This is my Jubilee - just 25 years ago at this hour I was in Great Queen Street wondering whether I should come through my initiation alive! The Occultation came off more or less - 4<sup>00</sup> A.M. to 12<sup>00</sup> P.M. and since then I have been paying for it, and paying a Hell of a price!! I have been down to some very bad places. The trouble is that it doesn't seem worth while pulling myself up. This sort of thing has been growing on me very seriously in the last 3 years. It is really urgent that I should be fed on hope - <sup>and old things should be put away</sup> My weakness wants practical confirmation of the faith that my work is worth while. Very few people recognize my extreme & even morbid sensitiveness. My dauntlessness is pure Freudian protection. I am perfectly happy when working and am a dog for work; but as I grow older,

is the impropriety of some of my writing  
which of course must be shown to be  
the highest morality. It must be  
hammered into people that I am  
the only living poet of the first  
rank & that I can certainly be  
done. You should persuade some  
well-known critic to make his  
fortune by making mine. Back this  
up by arousing indignation & the  
reaction in my favour will supply  
sufficient capital to put things on  
a proper basis. You should get to  
London as soon as you can & con-  
centrate your efforts on this pro-  
gramme. What with the Hag &  
other unpublished work the retriev-

The man must work purely on his own initiative for that first year. Further he showed gross incompetence when Lloyd appealed to him about Pranayama & Fuller had no idea how to put him straight on the simplest point of the practice. On the top of this - we were working in apparent harmony at the time - he bungled in without a word of warning the astounding agreement ~~that~~ by which I was to forfeit £100 every time I mentioned his name. I thought it treacherous & unmanly; in view of the accompanying threats, something very like blackmail; there was only one possible reply, which was to mention his name not as a valued colleague, as before, but as the object of rebuke. I had noted for some time the tendency to disown me. Jones would not call me in his libel action & tried to

Your remarks in Arabic figures

1. Glad my replies have helped. The way to get rid of your inhibitions & muddles is to force yourself to eliminate moral judgments. Think of yourself as, & all as pieces of in a game of chess. Each move in a limited way but it is useless to be angry about the limit - to wish a knight moved like a rook etc. - You must take the position as it is & make the best of it. All forms of emotion & passion are fatal to good play.

2. I will resolve your complexes ambulando. Don't worry. Let me work.

I advise you avoid brooding over your complexes as such; apply to all the matter.

The point is that there is no final state or initial state, that the last is bound to become the first. The crux of the problem is "what exactly happens at that moment?" modern thought. Bring out, in particular,  
that this new Law explains all types of  
problem. I look to you to help & encourage  
A.I. in every way. I want you to grapple  
with O. 2 until your mind assimilates it  
as the necessary basis of all clear thinking.

B. The vindication is one of the holes  
I devised for you. Work as Zola did for  
Dreyfus. You must succeed for the obvious  
reasons but also as your magical task  
& mindful that success will lead to a  
new situation of the utmost magical  
importance. One point is that the gold of  
Fuller & others must be tried in the fire. They  
must master their personal feelings of every  
kind & come out manfully for me, hating me  
if they must, for the sake of Truth & 'fair play'.

V. My Will is abstract. 667 & you  
must give it form. Enclosed an Act of Truth  
should make clear the essential magical  
Features of the Odeal.

Glad your health is better. On Nov. 14  
667's revolt against G.W. reached a crisis. I  
made her renew the Oath which restored her  
to herself & no doubt sent a current to you.  
Your illness was perhaps in part due to her  
magical trouble.

Note legend of Beauty & the Beast. Note title the Beast. The formula is to claim the highest Kingship so that men say "that's what I want" and approach. They must then be disappointed & repelled at every point. If their sense of truth awails they smile & pass. Instantly the illusion vanishes & they see that the original claim is just.

Note H.P.B. who persuaded seekers that she was a cheat (having claimed to be sent by the Masters) She did this so well that I had to hang on like a bull-dog to The Voice of the Silence to prevent myself doubting her Adepts.

This formula is ancient. In Egypt they took the Candidate in search of Spirituality firstly etc. to a goat & then said "This is our God & you have to kiss its eye." On his preparing to comply, he found the face of a young priestess awaiting his kiss.

Fuller's Ordeal needs this key. When I read in his opening of the Temple of Solomon that his joining me was, as he said "a quiet turning of a corner" I knew instantly that there was something wrong there. I could not explain to myself what or how to act. All is now clear. He came to me in straightforward admiration of the poet clincher etc. & found me a gentleman with most of my tastes & views sympathetic with his. He thus missed the Goat Ordeal & so had to go through it in a deadlier form. He had to be repelled after thinking that he knew me & could judge.

Part of your Tunis Ordeal was due to a similar fact. You had never loathed me properly, so you had to suffer the vision of the Demon Crowley in a very acute form. I must have seemed base, brutal, selfish, false to my own word - a typical old husband & a dog in the manger at that. I encouraged this view as best I could. You became stone blind about me in quite petty trifles, e.g. the fawning watch incident. Your test of Truth in S. A. pulled you through easily. Fuller failed chiefly because he had always played safe. He never offered help outside the work he did. His key is to say now "whatever 666 seems I know him to be the prophet of the Age & I hereby give up for him my career, my friends, my reputation, my cash, and my life." The more

The Hāng Hexagram

Δ of Δ

Hāng indicates successful progress and no error (in what it denotes.) But the advantage will come from being firm and correct; and movement in any direction whatever will be advantageous.

The First line divided, shows its subject deeply (decisions) of long continuance. Even with firm correctness there will be evil; there will be no advantage in any way.

The Second line undivided, shows all occasion for repentance disappearing.

The third line undivided, shows one who does not continuously maintain his virtue. There are those who will impute this to him as a disgrace. However firm he may be there will be ground for regret.

The fourth line undivided, shows a field where there is no game.

↓  
The fifth line, divided, shows its subject  
continuously maintaining the virtue in-  
dicated by it. In a wife this will be  
fortunate; in a husband, evil.

The ~~sixth~~<sup>topmost</sup> line, divided, shows its  
subject exciting himself in long con-  
tinuance. There will be evil.
