The idea seems to be to have a sort of understudy Scarlet Woman for presentation to the public!!! I don't know whether Abstract can develop into the type required. I doubt it, for many reasons: firstly, because my feeling is that the woman must be, principally, an Antichristian social force, fit to lead a definite movement to destroy the convention of the social superiority of "Christians" (e.g. in Paris the Jews go to Mass - most un-Thalassic thing possible!) and so on: maybe, the mother of the true Antichrist. What contracts do you propose to offer me?

I think I had better leave it to you to feel the pulse of the public with regard to the actual subjects of the lectures. As you know, I am familiar with every branch of Occult Science, and can suit myself to any conceivable audience.

* In case you do not know how famous I am, I refer you to the recent series of twelve double-page feature stories by William B.
