this. The Knowledge thus gained

that I had produced carbon

results at will. For example,  
my bronchitis which had been  
most intractable was cured in  
a single day. I obtained money  
when needed. I obtained "sea-free  
and sex-attraction" so strongly  
that for months after I was never at  
a loss. Better than all, I was  
able to excite my art-creative  
power and my magical intuition  
so that much of the very great  
work done by me all this  
past summer may be considered  
due entirely to this Art.

All that I learnt from these  
books has been written by me  
in the Epistle De Arte Magica  
N. T. X.

I now begin an ordered & observing record.

I.

Sept 3. 3P♀ 47 0P♀

Marie Maddingley - respectable married woman.

Object - "Sex-free and sex-attraction" in order to facilitate the practice of the 1X° for these experiments.

The girl was very weak feminine easily excitable and very keen, it being the first time she had committed adultery. Op<sup>s</sup> highly orgasmic, and eliciting of post-coital mellowing.

Result. Large complete success

from the nature of the following record. N° II.

Note.

I suspect that these operations will not cross the sea. The identical operation in April worked admirably for two months. I then crossed to Paris, & found inhibition; but met V.D. and was out. So see see Op I Note, and Op. VI. → Walker Duranti

Sept 6. O Q h ♀ P ♂ C P ♀ X H  
D P O

Christine Rosalie Byrne  
("Peggy Marchmont") - Piccadilly  
prostitute.

Object. Knowledge of the  
Hysteresis of the IXO and power  
to express the same.

The girl is a sturdy bitch of 26 or  
so. The opia lasted with rare <sup>rare</sup> and  
brief intervals from 11 AM to 10 P.M.  
and the ceremony was three  
performed. Was not at all  
exhausted & could have  
gone on all night.

Though she was hard up, she  
refused even a friendly

present.

Result. Success complete, since I wrote "De arte magica N.T.A."

"De hominibus" "De natura  
deorum" "De Nuptiis secretis  
deorum cum hominibus" in which  
will be found very great wisdom  
of the Gods on all this matter.

(I possess the MSS of the above 379)

But I suppose that I made some  
great error, for I immediately  
felt some strain, which declared  
itself shortly as phlebitis  
with thrombosis of the left  
leg, and interrupted the  
course of the experiments. Hence  
the date of No. III.

Or might the ill-health be part of  
the success, as giving me opportunity to write?

That 6-day Oct 17 I am going about  
much as usual.

Nov 1. The symptoms are still not  
altogether vanished. But most  
assuredly some three days after the  
rite I had the feeling of health  
- an indescribable but well-known  
sensation. I began many exercises  
Rings, made up my mind, and  
here I am in New York!

Nov 21. The most anxious solicitude  
fails to discover any fault in the  
leg. This is a month earlier than the  
doctor's prognosis.

Nov 29. Not perfectly well, this leg. But  
general health throughout better than I  
have known it for years.

Dec 15. I shall close this record with

I had a rather bad cold following this operation.

I had a "feeling" or "intuition" that this method is not altogether right. Divination says (I judge) that it is right VII 4. 49.

Dec 22. On 15. I think on the whole I may say I have had success, though its results are not manifest altogether.

But I have had love, money, pupils, clients, <sup>fame,</sup> <sup>and</sup> my prospects look very bright all round.

Yes: I shall call this success.

P.S. Feb 14. Every one of these apparent successes materialized only in part. They vanished again almost at once. I think it is all fault of the formula. I evidently don't know how to fix the volatile at all, though the last half of the Opus is all right.

as I have several times tried before with  
fairly good results.

The Operation though slight was  
technically very near perfection.  
I have to admit that like II it was  
suggested by favorable circumstances  
in the afternoon. But I really cannot  
carry scientific scruple to the point  
of refusing to take at the flood  
any tide in my affairs.

Although this record is that of  
an investigator, and it is  
hoped that the results

may be of value to my most  
holy Colleagues the allied Kings of  
the Nations of the Earth, and to my  
children the Unice holy, Unice  
illuminated and Unice illustrious  
Initiates of the Sanctuary of the Gnosis;  
yet it is also that of a Ray bent  
on the accomplishment of a Work; and  
the details of that achievement in  
their event and policy should prove  
as instructive as an arid though  
more rigid and sceptical demonstration.

I wish further to add that I  
see no reason to suppose that the  
<sup>(Sexual fluids after the act)</sup>  
Elixir is miraculous in the sense  
that sceptics would like it to  
be taken. Do an operation to  
make  $2+2=5$ , another to cause  
Neptune to collide with Mercury,  
a third to remain under water.

for a year, and we will believe."  
It is difficult to demonstrate such  
language to be absurd, though to  
common sense no proof is needed.

<sup>R</sup> I think that this Operation merely  
woulds circumstance already fluid,  
combines existing elements in one way  
rather than another, just as an orator  
finding an excitable crowd, moves them  
as he will. No Demosthenes nor  
Antony had roused 'the very stones to cry  
out' against Philip or Brutus. No: I  
will deal with the possible and even  
probable, in the strength of, and to  
the glory of, the Most High, cui sit

And now I must record one of the most curious experiences of my life. I now saw a girl who might have served, but did not think it worth while to speak, as she looked expensive.

In disgust I turned homeward, but was impelled to call loudly upon Hermes 8 times. Instantly flashed into my mind "Go to 42<sup>nd</sup> St & B'way - quick!" Obedient to the heavenly vision, I jumped into a trolley-car & got out at 42<sup>nd</sup>.

The Operation was excellent and very strong, orgasmic but well-controlled. I made a mental image of the room being filled with showers and showers of big shining ten-dollar pieces, and held this very well, even in the midst of the orgasm, which was lengthy; though I could feel her mouth sucking up mine, I could simultaneously see the gold filling the room.

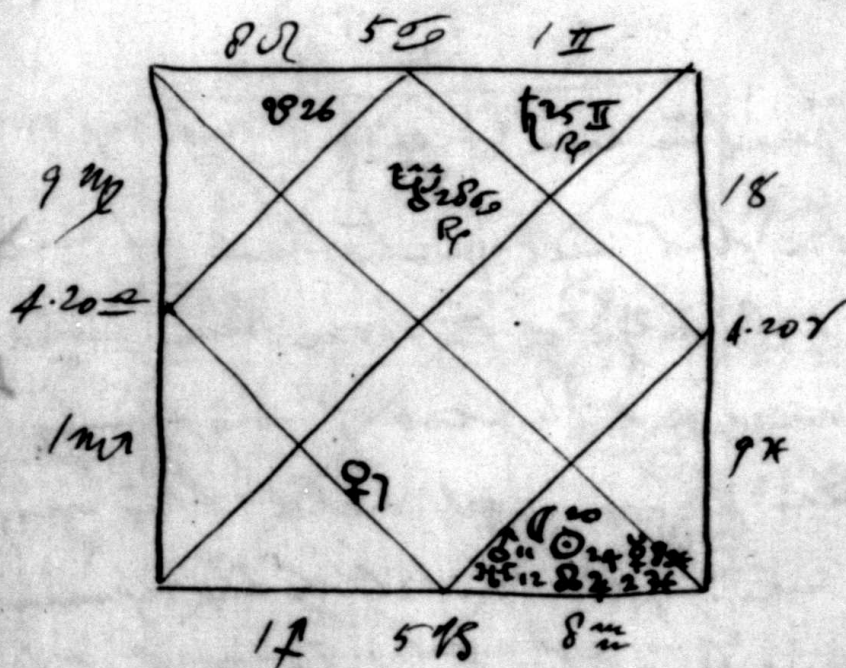

The Elixir was good as usual; but my sense of taste was a little weak, as we had been snuffing <sup>171</sup>  before we began.

June 11. 10.43 P.M.

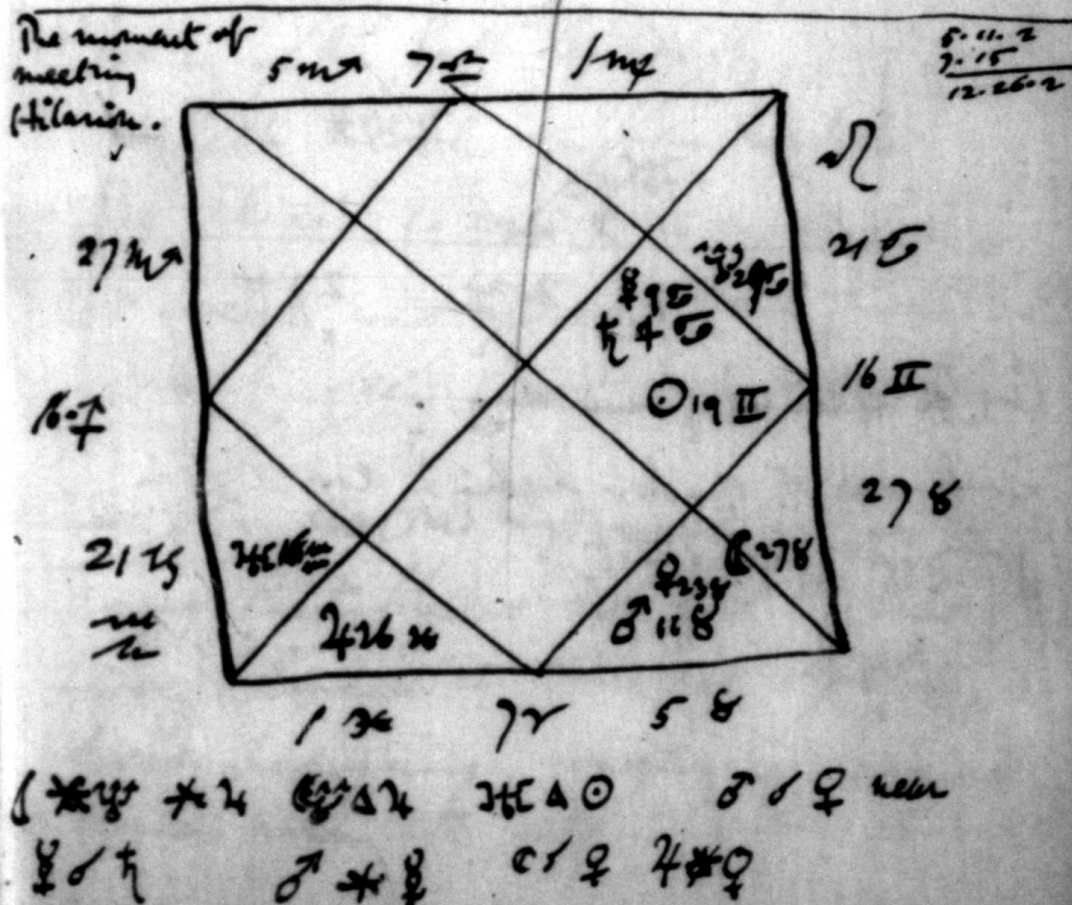

Very warm.  
Pitch darkness.

I think that probably this is the day  
after my meeting with Hilariou say 7.15  
P.M. June 10<sup>th</sup>. In fact there can be no  
reasonable doubt of this.

Object. Thanksgiving for Seance.

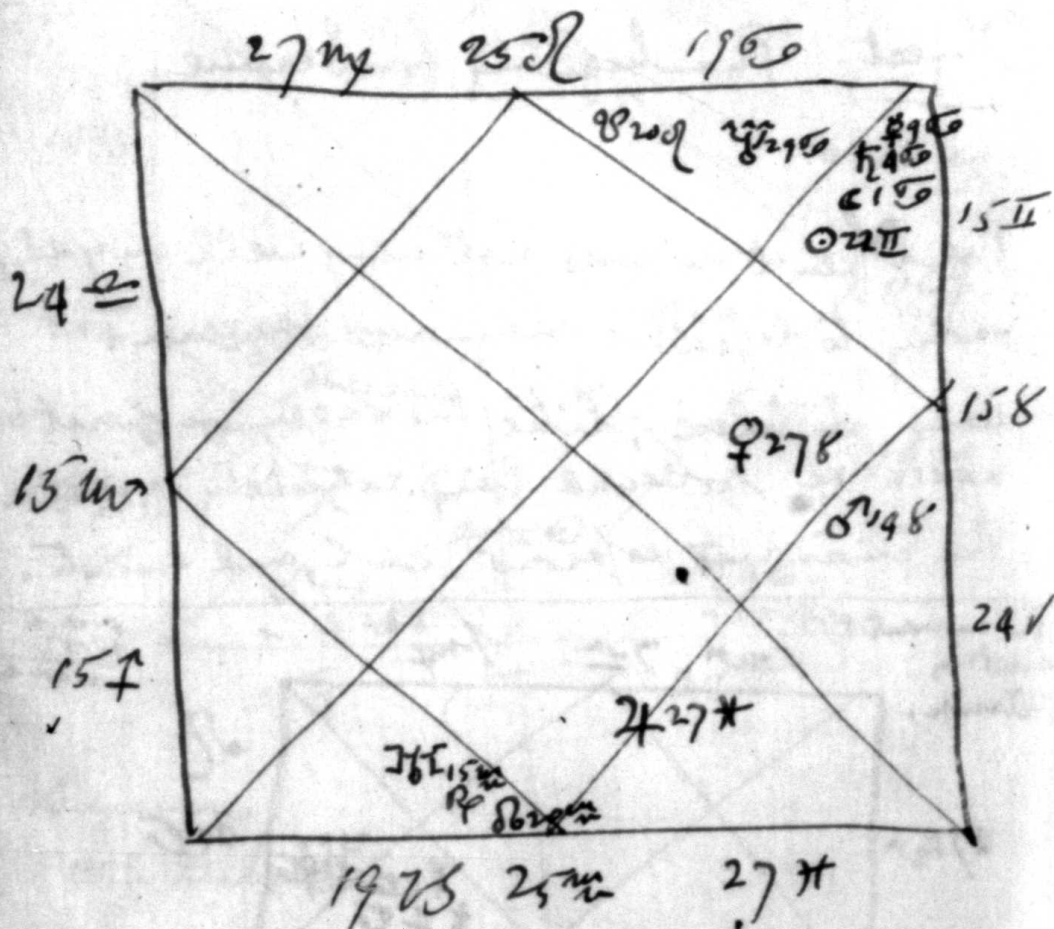

The Operation was not very well imaged,  
owing to defective memory. However, it  
was duplex, like the Egyptian operation  
XXXIX - XL the second being extremely ogistic.  
The Elixir was copious, cool, and sweet.

The Op<sup>ts</sup> took me by surprise, & so I  
was not able to concentrate as usual.  
The Op<sup>ts</sup> was highly orgasmic; it was  
in a sense the culmination of two  
other Works, both of Cumulugus: Doris  
Ganey on the Saturday evening, and another  
unalutka unalutka on home evening.  
The elixir, so much as could be  
recovered, was of strong and aromatic  
quality, very sweet and agreeable.

Result. Astonishing success: a burst of  
energy that I have not had the like of  
since I landed in New York. Polity,  
dress-designing, magazine-conceiving,  
regular work etc all in a bunch.

mythical whore.

Object Poetic Inspiration.

I was utterly tired out, & could hardly  
perform the Op<sup>o</sup> esp. as the cucurbit  
was worthless, and I wanted either  
a bottle of two others very badly.

The elixir, however, was extremely  
good in quality; concentrated,  
aromatic, and sweet. The ill  
was concentrated, but not subdued.

Result. - a complete failure so far  
as actual poetry is concerned; but  
I got certain poetic ideas. The  
Op<sup>o</sup> itself left me tired;  
Then the energy of Op LXVII  
seized me again, & ran on to  
its end some days later.
