³ A voice crieth in the wilderness, Prepare ye the way of the Lord: make straight in the desert a path for our God.

⁴ Every valley shall be exalted, and every mountain and hill shall be made low; and the crooked shall be straight, and the rough places plain.

⁵ And the glory of the Lord shall be revealed, and all flesh shall see it together: for the mouth of the Lord hath spoken it.

Isaiah 40:3-5

When the Cabal talks with disdain about the “Flat Earthers” this is what they’re referring to. They’re talking about the “voices in the wilderness” which call for all things to be revealed. No mountains to hide behind and no valleys to hide within. Everything crooked made straight and rough places plain.

In other words, all lies revealed. Nowhere to hide. The Truth, the Light, unobstructed by uneven terrain.

So, when they go about making sure there’s a contingency of “flat earthers” making videos about the world LITERALLY being flat and surrounded by a wall of ice, not figuratively, it’s meant to do two things:

- Provide cover for talking about this demographic of truth-seekers in Comms.
- Chastise and entrap all those who are naturally suspicious of the government by means of classic sophism to make them look like fools and preemptively quash revolt.

Basically, they hire some feds to brainwash people who then put up videos which make them look as crazy as possible for the express purpose of crafting a stereotype for conspiracy theorists they then can strategically bully and abuse through social media using peer pressure and group-think; straw men burned to keep the fearful population in check while netting the most foolishly suspicious into a camp they can steer and control.

But, you may ask, “why do they need Flat Earth as a subject in Comms?”

Simple. The two primary components of Flat Earth theories entails that space, and NASA, is fake and there is an Ice Wall which all the world governments are working to hide such that we don’t discover what lies beyond the “dam.” In Comms, this is a nice package to springboard specific discussions. First off, I’ll *tenderly* agree with Flat Earthers that NASA is fake and gay. Not necessarily the space science mind you, but the institution as a whole. They’re a scam at best, and at worst they’re the ones who “watch the ‘Stars’” AKA Celebrity Watchers. In other words, they’re the ones making sure the big actors in Hollywood and the Media can’t jump ship as part of the CIA and other Intel Agency’s attempts to control the Collective Consciousness with thought programming.

That’s my theory, and a Quick Comms on NASA may come up later, but for now let’s focus on the Flat Earth component.

If there were a dam made of ice preventing all the world’s water from pouring off the side of a plate hurling upwards in an endless motion upwards, then it would make sense for all the world governments to make sure no one goes and tries to blow it up and cause a permanent drought, thereby bringing an end to the world.

Of course, all that is nonsense. In reality, it’s all just Comms to describe the nuances of a Mass Declass event. A great flood versus a great drought. If Water = Information, then “Flood” means an endless torrent of information while “Drought” means a complete lack of information. Ice is “compacted cold water” and therefore is synonymous with “established history.” It’s “hard” information that can serve as a foundation upon which one can build. Facts and ancient history included.

So the Flat Earth Ice Dam, therefore, represents a wall which is holding back a flood of information from escaping into empty space. It’s the potential loss of the Cabal’s fake history being discarded and thrown into the trash bin. The centuries of victors of war writing all the history books now risk being looked at with the utmost scrutiny as the people eagerly throw out anything that so much as has a hint of bias or contradiction. Anything that props up government and tyranny over common sense is soon to be

expunged as honest truth-seekers try to collect the pieces of a shattered and ravaged Human history.

All to achieve a state as described in Isaiah, where there is no mountain or valley in which the enemy may hide.

¹⁵ And the kings of the earth, and the great men, and the rich men, and the chief captains, and the mighty men, and every bondman, and every free man, hid themselves in dens, and among the rocks of the mountains,

¹⁶ And said to the mountains and rocks, Fall on us, and hide us from the presence of him that sitteth on the throne, and from the wrath of the Lamb.

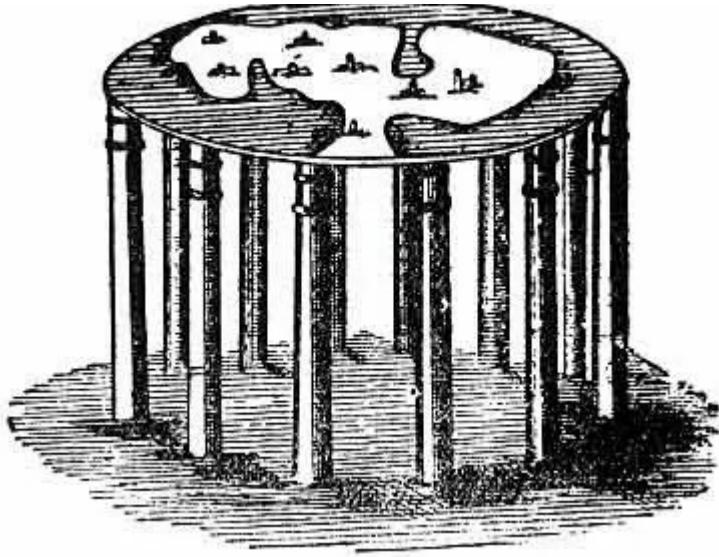

Revelation 6:15-16

That's what Flat Earth means to the Cabal, and why they act with such disdain towards the adherents they duped into following those ideals. They're only using rednecks and hillbillies who distrust the government narrative as a proxy for the "final day prophets." In reality, they're talking about people like John the Baptist, who call out like voices shouting in the desert for the powerful tyrants to repent while there is still time.

Of course, I picture them rolling their eyes at such a notion, truly believing that the "way of the world" supersedes any opportunity for repentance. Why come clean when they seem to have gotten away with their crimes? They are so Proud as to assume that they can take their ill-gotten gains with them to the grave and beyond.

There's a Seven-Fold meaning to all things, and as it is written, all those hills and mountains will be flattened, and the valleys filled; the crooked paths straightened and the rough places sanded plain on that final day of Judgement. Nothing will be hidden from the Lord when you are taken away from this world and suspended before the throne to be judged. There is no shadow dark enough to hide even the slightest of your sins. This is the Truth in the Light, which does permeate all things.

Flat Earth, as they have pitched it, is a mockery of the real Flat Earth described in the Bible. They have created a false imitation, as they do with all things, to lambast it among the sheep such that it serve as an example of what happens should a sheep start asking too many questions.

Meanwhile, the Flat Earth which those familiar with [Isaiah 40:3-5](#) have seen, swiftly approaches. The Flat Earth model is fakery and mockery — a tool by which they may dismiss the word of the Prophets of God as inane ramblings.

I will note, however, that Flat Earth has fallen out of fashion as of late. It was more prevalent in their channels for Comms back during the Trump Presidency because it still looked like they had control of the narrative spin cycle. There was still hope they could get rid of Trump and continue the 16-year plan with Hillary's U1 framejob before the timer ran out. That hope of theirs has seemingly come to an end, what with the back-to-back "happenings" coming out every other week. Now they're just focused on killing as many as possible so their chances of escape are more likely.

Did you ever stop to think why no one ever strategically exterminates zombies using traps and pitfalls in any zombie apocalypse movies? Seems like "thinning the herd" would be a wise investment of resources over just running away all the time. One less zombie is one less threat if things go south. That's the conclusion I'd come to, anyways, so I can't help but figure they're thinking much of the same what with their genocide, financial collapse, World War 3, and mass immigration plots. They want us fighting ourselves and falling into despair.

Their only chance at this point is to escape in the confusion...

I like this comms analysis from the cabal's point of view. It really puts into perspective why they devote so much energy to the flat earth concept, which always confused me because there were so few flat earthers and they're so harmless.

Curious what you think about the news that floats out from time to time about flat earthers proving themselves wrong?
