This was illegal for two reasons.

1st because Article II of the Constitution provides that 20 days' notice must be given of a Special Convention

Secondly, because by Article II the Grand Administrative General has not fulfilled the conditions imposed upon him, & because notices were not issued to all the Prince Patriarch Grand Conservators of the Rite & Bro. Crosby, & [illegible] were

Translator's Note.

In the biographical & critical essay which Mr Waite prefixes to his reprint of Magick, he says a word must be added of the method of this dispute, which claims to be something more than translation, & has been infinitely more laborious. I think it to be in all respects faithful, & since it has been necessary & possible for it to be literal, there is also it is literal. Gentlemen.

I enclose you a copy of a contract which has not yet been signed. I am told that this Lechignié is under some legal disability, but he was not so at the time of signing the contract and I should like your opinion as to whether it can be enforced. I would also like you to find out very privately and without anyone suspecting that anyone is moving in the matter as to whether he is in possession of his personal liberty.

I am, Gentlemen,

Yours faithfully

The keynote of the 19th century was Competition. That of the 20th is Combination. All great fortunes are made by men who understand this, and can give it practical shape. He deserves best of his country who can induce his countrymen to organise themselves to work in unison towards a common end. We shape determined to institute a competition in which a reward will be made for combination.

extremely interesting book

6 o'clock. Left Paris. Case for the Claimant with no blind eye that a lawyer need have. What interested me most in the book was the impossibilities of discovering, in a the clear proof > of the innocence of the accused. Court of Justice shelters or rivs a man whose counsel — in possession of his senses did or did not know a word of French. I do not think that the shrewdest mind will easily acquiesce in the verdict of the jury. The whole circumstances were monstrously unjust. The whole system of clearly hunting evidently calculated rather to obscure it. Both sides not so much backed up the witnesses but backed up everybody but the right one. In any case this is an excellent full account of the most famous trial in the Annals of English jurisprudence.
