who insisted

11:58

that I wear a a Dior gown this is M and my teens and sit next to him while he

12:05

would um he and his friends would sit and then they would start the auctioning at about

12:12

maybe at around 11:30 p.m. midnight and they'd start with the teens first so the

12:19

teen girls and boys would be up there and they would start bidding and they're and these wealthy people are bidding on

12:24

them for their private little parties that they have it's just horrendous just you know

12:31

just PCT go that um lifestyle of you know for them it's this event where you

12:37

get dressed up in like you know expensive dinner and these poor children

12:44

that have been trafficked from probably already poverty in a bad

12:49

situation yeah in that horrific environment and they'd probably be

12:54

drugged and sedated and all sorts oh yeah oh yeah and and then yeah and then as the night went on the

13:01

children got younger and younger and younger until at about 400 a.m. they're

13:07

bidding on the infants that's just because sometimes

13:12

those kinds of people like babies too it's just

13:18

heartbreaking I mean we hear about you know the the women and teenage girls

13:25

that are sold into um sex slavery in Amsterdam and Europe you know it for

13:31

them it it it's months or years you know that they'll they'll last in that kind

13:37

of you know horrific environment thinking you know how how can these children and these babies you

13:45

know how long do they have like after this horrific event is just it's sickening isn't it

13:53

yeah sorry I'm sorry to hear your experience no it's horrible it's and so so I this is a painful topic but people

13:59

need to know that this is H this happens and so um so then they have their little

14:05

private parties and then they they take those children and they don't

14:11

survive is there at the actual events fary is there any other than the sale of

14:19

the children is there any like rituals or you know any any children that are

14:24

hurt actually at the event or it's more like a a St event and then people sort of take

14:31

the children well I I'll share it later about a different type of trafficking

14:36

but and these and the the ones that are bought at auction what they do then is is they'll have a little

14:42

private party with the the these children which are considered Expendable because they've been purchased and and

14:48

then what they do is is they snuff them they like um people this is part of their pleasure is

14:56

is to I I I don't mean to be horrible in graphic but they they derive great

15:04

satisfaction or whatever you call it in in doing things like that and sometimes there is a ritual too there'll be infant

15:10

maybe at the ritual but sometimes it's just for their own pleasure they do that there's some really sick people out

15:17

there it's just horrific I often get asked know what to people or what to

15:22

these kind of groups you know look for in a in a childhood traffic or take to

15:28

this kind of thing and I think what you just said then about the children being Expendable is really important because

15:34

there there's kind of two groups of children to comment on this as well

15:39

Farley that I witnessed in in rituals and there was the generational children that you know yes will be traumatized

15:47

and you know receive horrific abuse but it wouldn't go to the point of yeah

15:53

exactly being snuffed Etc yeah you know and then there's these other children that are brought from from wherever and

16:00

this is what's so important that I'm describing the Expendables they bought

16:06

at auction but one of my first memories myself of being trafficked was when I

16:12

was three years old I had a twin sister oh wow and what they would do

16:20

is they put jeel leashes on my sister and I and they brought us into the party

16:27

and these are all wealthy um people in France and sometimes in

16:35

Germany de Bay um they were in the Illuminati you would know their names

16:41

but I mean I'm not going to be a name dropper because to me who cares yeah it

16:46

was so perverted and sometimes at those kinds of parties with the children that aren't

16:52

Expendable we had a special um temporary tattoo put on us that said you can't kill this

person and we would and and

17:00

they knew that their their life would be um endangered if they killed us so so

17:06

they always sto short of that but they were allowed to do almost anything short of that um and so signs we were put up on a

17:13

pedestal and they and for fun they bit on on the who got to have the twins or who got to have the set of triplets or

17:20

who got and this is where you'd see your genetically um enhanced children who were pred specifically for these parties

17:26

like a child with two genitalia or three breast or things like that you know and

17:33

there are people that like crap like that and I'm and it's just and

17:40

privacy yeah and then of course we' had been trained since we were little to do

17:45

perform certain acts and and to accept you know and to do it so they knew too

17:51

what what our training was during the bidding and they say well they can do this this and this it's kind of like describing how a dog can jump and bark

17:58

and and jump through a hoop well they would describe the sexual activities that we could do and

18:05

perform and um and then whoever got you for the

18:10

night um they used us and sometimes you really

18:16

thought you might not make it through the night you know like if someone was kind of drunk and laying over you and you're three years old and you can

18:22

barely breathe it's kind of hard you know no matter how whether you're wearing the tattoo or

18:30

not you know you're trying to to crawl out from under them so you can at least breathe you know and you're looking out

18:35

for your your twin hoping that she's okay too but what they didn't know is that while we were at these parties we

18:41

were also Gathering intelligence for the fathers too they were using us as as

18:46

little spies and of course the wealthy people these parties never

18:52

suspected that no not with such young children right yeah yeah and people

18:58

talking from kids and they'll share stuff that's going on in their business and their business deals and their

19:04

politics you know they you know and if they're drunk enough they'll talk a lot they think that kids are like a piece of

19:09

wood that they don't think which was used I guess to the ord's

19:16

advantage wow but it was an awful way when you're three you know all you're thinking about is I hope they see that

19:23

tattoo on me of course just the fear just yeah yeah and when you so

19:30

that's another type of trafficking that goes on you know and it you know goes out throughout on throughout childhood

19:36

you know and then um I will mention one person I

19:43

was in my early TW in my teens I was a mistress to DAV um Rothchild in

19:53

France he he loved the auction houses and he knew I had friends who were Brokers so he

used

19:59

my I was what 13 14 he liked young

20:06

teens and young women um by the time I was 21 I was too

20:12

old to be of interest much interest to him except we were quote unquote Friends by then or so he

20:19

thought and um so you know we'd still get together for these

20:25

dinners W but um you're to older 21 like

20:31

what what an inverted lifestyle really and how old would he have been at that

20:37

time can I ask he was older than I was he he was quite a bit older than I was

20:44

at that time yeah so but but that whole

20:49

family is perverse but anyway but that's all the side note I I don't mean to go and rant about them so the Brokers keep

20:57

meticulous records too of their buys and sells and um they share with each they

21:03

have called the list and it would come out weekly with the the latest prices on children and like I said they would

21:09

Supply the brothel and and and the um the auction houses or the private and

21:17

and some of the um like the Rothschilds and the Bottenberg and the the very

21:22

wealthy families would have their own private broker and that's all you would do is go go to the warehouses and select

21:29

children that he knew they would like they call them they call them the procuror or the the procurers for them

21:38

and so they're the family um purchasing agent who buys their children they've got their own own um

21:45

own help I guess that kind of reminds me of like a Jimmy Sable kind of character someone going around and just scoping

21:52

different people out you mentioned a listy like like that their keeping

21:58

records and there's a list was was it like they actually had a set price for

22:06

different at that it's like a stock exchange oh my gosh yes it's it's like

22:12

the stock market is horrendous that the Brokers have the list and it's updated weekly and so the Brokers know exactly

22:18

what the going rate for say a blonde blue-eyed Caucasian boy would be or or

22:25

an Asian female of four years old who's been trained to do certain sexual acts

22:30

or you know um you know I don't know or a

22:37

Malaysian uh set of twins that are two years old so so they

22:43

they actually have lists that they they they use as a starting point for their their pricing and then they they of

22:49

course update it based on what the going rate is yes wow and it is a huge huge huge huge

22:59

Money Maker yeah and that's that's the sadness

23:05

of it all too they make a lot of money I mean millions and millions and millions

23:11

and millions and millions and it's all Black Ops money so

23:17

there's no tax it just disappears into into these occult groups except there

23:23

was one person that I know that in Amsterdam that the um Brokers paid

23:28

a percentage of they had to pay a percentage of their um fees too and

23:33

that's the father over Amsterdam wow so a Jesuit father Yes yes

23:40

and they paid him his tithe and that's why I had I was raised by people who

23:46

were Brokers so that I could go then and work for some of the brokerage houses and see if they were being honest and

23:52

paying their money that was one of my jobs as a teen was to help keep keep

23:59

books jeez what a what a huge business if they're having to actually put people

24:05

in to to is a horrendous sorted sorted sorted

24:12

business to to give people watching an idea like would you have I mean I know

24:18

this is like going back like 16 years ago now but would you have any idea of how many children might be traded in a

24:25

week and like what sort of prices that they're talking about just

24:31

so we can kind of get a perspective of you know what sort of you because it's just such a huge money spinner for them

24:36

obviously as well well a fair skinned infant at the growing rate at that

24:43

time like Caucasian looking infant would go for close to

24:48

\$100,000 wow a child who a pair of twins let's say of Asian descent um who

24:58

maybe were three years old and we trained in certain sexual gymnastics might go

25:05

for 150 to 200,000 wow huge the pair yeah a lot of money

25:14

for some of them um for a a teenage girl of say 13 or 14 going to the broel the

25:21

prices would be lower you know it might be 50,000 or 40,000 it depends it depend on

25:28

how much how much use they felt they could get for her how attractive she was

25:34

and other factors some of the um teens when they got there they would have a

25:41

special area where they were taken to the girls and boys and the and then they

25:47

would sit there and get them addicted to drugs first before they would take them to the brothel some the broos wanted

25:52

them to be addicts so that they could control them and there's less chance that they would break break away or try

25:58

to run away it's just I I mean it's incredibly evil the things they do it's

26:04

Sor horrific is know yeah people in general that aren't

26:11

you know aware of you know this underworld of of Cults and and mind control and ritual abuse we just have so

26:19

much trouble processing how organized this is and and the size and scope of it valy

26:28

it's it's just absolutely horrific I think the perception is you know this is like something that one

26:34

dirty old man gets up to when he's on holidays overseas you know and to hear

26:39

you know that there's houses there's trucks coming in there's Brokers there's a Jesuit priest demanding teeth like

26:48

it's it's and they also come into America like one route was um from

26:53

Quebec they would go um they would come down through Canada through through Toronto and then down into New York city

27:00

so it's very common in the US too and that's why you know um I did see the movie um sound of freedom I don't know

27:06

if you've heard of it I haven't seen it myself I've had a

27:11

few survivors and Friends watch it and they they sort of their perception was it was just a very a very sheltered look

27:19

at the industry makes sense and I expect that you know considering who made it

27:25

and the people involved yeah exactly but but um but it did show just one tiny

27:31

slice except it didn't show the extent of it it didn't show the very very very

27:37

young children and implied that they were coming from um Mexico and South

27:42

America and through the cartels and that's only one slice of the pie that's a very small section of the trafficking

27:50

one way they get um gals from um into Canada was they would put ads you know

27:57

like like you know Nanny wanted or housekeeper or model wanted and and you know and they would get these um teenage

28:04

girls to apply you know or come learn English and and be paid at the same time

28:09

and then they would just disappear wow and they would go to broel

28:15

New York New York was a large Center um Phoenix Arizona Los Angeles is another

28:23

they had they actually have trafficking routes where Vans full these girls and

28:28

and children are just transported across the US you know it it's bad it's really

28:34

bad and it's much more extensive than than that movie showed I'll tell you that but reason I'm talking about this

28:42

at all it's horrendous to hear about is because people need to become aware of

28:48

the extent of this there's a lot of definitely evil going on in this area and young

28:57

children who are just being exploited horrifically absolutely it's it's so

29:03

important surv it's been covered up no one's reporting on it no one's investigating it um I went to a

29:10

trafficking conference here in the US several years ago and there's a fibi

29:15

agent talking about the sting operations they were doing and I'm listen thinking they're getting one or two pimps yeah

29:23

off of a street corner and so I went to him later and I said what about the

29:30

large scale international trafficking that's being done you know like through the sports of entry and I mentioned a

29:36

few you know are you doing anything about that and he just looked at me like like I don't know like I I had a horn in

29:45

the middle of my forehead or something he just said no no no and he got he acted really nervous and he left he went

29:52

to the other side of the room I thought well that answers that why we're not

29:57

hearing more about the real problem why we're hearing the sanitized version in the media that just tells us little tiny

30:04

bits here and there it's so true isn't it it's always just portrayed as like this one house a small group of men that

30:11

were up to this and it never really like the larger Network here aalia it is and

30:17

that is by the way that is a real issue I mean I'm not I'm not at all

30:23

downplaying the woman who's been trafficked out of financial need or because her boyfriend got her into it or

30:30

because her gang is doing it I am not at all dismissing the painful aspects of that or how horrific that is

30:38

too but I'm saying but that's not the whole picture and usually when you hear about trafficking that's all you hear

30:44

about that's right we're not sort of given the big picture that you're describing now which is like an

30:52

international both targeting and then feeding children through to these Destin

31:01

coin TRS many women and children and babies would

31:06

be on a a truck like the one that you experienced oh gee I know there might be

31:14

like three dozen infants and then there might be

31:19

um on a trip and then there might be

31:24

like 20 older children cuz they had like little um sleeping mats and you know

31:31

almost like like you know those you know like in the Army had they have those little uh fold out CS that are in rows

31:37

yeah like on the sides well well they had these little little um beds that would like come down like in Rose almost

31:45

like like in a Navy sh yeah yeah and and then so they'd have the older children

31:51

sleeping in those oh my and um and the infants you know they would have

31:57

on a trip like that though you'd probably have about six older caretakers helping

32:04

to helping to feed the children keep them quiet um you know uh take care of

32:10

the infants uh sedate the children and infants when you're if you're going to a checkpoint where it it's kind of you

32:16

know you want them to be silent in case there were people nearby you know besides the guards although they tend to

32:22

go through it in the middle of the night when no one else is around but you know it's all very well organized and blotted

32:30

out but you can get a lot of kids in the back of one of those that is just lay

32:36

down in their little C you know their their little beds that's actually so much more than I

32:42

was expecting you to even space valy that that's just huge and obviously like

32:48

you were saying these checkpoints you know must have a deal and be paid off because that truck if anybody looks in

32:55

it there's no excuse for having that amount of children like it's not five or six is it yeah yeah well I mean it looks

33:01

like a business truck on the outside of course it looks very legitimate but yeah they Fair they pay a lot of

33:08

money and or even try to have some of their people get jobs at the at the checkpoints too and they know one if

33:15

there's someone who who is sympathetic to them or who's mind controlled or who's been paid off to to wave them

33:21

through they really organize it well yeah I just think aan you know that the

33:28

way they would be looking at that truck's cargo just the amount of money that they would be able to sell those

33:34

you know in children and young people for like they've got plenty of money to grease that truck's way through it's oh

33:42

just horrific and if you realize though that there's car they call them caros are coming in

33:49

weekly they use different Roots they don't use the same routes all the time and they don't go the same places they

33:54

have places over the world they go to to get children from and I'm talking about Europe but

34:00

they they do it to other countries of course you know India Malaysia China

34:05

yeah Russia um and South America too I was

34:12

going to ask you because you we know um with the Jesuits being like the military

34:18

arm of the the Vatican and obviously so many children become vulnerable and

34:25

targeted when the US goes into a country and and starts a war so like when there's um Afghanistan or Iraq there

34:32

were so many children that went into trafficking networks and went into organ harvesty and that sort of thing did you

34:38

ever see those kind of children coming into Europe or that they were

34:44

potentially sold somewhere closer I I guess as

34:49

well um not so much that way as um like

34:55

let's say a country is at Civil War like I'm going to say let's say a fictional country in Africa is at Civil

35:03

War sometimes what these people will do is they will swoop in they with permission they will come into a village

35:09

and pay off whatever um regime is in

35:14

charge a huge amount of M money to allow them to come and just scoop children out of the village it's unbelievable but

35:22

there are some countries where that kind of corruption but that these are the same kind of countries that take children into as child soldiers into

35:29

their own Army okay so but there's unbelievable corruption where they say

35:34

there's this Village and it might be a village of a tribe that's at war with the main government and and they say can

35:40

we go into that Village and just take their kids and infants they'll say oh yeah get rid of

them and then they say yeah we'll pay

35:46

you Millions to let us do this and and they do

35:51

terrific it's just like there never seems to be a shortage for these people that are searching for

35:57

vulnerable children and infants they've got so many places to look right and then sometimes to cover it they'll

36:03

they'll just like they'll say that the Army came in and committ genocide and destroyed the village well wow not the

36:10

whole village yeah what about the children what about the infants yeah

36:17

yeah yeah maybe the adults but not the children I wish I didn't know about things like this know Gabby I really do

36:25

they must be so hard to just go back and go back into these memories again so

36:31

thank you for your time and and sharing it with us because I feel it's so important that we give people a clearer

36:39

picture of what child trafficking is about and it you know not the very limited picture that

they're being given

36:45

which you know at least people are now aware of it you know because of these bigger Publications and movies and that

36:51

sort of thing that is going out but I think this is a great interview to share with someone that's maybe seen um you

36:57

know that that movie to give them an an actual idea of the extent of it because until we really understand how big these

37:05

networks are and how they're operating you know really unhindered above our governments till we realize that how do

37:11

we stop it yeah yeah yeah you mentioned about the Jesuit priest uh like

37:17

overseeing the Amsterdam area just in terms of the structure I would love to

37:22

ask you know were there other occultic groups where working under the Jesuits

37:28

there some of the Brokers from different occultic groups for example that were starting to to traffic children oh yeah

37:36

as well no no no a lot aot some of the Brokers were in were somewhat

37:41

independent Brokers some were working for groups and some like I said and then

37:47

you had the procurators who were um work for the private families you know the wealthy fames so you would see a mix of

37:54

that so you might see various group groups oh definitely you'd see various groups coming in or their Brokers coming

38:01

in and and bidding for the private parties of the wealthy it tended to be the procurators would come and and you

38:07

know get children and they were always given First Choice really and then and then after

38:15

that then then the Brokers for the lar large brothel or for the large um sex

38:21

clubs in my memories what I remember is there all over Europe there's private sex clubs where anything goes including

38:27

pedophilia and all kinds of nasty things that did you say all over Europe sming

38:33

oh well I mean not not not yeah well I mean it's in various countries all over Europe yeah yes I meant no not in I

38:41

don't mean all over everywhere but I mean in in very in almost I'm sure is all over

38:47

everywhere it's just right yeah there's private sex

38:52

clubs where anything goes anything I'm talking about things like like being allowed to go and take a

38:59

child and put its head in a toilet and flush it because that's what some people like to do just seeking yeah things like

39:07

that and animal shows with children and they have them in the US

39:14

too and in Mexico and South America and all I mean Russia you know so it's it's

39:21

it's not just you know China so lots of countries have them and these are uh

39:28

very private exclusive underground sex clubs and so the in the industry the

39:36

Brokers also Supply children for those too and I I remember reading in your

39:41

blog which I found quite interesting and just shocking really how in

39:47

Amsterdam I guess because these clubs and you know where children are offered for sale and these horrific depravity of

39:55

sexual activity people need to find these places so they

40:00

have special ways of letting you know people in the know know what's on offer

40:06

and um you mentioned in your blog how in Amsterdam they would actually in the red

40:11

light district have you know a woman who was for sale actually cradling an infant

40:17

very late at night and I was just like oh there's so there's so many tourists that would bought pass and not be like

40:24

oh is she babysitting or you know was was the sick or you know like think so

40:30

many things like I like five years ago I wouldn't have been like oh my God they're selling children um but it's so

40:36

it's so clear looking at it now and I know here in Australia I mean I don't know if they still do that that was back

40:42

then I mean probably since I did my blog they've stopped you might be too obvious now who

40:48

knows but yeah but but back then they would do that you know and the children

40:54

the children of the prostitutes that ran the streets it was awful you know what I

41:01

mean that was awful too so far from home and you know there would have been vulnerable children already that have

41:07

probably had you know such such hard days which is one thing but it ends up

41:14

you know within ultic groups you know practicing horrific rituals and sexual

41:21

depravity you know that's that's just yeah beyond belief isn't it yeah so I

41:29

think I've lifted the lid off of a very ugly ugly um International

41:35

problem I what I do wish is that something could be done I wish there was a way that these um auction houses could

41:44

be stopped that the buying and selling could be stopped I wish there was a way

41:50

that something could be done um I was actually gonna ask you sp as well just from someone that has seen such huge

41:57

operations is there or what do you see as the solution going forward because I

42:04

know we've all been banging our heads against the wall over the the previous years you know trying to get things

42:10

looked at and like you were talking about how you you inquired at a traffic trafficking conference without getting

42:15

help and no one wanted to I've done the same i' I've you know approached many

42:21

different groups it doesn't get act when it's a large enough operation it just doesn't get action yeah justed under

42:28

paperwork it people get moved it just doesn't get done so it seems that it's

42:34

just a few lackes a few few small Buss they throw they throw one under every

42:40

now and then um but the actual operations so yeah I'd love to you think

42:48

could be a solution well I don't know about a solution but and I'm going to mention my Christian faith here but

42:54

prayer I believe we need to pray against I love that the um demonic that

43:01

that feeds this kind of a system yeah I believe that as a Christian that we need

43:06

to pray for those trapped in it that they get free including the Brokers because so

43:13

many people in the industry from the bottom up are just trapped um that the poor women who are

43:22

trapped on are blackmailed into taking care of the children um we get

43:30

free we it's going to take a miracle and we need to pray that God

43:36

would do that miracle and bring change into some of the um the human hearts it

43:41

I think help me to increase awareness that this is an issue because right now people are just a lot of people are

43:48

reeling from the thought that oh my gosh you mean children get trafficked you know um at all yeah even eight-year-olds

43:57

they have trouble believing that so but we live in a world where denial people

44:02

look the other way they don't want to believe these things happen but by maybe educating people maybe

44:09

um some of the survivors who are now speaking out um I think that we can pray that

44:16

this this gets not only exposed but that people in the media would be willing to

44:21

report it absolutely that people in are the legal system or the Justice systems

44:27

would be willing to do something about it uh that we come against any demonic

44:33

protection uh over what's happening that we pray against that that demonic and

44:39

just ask that God take it down and and exposes and and help people to get free

44:45

that he would set the captives free yeah I love that I think it's so

44:52

important to realize that you know behind a very physical problem of you know children being

44:59

targeted and then handled and and trafficked all over the world for these horrific practices

there is that you

45:05

know that spiritual component of you know these dark entities and demonics that are are encouraging and basically

45:14

Behind these people's actions so it's a beautiful way to look at it Valley of of

45:20

the power that we can together as a community to pray over over these networks to be exposed to be shut down

45:27

for the children to be able to come out and survivors bravely speaking out like

45:33

yourself barley as well I know today would have been really difficult um talking about the abuse of young

45:39

children you know those courageous stories are really highlighting this

45:45

evil the truth of this evil that we need to know like we need to we need to have

45:50

the entire picture of it not just a a a G-rated version of trafficking for us to

45:57

be able to solve the problem as well so thank you so much for you know so

46:02

bravely covering such a traumatic area and you know I I hope for people

46:08

watching you know you can take action through you know taking some taking some

46:14

time to pray over this you know making that a regular regular part of your day because you know for these children it

46:21

is their day and it is their lives so you know I think that that's something really beautiful that we can do is just

46:26

try and pray over this entire situation to be exposed and shut down and pass on

46:31

this interview to people that have some awareness of trafficking or or you know maybe have seen a movie recently about

46:38

it but don't really understand the full depths of it you know this is a great time to actually give them some more

46:44

information because they know that trafficking exists at least they just don't really have the full picture so

46:51

thank you so muchy is there anything else that you would like to finish on not really at this point I think we

46:57

covered quite a bit but I do believe prayer does work me and I do believe

47:03

that um I also believe in putting um personal action so if um anyone feels

47:10

led to to write their congressman and ask why isn't this something being done

47:16

about this or whoever um anyone who might have connections or be aware of

47:23

trafficking just be aware that traffic tring has a lot of layers to it and maybe it's time to start um doing

47:31

something about the youngest and most vulnerable it's so true the infants the babies and

47:38

the young children yeah without us they don't have a voice and you know yeah by

47:44

us all understanding the levels of trafficking at least we're equipped to start being able to see this in our

47:50

communities as well and I always say to say to people that are learning about this because it's such a dark topic you

47:57

can be proactive both through prayer and through educating others but keep it keep an eye out like you know constantly

48:04

have your eyes open in the community like a couple of girls I know that um you know are aware of trafficking a few

48:10

months ago they're at a pool and they noticed a little girl getting targeted

48:15

by an older man trying to lure her into the toilet so they were able to jump in and do something about it and we don't

48:21

know where that would have went but because they're aware of trafficking they're aware of how these people work

48:27

they saw it so you know never never think that you know something as simple as sharing an interview like this or

48:34

talking to someone about trafficking it it might help a child it might you know save one from being abused and and get

48:41

get them out of you know horror horror much earlier so we can all we can all

48:46

take action in our communities as well so thank you so much for your time SP

48:51

it's always it's always such a pleasure having you join us and thank you for you

48:57
