Very Ill. and very brother

Yours of the 26th instant to hand. I am sorry that you will be unable to attend at Manchester on Saturday, but I shall be pleased to meet you ^{at} illustrious son at the Midland Hotel at 1 o'clock on Saturday. I shall try and see Very Ill. Brother Higham privately before the meeting.

Dear Sarasvati

It is owing to the serpent that I have cherished in my bosom, the creature that has wormed her way into my confidence, of whom you have already had to complain, that your records have not been returned. She will now make amends by doing so, and they are accordingly enclosed.

I have not had time to deal with your ?

We will agree to differ about physical love.

When you say cruelty is bad in itself you assert an a priori knowledge of the Absolute which involves you in the (tails ?) of Satan ?.

I thought you would be afraid of Mr (? Mrs T) Cremers

You have my address in Paris quite correctly and no doubt we shall manage to meet.

With regard to more important matters I do not mean that you were simply day-dreaming. There was undoubtedly a real explosion, but your ^{natural} tendency to confuse things causes explanation to be comparatively mild so far as these results are concerned. Just as a heap of gunpowder in the open can be fired without damage. An experience like yours in the mind of a butcher would probably mean insanity or death. I think you will find more difficulty in controlling the mind than you suppose. Your innate tendency, ancestral or otherwise, to mysticism has to be combated.

About the books. I am very distressed as to what you say about the Necklace, but as you are very fond of it, what can I say. Anyway it is not my funeral as I have nothing to do with the business here. There is nothing in my Collected Works of much interest. Mrs

Good letter
 Greniers is sending you a set of Equinoxes. You will find all the official instructions of the A.A., very valuable and much that is useful in the T(emple) of S(olomon the) K(ing). She is also sending you a 777. It is all very well to say that the language (? T) is a jargon, but so is the language of Algebra. In order to be able to talk about these things commonly (? T), we had to show a correspondence between the different systems of religion, and it was necessary to have some basis. Once you understand the ^{type #1} ~~truth~~ of life you find it very easy and very useful. In 777 you will see how we have formulated these from various religions.

Logic will certainly not hurt you. Keynes was my teacher at Cambridge and his 'Formal Logic' has always been one of my favorite books for lighter reading.

You asked where I think you will get to ultimately, and of course the answer is "same as everybody else". Now you have got The Equinox I should like you to study in there "Aha! Aha" and Adonis (? T), of which I am very proud. This is a frightfully hurried letter, but I have to catch a train.

Yours fraternally.

Co-Masonry

Very Illustrious and Very Dear Brother.

Krishnamurti

I hope you were not unpleasantly surprised by the line I found myself obliged to take on Saturday with regard to Mr Wedgwood. I am an extremely broadminded person and masonically inclined towards laxity, and my objection on technical grounds might have been overcome in any other instance. I therefore think it right for me to explain to you what is behind all this. A week or two ago Mr Wedgwood boasted from the Chair of the Emulation Lodge of so-called masons that he had bought the A(ncient) and P(rimitive) R(ite) and that the Rite should pass into the hands of Co-masons. This might have been passed over as being equivalent to the extension of the Rite, if this was all. But it goes much deeper. Co-masonry itself is being dragged into the worship of this coming Christ, who appears to be a person of few wits and no morals, as you will see by the enclosed pamphlet (on the Alcyone Case. T), which please return as I have no copy: and concerning which I may mention that the Court upheld the plaintiff's contention (for the return of his son Krishnamurti from the hands of Mrs Besant T) in every point, in spite of the fact that he is a very poor man while Mrs Besant is spending money by the bucketful to better the ends of justice. She is very anxious to have some respectable masonic authority to pass the impudent blasphemous claims upon; and she took advantage of our late lamented Sev G Master's great age to wheedle him into various courses

of action which no mason could approve. I am sure therefore that you as a Christian clergyman no less than as a mason will see the necessity of combating to the utmost this ^{insidious} attempt to capture our venerable ^Rite for purposes alike so foul and so ridiculous.

Saluting you B T N K T T E O.

(27 June)

Dear Sister Sarasvati.

You think your records about the Trancees and things are dull, but they would not be dull to me because they show by signification. I told you that it would be very hard work, but you must not ^{shirk} it. When I say tired I mean mentally tired, and you never seem to me to be that. In fact your mental activity is one of your worst faults-- features. With a little of this practice you will learn to love every form of thought with almost incredible intensity. Incidentally the break ought to do you a lot of good physically (Two lines illegibly T) Bye and bye you will discover that every statement involves its own contradiction. I think you will find The Soldier and the Hunchback in Eq(uinox) I stimulating. ...

(Something about 'the proposed meeting in Paris')

You ought to send me the lovely poem in T. I liked the other poem very much and the reason I have not got your book is that I handed it over immediately for review to the most poetically minded member of our staff and I cannot get her to return it, owing I suppose to the fact that she always sleeps with it under her pillow. However when I do get it I will let you know immediately. I hope I shall be able to do this before Paris.

Yours fraternally.

To ? . (Higham?) (Probably to Quillian)

(27 June)

Higham purported to convoke a Sev. San(ctuary) of the A and P R(ite) at Manchester at 4 o'clock on Saturday June 28. Messrs Higham, Gasking, Crowley and Wedgwood were present. The various documents connected with the Convention were taken as read. It should however be mentioned that they included 2 strongly worded protests from Very illustrious Brother Reuss and Quillian against the illegality of the said Convention.

Very Illustrious Brother Crowley raised his voice in protest against any business being done at the meeting. He further challenged Brother Wedgwood- the Brothers present to prove that they were Masons, and Mr Wedgwood in doing this claimed authority from a Co-Masonic body so-called with which he is associated. It was, of course impossible

for the others to recognise this claim, as whatever regularity there may have been in Mr Wedgwood's initiation, it was clear that he had plenty of ^aclim to be considered a mason, and a fortiori a member of the A and P Rite by his connection with the so-called Co-masonic Body. Very illustrious Brother Crowley thereupon further supported his first protest by leaving the Lodge counting (? T) on a general agreement of the Brothers present to disband the meeting. In other words Brother (Crowley's ? T) protest was sustained unanimously and Mr Wedgwood's name must consequently be effaced from the muster roll of the S(overeign) S(anctuary) of the A and P R(ite) and all its subordinate bodies.

To Sir Edward Letchworth, Freemasons Hall, Gt Queen Street. E C (27 June)

Dear Sir and Right Wershipful Brother

I wish to appeal to the fraternal Brothers of the Lodge of England in the following circumstances. I was made a Master Mason 17 December 1904 in Lodge 343 X Anglo-Saxon in Paris, working under the Grand Lodge of France. My proposer was the Rev I L Bowley, who I understand has been the Provin(cial) Grand Master ^{Officer} (? T) in the Oxford Province, and I fully understood from him that the Anglo-Saxon Lodge was duly recognised by the Grand lodge of England, and in fact numbers of admitted English masons have attended the Lodge while on the other hand I have always been received with the greatest fraternal welcome in many Lodges both in England and India, and no question has been raised as to my status except in the Grand Chapter of the Royal Arch at Freemason's Hall. I must admit that at that time I was annoyed by what seemed to me a narrow minded view of masonry. As the Ritual of my initiation was that in use all over England, and no such alteration of landmarks had taken place as that which has caused the breach between the G(rand) Lodge of England and the G(rand) Orient. And I shall consequently prepare to support the G L of France in its claim to the validity of its initiations. I am now, however, credibly informed that recently the Grand Lodge of France has tolerated and even recognised so-called co-masonry, and in these circumstances I see no course open to me but to resign from that Lodge, not only on masonic grounds, but because so-called co-masonry is merely a mask for the cult of "Alcyone", which I have no hesitation in describing as the most impudent blasphemy and filthy fraud that has ever been attempted in the history of the world.

I write to assure you of my thorough loyalty and allegiance to the principles of the Grand Lodge of England and I ask your fraternal kindness to make it as easy as possible for me to regularise my position.

Yours faithfully and fraternally

Dear Sir and Brother

When I joined Lodge no 343 I did so on the understanding that the Lodge was in fraternal communication with the Lodge of England and not until last year did anything occur to arouse doubts on the subject. I now understand that the G(rand) L(odge) of England has never recognised our Lodge, and I further learn to my extreme surprise and horror that the Grande Loge de France has decided to recognise so-called Co-Masonry, which is merely a mask for the blasphemous cult of "Alcyone". It is of course impossible for me to have any further connection with a Lodge which makes itself an accomplice in this filthy fraud, and I cannot believe that either yourself or any other of my brothers of the Lodge 343 can have had any notion or come to any other decision. I write to ask you what is the intention of the Lodge? Surely it would be possible for a unanimous petition (? T) of the Brothers of the Lodge to be sent to the G.L. of England for incorporation. The only difficulty was apparently the central right (? T), but I take it that the Grande Loge de France had at one time at least some sort of claim to recognition from- by England. Recent developments have forfeited any such claim, and no question of usurpation could possibly be raised. (Carnegie) (Carnegie?)

Brother Quillian moved that a letter of condolence should be sent to the widow of the late S.G.M.G., which was agreed to.

It was approved and adopted and moved to be recorded in the minutes of the Convocation.

The Election of the S G M G was then duly held as recorded above. The most Ill^{Sev} G.M.— Sev. G M G then opened the Convocation as a Supreme Council of Sev. I must apologise to you for the confusion that took place on Saturday, but it was not my fault, except that I was careless with regard to the source of the telegram which I received, and which I thought had come from your father at Liverpool.. This telegram made me think that you would be arriving from Liverpool at 12.15 and ^{consequently} went to meet the train. ^{Hundreds} ~~Thousands~~ of people with buttonholes got out of that train, I suppose some holiday party, and made the search for you nugatory. I went back to the Midland and learned to my amazement that you couldn't wait any longer, but would be back at 3, and you had not said where you were. Of course I went back to the office at 3 and you never turned up till I had to go to the meeting. From this telegram I further concluded that you would certainly not be in Manchester at 1 o'clock, and so I left no instructions with regard to my whereabouts, but in point of fact I lunched in the grill room of the hotel, and the failure of the hotel people to find me reflects the greatest discredit upon their management. They further, of course, ought to have told me that you had left word where you were to be found. I am very much amazed at their stupidity, though as things turned out it did not matter as it only took me 10 minutes to break up the meeting. You will see that the new Sov(ereign) Grand Master Gen(eral) made me 33° 95°, and I am very glad to be able to congratulate you on your reaching that degree.

To Mrs Graham (Aelfrida Tillyard)

Dear Sarasvati

(3 July)

Thanks for the 1/7d. It doesn't matter in the least whether you join the A.A.. You have got all its advantages. All that joining it implies is that you make a definite continuous record, reference to which is very useful to yourself for various reasons which are probably quite obvious to you. If not they should be. Of course there are certain definite forms of initiation but I don't know that it would be particularly useful to you at present. The only other thing is that you keep the robe for doing your meditation. It is found useful for a great many people to make a complete distinction between the ordinary life and the work. You put on the robe when going to meditate as much as you dress for dinner. By the way, I wish you would send the necklace to Wieland and Co here as I do not like interfering in Business matters if I can possibly help it.

What you say about the correspondence of postures and mantras is very interesting, but it would not work for another person. I certainly expect you to understand the whole of 777 without the slightest difficulty. (Three illegible lines. T)

Thank you for the poem with attached curse. I would put it in the Equinox were it not that it must wait for No 1 of Vol III

Nine numbers of The Equinox have been issued. Practically the whole has been
 written by Mr Crowley. The exception to this rule are articles signed by Frank
 Harris, F C Fuller, Gee Raffalevich, Victor B Neuberg, Ethel Archer, Arthur Grimble,
 J H S Vincent, John Yarker and perhaps one or two others, but a very small proportion
 of the whole (one illegible line) but there are very few left of Nos I, II and

 shall not be back until the middle of August, or perhaps ^a the end. I am triumphant
 except about the proofs; so that if you choose to come here on July 21 you will have
 no disturbance at all. Miss Hobbs will be here in the morning, but I imagine no-one
 else at that time.

I am very glad that you have found it satisfactory to take pains over ritual. You
 formulate the occupants of the Pylons by the simple process of creating them. You ought
 by this time to be able to visualise to such an extent that you can hardly distinguish
 between the planes, and further to project with sufficient vigour to assure the
 presence of something so close to the material as to make no difference.

I will do what I can to help with the interpretation of the Ritual, but whether I
 can do so this morning depends entirely on the telephone. It is quite clear that you
 develop your astral body to the point necessary point. I am absolutely snowed under
 with proofs, so farewell for the moment.

 Wieland and Co are most obliged by the enclosed. I think it is charming.
 I think you might possibly help me very much by getting your husband to write to his

 to catch the 2.20 and travel continuously to Moscow to be there for a month unless I
 decided in the course of the next few half hour not to go at all, which seems more than
 likely. I should very much like to know, wild one, and cannot possibly make

I assure you that the most prolonged study of your excellent husband would afford me no information whatever on the point in dispute. I am just back from Moscow. I had an excellent time. Got about a year's work done in six weeks. I am hoping to see Yardly next week and will write again on that subject. I will now answer your letter of 30 June.

Thanks for quotations from U(nited) G(rand) L(odge) I think they are only referring to Co-masons. I will talk over the whole question of masonry with Yardly. You can have authority to work up to the 5th degree. You don't need to get Reuss.

There was some question of the admission of women to Scott(ish) Memphis and Mizraim and I have come to the (decision?) that it is not worth quarrelling about. Nobody in their senses cares twopence about these Rites. My position now is that O.T.O. in no way trenches (? T) on the privileges of U(nited) G(rand) L(odge). Please remember that the Student qualification should not be neglected, but there is no intention of worrying people about it. It's only object is to prevent persons entirely ignorant of the subject bothering other people with silly questions which they ought to know. As long as the man knows his way about the Equinox it is quite all right to pass him.

I think Nelson's vision very good for a beginner. He ought to get on rapidly enough. Your own work seems to me much improved. If you had not said that you regarded them as unsatisfactory, I should have said they were all right. They want to be a little longer and a little more coherent.

I am overwhelmed with No X so cannot answer more fully at present. The matter of ? on our side is with Cromers. Dear Sir

I have been away in Russia for the summer and find on my return your letters of July 22, July 31, Aug 1 and Aug 20. The Book Berashith you have got though the title is printed in Hebrew, the sub-title being An Essay on Ontology. With regard to the New Year's Card: we have no copy and it would seem almost impossible to procure one. We are relying on the generosity of a friend to let us have his copy for forwarding to you. We are sending you a copy of Oracles, and one of the lithographs Of Mr (Augustus ?) John's Sketch. If you will not consider it impertinent to make the enquiry, I should like to know whether if by any chance you are the buyer of one of these Sketches (of Crowley) which Mr John made. youthful initiations of public school life did not touch him. At Cambridge someone gave him a copy of Krafft-Ebing's *Psychopathia Sexualis*. The conclusion of the eminent German professor revolted him intellectually then, as they do now. He refused to admit that vice was the result of disease. His "White Stains" is an answer to Krafft-Ebing. It is an attempt to explain the feelings of persons engaged in various abnormal practices, that is to explain these practices in terms of psychology rather than of pathology. The work is entirely one of imagination as he had no actual experience even by hearsay of the subject on which he was writing, and of course, being a poet, the poetic form came naturally to him. Alienists have expressed the view that this work is a valuable contribution to medical literature and a great help to the private understanding of the question.

The Scented Garden deals entirely with paederasty, of which the author saw much evidence in India. It is an attempt to understand the mind of the Persian, while the Preliminary Essay does the same for the English clergyman

I thank the goodness and the grace upon my birth that smiled. I had hardly hoped to pull a leg which I esteem even above that of Sir Willeoughby Patteme (? Patterme); especially as I had already pointed out that any statement I might make only indicated a possible point of view or a possible line of argument. In No X (of The Equinox T) you will find an Editorial statement to the effect that my life and work is a practical joke, that I am a fortune hunter, and that I do not exist. I have had

Good letter

six weeks of being daily kicked by a hellier Guru than myself, and have written about 150,000 words including a poem called The Disciple dedicated to you. It was inspired by fear and doubt whether (? T) you would answer my letter.

Your 'true dream' is very interesting. It is particularly curious because I wrote a poem called The Tyler also dedicated to you in which I explained why I always wrote Spiritual Essays in Billingsgate and vice versa (? T), of which the last verse is

"These worthy hogs read me with frowning brows

But their gaurdian angel gains a fresh hold.

However eager these unworthy sews

Meet only a dweller on the threshold.

Please understand that I am the Guardian of the Sanctuary, and my main difficulty is to keep out anyone who is in any way unworthy. I do not care what means I employ so long as the Sanctuary is inviolate. It is natural for anyone who is turned away to blackguard the Guardian, and it does not follow that they are telling lies. They may say that the brute stuck a sword into them, or they may say that he behaved with such impropriety that they were quite sure that it was not a Sanctuary but a brothel. If you are going to be fooled by any of these illusions or terrified by any of these threats you don't get in. SAnyhow your leg pull appears to have lasted a little more than a week. But of course you mustn't reject the ? ? (Plass.... arguments?)
On a certain plane they are quite true. But if you read my ^{an essay on} Ovariotomy in K(ear) O(m) P(ax) you will see it there argued with great eloquence that because shallow enthusiasm reveals ugliness, it does not follow that deeper ^{in this case it is true} might not reveal a further beauty. We go into the Temple of Diana and find in the shrine only a common meteorite. But that is not the end of the argument. What is a meteorite?

I am very amused at your Heffer story. I don't think I offended him, but he was always frightened of me. Heffer was very anxious to catch the University tone - get the clerical trade, which he adroitly did by wearing black clothes and a long sad smile. I knew nothing of his private life but I believe it is his broad ambition to rival Heliogabalus

Your records appear all right. Your question about "Is it good for the mind to have nothing but a green cross in it?" appears to me quite fatuous. It is very bad for the mind, and if you keep it up long enough the mind will die of it, which is what you want. Of course I have a little doubt about the 8 minutes without a break on July 21, but I think I shall know more about it when I see you. I may be over in Paris in the course of the month. Just at present I am snowed under with Equinox X.

I am returning your official biography because it is ^{extremely} externally (? T) clever. With regard to choosing a title, you do not suggest a single one. The catechism of 'A.C.' is very good, and does very well represent exactly what I should say. But the catechism of Sarasvati is not quite true (? T) in some points, though the last sentence I do not potently believe. You see I can't deny that you are a Christian. All I say is that every other Christian would deny it.

Duplicate in A.C. - letter to Cowie.

Just back having done a great deal of work for once. You have got quite the wrong conception about that Ritual. If you go on with Ceremonial the right feeling will come to you. It is almost impossible for me to explain or describe. You might do it a million times and get nothing out of it, and then suddenly boil over. However, the doing of it does produce a ^{result} ~~result~~ in subconsciousness which will one day flower, and that perhaps not when you are doing the Ritual, but something quite different.

Another thing is this. I think you will find it better only to resort to the Ritual when you feel a sudden inspiration to do so. That is my idea of combining Magick and Meditation. You go on with Meditation until you can't stick it any more, and then you will say "Well, by Heaven, I'll do that Ritual" and it works. Similarly you exalt yourself tremendously by a Ritual and all of a sudden sit down in the middle of the circle and shut everything out. You catch the swing of the pendulum from motion to rest. The brain stops working and there you are.

Your reply to Tahuti is of course silence. You were quite wrong about your illumination again. It ought to have been ^{as} ~~as~~ good as you could have made it, because it

T) I shall be extremely grateful. Good Letter

I am so sorry at missing that last lunch. I was going to tell you a story which very few people know. That is the inner story—history of the catastrophe that overtook the gentleman (Oscar Wilde ?) in whom Russia is so interested. The story is called "Danger of Bunburying". Bunbury is a portmanteau word Banbury and Sunbury. The author in question hastily getting into the train at Banbury found the carriage already occupied by a schoolboy who was returning from a public school not very far away. They got into conversation and subsequently met by appointment at Sunbury. Hence the word Bunbury and its meaning. For our author began a series of frequent and unexplained absences

The talented author of so many sonnets, the same who is now the condemnation of purity in English morals, found these absences suspicious and jumped to a correct conclusion as ^{well} ^{these} women will to a correct conclusion although without definite evidence. There was a tremendous row, and in the event he determined to ruin his friend. You have perhaps heard Ross's conviction that a catastrophe was deliberately brought about by (Lord) A(lfred) D(ouglas). I don't think even Ross knows why. In fact I think there are only two people living who know. There have been reasons for not telling the story before, but it is a very good one and quite true.

I shall, probably know in a fortnight whether I am likely to get to Moscow in January. I most earnestly desire the same. Please write and tell me what you think of my books and my anecdote. [? do not know if he returned there 9.7.97]

Dear Shirley

54 57
I have just got back from Moscow where I have had a great time. Of course quite overwhelmed with the preparation of No X. I will send you a copy of every advertisement in the course of a few days. Can you let me have the copy for your (Rider & Co T) advertisement if possible within 24 hours. I am sending you a proof of the 'Key of the Mysteries' as I am afraid I shall not be able to let you have an Equinox in time, and I should feel very much obliged if you would give yourself the trouble of reading it and either writing an article on it or at least making an extended editorial reference. It is to my mind by far the most exalted and convincing work of Lévi's. Such passages as are the one with regard to the Spirit of Charity and his description of the Catholicism of the future beginning on p 72 ⁴¹ has to my mind few rivals in French literature. I am anxious to see you and have a long talk as soon as may be. Perhaps you will have dinner with me one evening. At present I am quite free any night but Sunday, when we begin once more with the (Mass of the) Phoenix.

Yours ever

I have now returned from Russia and had hoped to find an answer to my letter of July 24. I am publishing the details of the whole affair within the next few days. I do not know whether you have attended a Lodge meeting recently but a circular has just been sent out by the United Lodge of Great Britain warning brothers once more against so-called masons practicing in England and admitting women. I am most anxious to have your definite written guarantee that you will in no way recognise Mr Wedgwood. The Antient Primitive Rite will in future have a monthly organ which will of course come under the notice of Grand Lodge. I am most anxious personally to keep on the best of terms with Grand Lodge, and I shall have no hesitation in recommending the Sev. Grand Master General to suspend any member of the Rite whose attitude is doubtful until the approval of Grand Lodge has been obtained

I have had no answer to my letter of June 4 asking for an account of the property of the Antient and Prim(itive) Rite. I enclose for you a copy of the minutes of the Committee. No doubt you will see that the successor of the late John Yarker was regularly elected and that the property of the Rite must be handed over to him or his representative. I do not propose to refer to certain information which has come to my knowledge. I will only say that I am instructed to commence legal proceedings unless satisfactory arrangements are made within the next few days.

I was delayed a fortnight coming from Moscow which makes the pressure on me at the moment enormous- tremendous. No X will have nearly 600 pp in it as far as I can make out and I am particularly anxious to have a second eye to go over the proofs. If you could manage to come up for one day or two, if possible Wednesday I think it would be got through. I sent you the proofs as I have to go through Liber Legis with the (holograph manuscript ? T) which is as you remember on a book (? big T) roll, and I am anxious to obey the injunction "Not so much as the style of the letter". The final proofs I could send you, but they will not be in for a fortnight I suppose. It looks as though we were going to be a month late now.

Dear L.F. It is the English Rosicrucian Symbols that I cannot find. I am also unable to discover the silver Sanctuary Lamp with gilt cherubs. It is ~~rather~~ ^{rather} an important matter as that lamp forms part of the property of which you are one of the trustees. (4 Sept 1913) 68 69 ? What book does this refer to?
I am very sorry to have been away when you came to England, as I very much wanted to see you about various things. In particular the question of these stereotypes. They were sent over to America at the request of Mrs Cremers before she left America, and I understood from her that you would undertake her work while she was away over helping me. I need hardly say that we had no wish to involve you in any expense and would gladly have refunded you any sums which you might have dispensed on our account. We are always glad if Brothers will make sacrifices to help us but we do not expect and do not ask it. At present I am faced with the alternative of having these valuable plates destroyed and I hope that you will take delivery at once and save them. As soon as I come over to America I will see about having the book published, though I should certainly be very much obliged if you would try and get a publisher to issue it. I think he would be likely to do so, as he would only be put to the cost of printing from the plates, and as I should be quite prepared to forego any royalties until he himself had recouped his expenses. I am sorry you did not write to me and tell me how you were getting on, as I am very interested in your progress. Please let me know your views as soon as possible

Dear Fielding

Thanks for your note. Rodin in Rome has 7 lithographs by Clot of Rodin's drawings and a lot of poems of mine, all on China paper. I am glad you are getting to be yourself again at last. I was in Russia all the summer and had an excellent time. I wrote about 150,000 words. I should like to see the Drunken Jones Trances, but when I was young I was very very wise and called all that sort of thing hysteria, not in defiance of Greek but in defiance of accepted sex classification (? T).

I think it is very rude of you to ask me why I don't write something else for the stage. I have written a lot of really decent things but nobody will look at them. The only time anyone has ever condescended to discuss the subject at all seriously was this 'Tango', which is not mine at all, but was adapted by me from the draft of Mrs Sturges. If you like when you come back we will look at some of the things, and if you think anything can be done with them, we will then discuss what. I shall probably be here for the next two months. Irish politics

Lord Leveburn (? Loreburn) was a brilliant advocate a good judge and an excellent Lord Chancellor. It is a pity that he did not stop there, for his later proposak reveals a depth of misunderstanding of the situation which in a less trying crisis would be comic. His proposal amounts to little more than the appointing of a Royal Commission. The Irish hate the English almost as much as the English fear the Irish. The Irish party are in power and it would give them unmixed gratification to see Ulster treated à la Cromwell, and there is no doubt that they will do it themselves as soon as the power is in their hands. This is a question of the elemental ^{passions of human nature} ~~passions of human nature~~ and the problem is not more possible to solve than that of Poland. England has already paid a thousand times over for the wrongs done to Ireland and as yet she has not diminished the debt by one jot. Justice is the Prince of Moneylenders.

More piffle than enough has been written during the last fortnight about the Railways. Most of the writers seemingly possess no more practical acquaintance with the work of a Railway than may be obtained from a cheap trip to Southend. Whatever may be the result of the enquiry, practical railway men will have no doubt that gross carelessness on the part of the men in charge of both trains was the cause of the accident. Next week we shall print an article 'Some Curious Railway Accidents'.

The wise layman has been very ready with his suggestions for rendering such accidents impossible in the future. A detonator to warn the driver that he is running past signals and other such emergency devices have been very cleverly invented for the benefit of the expert who knew about them in his cradle. But the sanest opinion is opposed altogether to emergency signals. The psychology of the engine-driver is such that if he has two signals he will only take notice of one and the second is consequently wasted. It is best to have signals as simple as possible, and they should preferably be all of the same kind. The majority of accidents are caused by coincidences quite impossible to foresee. The public generally, too, fail to recognize the size of the signal problem. Last year in Germany there were 700,000,000 signal operations. In so vast a number there must be many mistakes. From the point of view of the safety of the trains, probably 99% of such mistakes have no bad result. The 100th wrecks a train, and the unthinking begin to distribute blame without any basis whatever for their judgements.

The keyword of the 19th century was Competition, that of the 20th is combination. All great fortunes are made by men who understand this, and can give it practical shape. He deserves best of his country who can induce his countrymen to organise themselves to work in unison towards a common end. We have therefore determined to institute a competition in which a reward will be made for combination.

The military formation of the Ancient Greeks was called the Phalanx, and with the arms that were then in use it proved irresistible. It is our intention to imitate this formation. Any reader of the paper may become the Captain of a phalanx. Let him cut out the coupon on this page and affix with gum to the head of a large sheet of paper. He must then get as many of his friends as possible to do the same, putting 2 coupons beneath his in line, 3 coupons that line, 4 coupons beneath that line and so on. He will then send this sheet with postal orders for as many sixpences as there are coupons. To every member of the largest phalanx the sum of one sovereign will be paid sent, and he will also have the right to enter one of our special Advertisements competitions for which the prize will

be as many sovereigns as there are phalanxes competing. The members of the second largest phalanx will receive 5/- a head; that of the third largest 2/6; that of the fourth free coupons for the following week's competition.

A phalanx must consist of at least 31 persons. The address of any member of a phalanx must be within 10 miles of that of his captain.

Circular to Newsagents.

In your position you have special opportunities for forming phalanxes by inducing your customers to join at the time when they purchase the paper.
