A.C. - Hudd.

11

COLLEGIUM AD SPIRITUM SANCTUM,

Cefallù, Sicily.

Mar. 16, 1923

C.V.

Care Frater,

Do what thou wilt shall be the whole of the Law.

I had better begin by giving you a general idea of the position here, and of recent events.

On my return from America ^(twice) Xmas 1919, I found that ^{practically} the whole of the property of the Order and my own personal property had been stolen by the Grand Treasurer General and the Grand Secretary General. They had stripped me of my very underclothing. Further, a Settlement that I had made had lost one of its Trustees by death, and the other had become my bitter enemy for no reason at all. I found it also impossible to get any of my writing accepted.

I was thus entirely penniless. Much of the stolen property could no doubt be recovered by legal action; but that requires money. The Gods, however, provided supplies from time to time, so that I was able to pay £350 which was due to the printers who had the whole stock of my books in warehouse. When however I came to take delivery, the firm had changed hands, and the New Boss was a crook and a crank, and refused to hand them over. They are worth from £15000 to £20000; and our first business must be to compel him to deliver them. I will give full details of all these matters when we meet.

We were then ^{as} living from hand to mouth all through 1920-21. Then I was able to sell a reversion for a small sum. It enabled me to go to England; and no more. This was in May 1922. I reached London with less than £10 and the only clothes I had were some Highland clothes which had been left in Storage with Scott Adie, and thus escaped the Grand Treasurer General. I managed to get along by pawning my watch etc. until I got some money from the English Review for various articles, and an advance of £60 on the Diary of a Drug Fiend. Later I got a further advance on my Autohagiography, which is a tremendous business and still unfinished. I wrote the Drug-Fiend in a month, ^{took a short holiday (for writing odd essays),} + settled down. ^{The 'Mag' has been ill, & had to come out here at once.} I returned here early in November 1922. Various people in London promised to send me money on various accounts; and they all went back on their word. We therefore had to live all winter as best we could on credit.

There was an Oxford boy named ^{Gilly May} Loveday who had given two years of work to studying the Equinox etc.. He had been long anxious to meet me, which he did about a fortnight before I left England. He had been trapped into marrying a half-crazy whore, who had been twice married and once divorced previously. I wrote to him from Rome to join me. He wanted to study and practice Magick with me and was to help me with my work. I have an im -

COLLEGIUM AD SPIRITUM SANCTUM

Collegii, Scripti.

Care Reader,

Do not think I shall be the first to write to you.

I had better say that I am not a member of the college, and I respect your privacy.

I am a student of the college, and I am very interested in the study of the spirit. I have been studying the spirit for some time, and I have found it to be a very interesting and useful study. I have been studying the spirit for some time, and I have found it to be a very interesting and useful study. I have been studying the spirit for some time, and I have found it to be a very interesting and useful study.

I have been studying the spirit for some time, and I have found it to be a very interesting and useful study. I have been studying the spirit for some time, and I have found it to be a very interesting and useful study. I have been studying the spirit for some time, and I have found it to be a very interesting and useful study.

I have been studying the spirit for some time, and I have found it to be a very interesting and useful study. mense amount of unpublished Manuscripts, some ready for the press, some in need of editing - and we were also going to start a regular propaganda for the Abbey here.

He had great capacity for Magick; and we soon had a terrific current in full swing. The enemy started to attack us with furious malignancy. I fell ill early in January with mixed maladies, chiefly emphysema, asthma and bronchitis. He also got ill a little later. It began with a recurrence of malaria, which he had acquired in his childhood (he was born in Burma). All this time the weather was incredibly bad. We hardly saw the sun for weeks together. We have practically no arrangements for heating the house, which is situated on the side of a hill and becomes damp in wet weather. He was entirely confined to bed towards the end of the month; and I only got up to visit him every day and see what I could do for him. But his fever turned to intestinal trouble, and on February 15 to acute infective enteritis. On the 16th, paralysis of the heart finished him. I got up to perform the funeral service, the side the following day, and then took to my bed for good. I found myself malarial fever, a recrudescence doubtless caused by my extreme general weakness. It took a curious form; the temperature stayed near 102° with hardly any variation day or night. It took no notice of quinine or Dover's Powder for a long while, but ultimately I got it to behave more rationally, the temperature rising to 104° and going down below normal after sweats. But I was so ill that they decided to call in the doctor on their own account. I lay, in fact, between life and death for a long time, and only turned the corner a week or so ago. The weather continued very bad, though occasional sunshine broke up the monotony of rain. (This weather is quite unprecedented in Sicily) To-day is the first day that I have been able to get out. It is a perfect day, and I am sitting in the sunshine; frightfully weak but feeling comparatively well, though I need a great deal of care, and shall do so for some time. This makes it difficult for me to arrange our meeting.

One of us went into Palermo yesterday, and tried to get information as to how I could join you at or near Gibraltar. I thought there was a boat direct; but in Palermo nobody knows anything about anything. It is the most ghastly town on the planet. I am however pretty sure at a pinch of being able to get to Tangiers by crossing to Tunis and taking either a coasting steamer or the train. It is out of the question for me to reach Madeira; and in point of fact, my plans must depend to some extent on whether you cable a further remittance, and the amount of that remittance. I have had to send Soror Estai to London to represent me there for reasons explained below. We have also had to pay up some arrears of debt, and to make various purchases necessary for your visit. We have been living without the most ~~primitive~~ primitive necessities (to say nothing of comforts) of even the most savage life. There is at present only about £50 left of the £250; and there are still numerous expenses which have not yet been defrayed. However, I do not see why I should not manage a fortnight in Tangiers; that period should be enough for us to formulate our plans thoroughly. There is an enormous amount which you must know, and which we must discuss, before you can do much in England without putting your foot in it. Your letter to Frater Achad probably did about as much harm as any conceivable letter could do. I will explain why in person.

C. Stanfield Jones

Woman Mladk. unmetals 3.

She has written in bitter remarks (they made her drunk) N.M.

I must now explain the complication. The publication of the Drug Fiend let loose all the Comma Bacilli in England. John Bull and the Sunday Express started a most furious attack on my personal character entirely regardless, as usual, of truth. They actually published such ridiculous statements as that I had been in prison in America, and that I sent the women of the Abbey to walk the streets of Palermo and Naples. The death of Loveday (Frater AUD) started them all over again. His widow thought she would make a little fortune by selling his memory and honour - she did in fact get a £10 note, I understand. She told them a most extraordinary farrago of lies that it was possible to concoct. They even suggest that he was murdered, and want an investigation. I wish to goodness we could get one; but even if they do, it will be hard to get the results published. Sister Estai found that she could not get the newspapers to print our side of the story for the simple reason that there is nothing sensational about it!

June Wolfe

It is really an extraordinary position; but one can see the subtle manoeuvres of the Gods. Just before he fell ill, Frater AUD had a vision in which he met an Adept who prophesied that we were to go through "purgings" which obviously refers to his death and my illness; which has made a great spiritual difference to me. This was to be followed by the "fire of persecution", which is now in full swing; and then there is to be "a stream flowing into the sea from the West to the East of which the sands are of gold." There is evidently a symbol of calm irresistible force, fertility, and prosperity. This may be expected about 8 months from the present time. In the meanwhile, it is up to us to endure.

I hope the above will give you a fair idea of the general situation. What we have to do is to ~~maintain~~ release and realize our assets (we must have some kind of income to live on, and some capital if we are to make a forward move.); to prepare our propaganda, edit our manuscripts, and arrange for their publication; most important of all as far as you are concerned, to prepare the Qabalistic section of the Comment of the Book of the Law.

It would be a mistake to look on this programme from a purely human point of view, for that would lead to a mere non possumus. The Gods have this matter in hand, and all we have to do is to provide the channels for them to fill with energy. In other words, if we do our part of the work with industry, intelligence, and confidence, they will provide those resources which we cannot.

I want you to calm your mind with the utmost resolution. For example, when I said I wanted to do your horoscope, I didn't mean you to send a long excited cable about it - a post card would have done just as well. You must take things more easily - and trust the Gods. Nothing annoys them so much as uncontrolled enthusiasm. You have to learn to work without lust of result. Trying to force the situation is always fatal. I am not sure that I did not make a mistake in cabling you not to communicate magically with other people. My excuse is that I could see from what was going on here that the enemy was very much on the job, and the easiest way to divert you from carrying out our plans was through other people in the Order. It is of course entirely contrary to the strict rule of the A.'.A.'. for you to know so much as the existence of other members of the Order except your Neophyte. In this case, however, I am your real Neophyte; because your Probationership (spiritually, though not officially) dates from Cambridge.

[illegible]

It is really & extraordinarily difficult to find one can see the
res of the Code. Just before he will tell Water and him -
which he has - about who organized it we were to go down -
largely which of course refers to me - and my illness was a state
a great spiritual difference to me. It was to be followed by the
"life of desperation," which is all I saw; and then there is to
be a stream flowing into the sea from the West to the East. With the
hands are of gold. There is always a symbol of this transition to
reality, and property. This may be expected about a year from now
present time. In the meantime it is to be kept

of the law. answered to prepare the legislative section of the House exchange for their publication; and important at this time you are (forward novel); to organize our propaganda, all our propaganda, and have been kind of interest to take on some originality as we are to make that we have to be in the manner to keep and realize our mission. I hope the above will give you a fair idea of the manner of action.

It would be a mistake to look on this programme from a purely technical point of view, for that would be to miss the point. The C.I. have not only to provide the means for the work, but also to provide the work itself. In other words, it is not only the work which is done, but the way in which it is done, and the results which are achieved. The C.I. have not only to provide the means for the work, but also to provide the work itself. In other words, it is not only the work which is done, but the way in which it is done, and the results which are achieved.

[illegible]

Our plans then. You leave the *Edinburgh* Castle at Gibraltar. I may write a subsequent letter to you ~~via~~ the Union Castle Line; in fact, I am likely to do so. If I am well enough and rich enough to travel I shall be at Tangiers or thereabouts, and will give you the address of my hotel. If anything prevents me getting to Tangiers, I might be able to get half way - say to Hammam Meskoutine. It is essential that I should take some kind of a convalescing cure, as my illness has left me shockingly weak, and I am only too liable to relapse unless I build myself up thoroughly. But if I cannot leave Cefalu for any cause, you must make your way here somehow or other from Gibraltar. I am assuming that you will reach Gibraltar about Apr. 10 or 11, and will try to be in the vicinity a day or so before that date.

I am convinced that the future of the world depends largely on the successful carrying out of this programme. My illness and the attacks in the press have coincided so neatly with your illumination and release that I cannot think it a matter of chance. By the way, I was astounded to hear of your accident. In the Paris Working (Jan. & Feb. 1914) a prophecy was made that my work would be supported by the devotion of four men, each of whom suffered from some physical defect. It at once struck me that your accident had to happen to qualify you as one of the four.

Expect then, further instructions by telegram or letter at Gibraltar; and act accordingly. Don't try to cable me from Madeira as I shall probably have left Cefalu, and the people here may not know where to find me at the moment.

Love is the law, love under will,

Yours fraternally, with all benedictions,

The Beast 666.

Mudd had thrown up his professorship at Gray's University
Bloomington, sold his books etc. & was joining A.C. with
that little cash he possessed.

P.S. I am looking forward most eagerly to seeing you, and giving you full information about all these matters. It is impossible to do very much by letter. There are all sorts of chances of misunderstanding. I should mention two important points which I forgot to put in my last. They concern money and reputation. I fear I gave you too gloomy a picture.

Frater Achad has a unique collection of my Mss., first and rare editions, etc., value \$17,000. This ought to be salable to some bibliophile considering the immense and unlooked-for publicity which the Sunday Express and John Bull are generously showering on me. He has also a stock of Equus, and other books which I have never been able to get him to catalogue, but which must be worth from £10,000 to £20,000. These should be easy to sell if properly handled. We ought to be able to get some enterprising American publisher to take them over and push them for us. Achad has already, as you know, ^{int-} created in his own presentation of the Doctrines and Methods of the Order.

As a counterblast to the absurd attacks on me, my old (New York & Georgia) friend, Wm. B. Seabrook, who has a high position with the Hearst papers, is writing a long serial (10 to 15 instalments, he says) about me and my work and the Abbey, and so on. He is to put all the lies about me into it as hearsay, while drawing my character from his personal knowledge of me. He did me the honour to say that he knew more good about me than about any other man he has ever known. (It is significant of the absolute balls-achingness of modern conditions of publication that the story has been held up so far for lack of photographs of women. (I hope I have now rectified the omission) The minds of the people have been so dulled by compulsory "education" and the cheap press that they have become incapable of reading at all, except the captions of such crude stimuli as pictures. The Cinema is one symptom; the Daily Mirror another. Both mean that nobody who caters for amusements dares ask people to use their minds.) This serial ought to do us a great deal of good. It should make a market for our publications, old and new, and might induce some lecture agent to offer me a tour in America next winter. (Humanly speaking, I do not see how I can live through another winter in Cefaly. I seem to be ill all the time, "from Solstice stubborn to

I am looking forward most heartily to seeing you and giving you full information about all these matters. It is impossible to do very much by letter. There are all sorts of chances of misunderstanding. I should mention two important points which I think you should know. First, they concern money and reputation. You too glorify a picture.

Prater and his unique collection of books, first and rare editions, etc., etc. This ought to be added to some bibliography book, and the names and unnumbered-for-publisher which the book is now in John and his generous showing of it. I have also a stock of books, and other books which I have been able to get him to catalogue, but which are not worth from \$10,000 to \$20,000. These should be sent to you if properly handled. I ought to be able to get some interesting material together to take this over and push them for us. I have a special interest in his own presentation of the collection and methods of the Order.

a counterblast to the absurd attempt on my part (New York & Georgia) to find a position which position with the best papers, I believe a long serial (10 to 15 instalments) he says, to send me back and the play, and so on. He is to send all the lies about me into it as best he can, while I shall be able to show his personal knowledge of me. He is to show the honour to say that he knew more good about me than I could other man he has ever known. (It is the spirit of the scientific half-scholarship of modern conditions of reality that the story has been told up to the last of photographs of women. I hope I have not recalled the mission.) The mind of the people may not be filled by compulsory "education" and the other means that they have become incapable of reading at all. I repeat the question of such crude stimuli as pictures. I think in one symptom; the daily Mirror and other. I think that nobody who enters for amusement's sake can hope to use their minds. This serial ought to do as a great deal of good. It should make a market for our publications, old and new, and might induce some people to offer us a few in market next winter. I must say that I do not see how I can live through another winter in this. I seem to be ill all the time. Two volumes stand to

Equinox". This winter has been the worst; but last winter was bad enough, though I got away to Paris in February; and so was the winter before that, when also I was able to take refuge in La Ville Lumière. Possibly the introduction of a fire-place and draught-excluders might make the Abbey habitable for me; but at the best it is a great strain. For one thing, there is no proper light to read by; and my eyes suffer accordingly. My mind is so active that I am compelled to work all the time, in whatever conditions. This winter, though ill in bed and actually gasping for breath, I insisted on dictating the "Hag" from four to six hours a day when I could force myself to do so, which I did, bar 3 or 4 days. By the way, I have just heard that Ananda Metteya^{*} is dead. I wonder if this is part of the general attack on the Order, which seems to have been set in motion all along the line and on every plane. My knowledge of its strength and malignity account for my anxiety about you - as the Verdun of our line. But no doubt the Gods have been giving us two the necessary protection, so that the attack has been more or less wasted on people less important to Their immediate purposes. Of course, the return of the current is bound to be very deadly for the assailants. Remember to allow no feeling of anger or indignation to enter your heart or mind. These people are as innocent as panic-stricken sheep, overwhelmed by formless fear of an Unknown which is only the more terrible because they cannot define it. I have found it very hard to refrain from the natural reaction against such abominably vile falsehoods, not about me - damn me! - but about innocent and noble people who are quite defenceless, and have been dragged into the mess merely for their fine aspirations and perceptions, honour, and loyalty; but I have not allowed myself to express any resentment, and have got to the point of smiling indifference. I trust the Gods to see to it that my friends shall not suffer. Help me in my attitude by concentrating on the hope that the upshot of all this will be to enlighten the minds and hearts of these unfortunate wretches.) The Gods are evidently preparing the way for us to introduce the Law to the minds of thinkers and seekers in a much more extended way than would have been possible otherwise, even had we had £10,000 to spend in advertising.

of course, this winter has been the worst; but just what
it was bad enough, though I got away to Paris in Novem-
ber, and so was the winter before that, when also I was
able to take refuge in the Villa Maures. Possibly the
introduction of a life-plate and through-exposure might
make the life-plate for me but at the best it is a
great strain. For one thing, there is no proper light to
read by; and my eyes suffer accordingly. It is not so
active that I am compelled to read all the time, in what
ever conditions. This winter, though I had no
trouble in getting for breath, I insisted on staying in the
"house" from four to six hours a day when I could leave my
bed to do so, which I did, but I never, by the way,
I have just heard that a number of people in Paris, which
is part of the general attack on the Order, which
seems to have been set in motion all along the line and
on every plane. My knowledge of the strength and nature
of the attack for my anxiety about you - as the Order of
our life. But no doubt the Order has been living on the
the necessary protection, so that the attack has been
more or less wasted on people who are ignorant of their in-
mediate purposes. Of course, the Order of the Order
is bound to be very ready for the attack. I am sorry
to allow no feeling of anger or indignation to enter your
heart or mind. These people are ignorant as regards
the Order, and I am sorry to say that I am not doing
which is only the more terrible because I am not doing
it. I have found it very hard to maintain it in the nature
of a reaction against such attacks with its methods, but
about me - damn me! - but about the Order and its people
who are quite different, and have been trained into
the same way for their life-plate and exposure.
I am, however, and I have not allowed myself
to express any resentment, and have been to the point of
making inquiries. I trust the Order to see to it that
my friends shall not suffer. I am not in any position to
concentrate on the hope that the Order of all this
will be to enlighten the Order and the Order of these in-
formants (which). The Order is obviously preparing
the way for us to introduce the Order to the Order of all
the Order in a way that would be then would
have been possible otherwise, and we had the Order to
spend in advertising.

To Mudd
COLLEGIUM AD SPIRITUM SANCTUM,
Cefalù, Sicily.

Mar. 19, 1923.
S.V.

Care Frater,

Do what thou wilt shall be the whole of the Law.

I find that I am not getting better in the straightforward way I could have hoped. It seems rather problematical whether I shall be able to travel within a week, which I ^{could} have to do (I think; I have not yet received definite information from Cook's) in order to be in or near Gibraltar by the appointed date.

Expect letter No. 3 (or telegram) at Gibraltar, to let you know whether I have been able to start or not.

I am writing this on the assumption that I shall not have been able to travel. If Letter No.3 or telegram confirms this, please act on the following.

It is up to you to decide whether you will go on to England from Gibraltar or come directly here. If you feel absolutely obliged to go to England, please be very careful to comply with the following injunctions.

1. Let your visits be as brief as possible.
2. Refuse absolutely to discuss your plans, your spiritual position, your relations with me, or your financial affairs.
3. Be prepared for hostile cross-examination; and for every kind of pressure, direct or indirect, to prevent you carrying out our programme.
4. Let your first interview be with Miss Jane Wolfe, c/o Western Engraving Co. 18 Broad Street, Golden Sq. This is her postal address only.
5. On no account make any attempt to act on my behalf in any way.

The above is absolutely necessary, but evidently it emasculates your journey hopelessly. In fact, it leaves you in the position of saying, "Well, here I am. Now you see me. Hope you feel better. Good-bye."

COLLECTION OF BRITISH PAPERS

1941, 1942, 1943

Dear Father

Do what you wish with the papers.

I find that I am not getting better. It seems rather probable that I shall have to travel within a week, which I am sure I shall be able to do. I have received definite information from the British Consulate in London that I shall be able to travel by the appointed date.

Expect letter No. 3 for the papers. I am writing this on the evening of the 1st of the month. I am sure I shall be able to travel. I have been able to start on the 1st of the month.

I am writing this on the evening of the 1st of the month. I am sure I shall be able to travel. I have been able to start on the 1st of the month.

able to travel. I have been able to start on the 1st of the month. I am writing this on the evening of the 1st of the month. I am sure I shall be able to travel.

the following. It is up to you to decide whether or not to go. I am sure I shall be able to travel. I have been able to start on the 1st of the month.

organizer or come directly here. I am sure I shall be able to travel. I have been able to start on the 1st of the month.

England, please be very careful to keep the following. I am sure I shall be able to travel. I have been able to start on the 1st of the month.

I let your visits be as brief as possible. I am sure I shall be able to travel. I have been able to start on the 1st of the month.

2. Refuse absolutely to discuss your plans, your financial position, your relations with me, or your financial position. I am sure I shall be able to travel. I have been able to start on the 1st of the month.

3. Be prepared for hostile cross-examination of pressure, direct or indirect, to prevent you from going. I am sure I shall be able to travel. I have been able to start on the 1st of the month.

4. Let your first interview be with Miss Lane. I am sure I shall be able to travel. I have been able to start on the 1st of the month.

5. Let your first interview be with Miss Lane. I am sure I shall be able to travel. I have been able to start on the 1st of the month.

I am convinced that it will be very much better if you postpone your visit to England till August. You have taken an Oath to give up everything for the Great Work, "Crowley duce, et auspice Crowley," and you had better let the dead bury their dead. You can write from here explaining your delay in visiting England.

You should be able to get a refund from the Union Castle for the voyage from Gibraltar to London; but even if you ^{should} fail, it is only a matter of £8 or £10, I suppose, and more than that amount will be saved on my journey. To tell you the truth, I do not like the idea of spending your money on anything but absolute necessities for the Great Work.

The situation in England is so critical that your impulsive nature would be almost sure to induce you to take some rash action if you reached England unprepared by a thorough knowledge of the situation. It is hardly credible; but some people are sufficiently asinine to clamor for an exhumation of Loveday's body, and an even more distinguished class of the community is anxious to institute a prosecution for witchcraft, tho' whether I am to be ^{apparently} 'swum' or simply burnt at the stake has not been settled. Please do not think that I am delirious. These medieval absurdities are actual facts.

On the whole, therefore, it seems much the best course for you to leave the ship at Gibraltar, whether I am in the neighborhood or no. It is the right thing to do Magically, beyond doubt; and, as far as I can see, the practical aspect is identical. You should be able either to get a Fabra Line Steamer direct from Gibraltar to Palermo, or some other line to Naples. In any case, you can find out easily enough at Gibraltar. Even if I were able to get there, I now think it would be far better for you to come here before going to England. You can do very much more there after three months in Cefalù, which will enable you to assimilate the atmosphere, and to mature definite plans for the essential campaign. I think, moreover, that

I am convinced that it will be very much better for you to
your visit to England till August. You have taken a long time to
everything for the Great War. Now, I suppose, you are not
had better let the dead bury their dead. You are not a
the your delay in visiting England.

You should be able to get to London by the end of the month
voyage from Gibraltar to London. I suppose, I suppose, I suppose

in detail, which will enable you to determine the situation
the definite plans for the essential campaign. I am not sure that I can

it may be of some spiritual importance for you to make the ^{Magical} gesture that family, friends, interests, everything, no longer ~~exist~~ exist for you.

My idea of joining you at Gibraltar was really to kill two birds with one stone. The doctor strongly recommends a long sea voyage to build up my health. But if I find that I should have to go overland, there is not so much point in it; and anyhow, I am so weak with heavy sweats every night and other symptoms of ~~cacexia~~ ^{cacexia} that a long journey might do more harm than good, even assuming that I were physically capable of starting. This is the best time of the year here - from now till the middle of July, and I have in this Abbey all that loving care (to say nothing of the convenience of having everything handy) which is the best aid to convalescence. When I wrote letter No. 1, I don't think I realized fully how ill I had been, or how long it would take me (even in the best conditions) to regain my normal health and energy.

Love is the law, love under will,

Yours fraternally,

The Bract 666

Duplicate sent to Gibraltar.

Letter no.1 & 2 sent to Madeira and Gibraltar.
" No. 3 " " Gibraltar only.
" " 4 " " " and Southampton.

COLLEGIUM AD SPIRITUM SANCTUM.

Cefalu, Sicily.

Mar. 27, 1923.

Care Frater,

93

Your letter of Feb. 28 puts me in all kinds of bewilderment. I understood from your telegram of Mar. 7 that your ship called at Gibraltar. With regard to your B. and C., why go from Southampton to Dover? Southampton to Havre or St. Malo should be much quicker. The cross country journey in England is awful. I have tried it.

I address this letter as advised in your Par. D. (also duplicate to Gibraltar) - Par. E., as I said in Letter No. 2, I think it is better to postpone relations with people in England till August.

With regard to cash - no harm is done by failure to get it at once as things have turned out. I have enough to make necessary immediate arrangements to receive you. There seems a great muddle about letters but it is really a marvel that any have arrived at all!

I made an excuse for writing to Doughty, with the idea of testing his psychology in various ways. In the course of the letter I asked him to visit us here. But leave him alone till later. Be very careful, whoever you see or hear, not to let yourself be influenced. We are in for an A 1 Magical scrap, and I shall be anxious all the time till I see you here in the flesh.

93

93/93

Yours fraternally,

The Beast 666

P.S. It seems that I have Mediterranean Fever, which is a perfectly bloody thing. It has to run its course which is long and debilitating. No treatment affects it. I have had about six weeks of it and the average duration is three months. It does not prevent one's working in the ordinary way but one can't work steadily or at high pressure. Rather an ideal condition for our preliminary conversations!

x Even when no complications arise. So far I have been fortunate in that respect.

ill all the time, ^{stubborn} from the Solstice to the Equinox. This winter has been
 the worst; but last winter was bad enough, though I got away to Paris in
 February; and so was the winter before that, when also I was able to take
 refuge in La Ville Lumière. Possibly the introduction of a fire-place and
 draught-excluders might make the Abbey habitable for me; but at the best
 it is a great strain. ^(From Oct 1916 On conditions are ideal for me.) For one thing, there is no proper light to read by;
 and my eyes suffer accordingly. My mind is ^{so} active that I am compelled
 to work all the time, in whatever conditions. This winter, though ill in
 bed and actually gasping for breath, I insisted on dictating the "Hag"
 from four to six hours a day when I could force myself to do so, ^{which I did, but 3 or 4 days.} By the
 way, I have just heard that Ananda ^{the} Medaya is dead. I wonder if this is
 part of the general attack on the Order, which seems to have been set in
 motion all along the line and on every plane. My knowledge of its strength
 and malignity account for my anxiety about you ^{as} the Verdun of our line.
 But no doubt the Gods have been giving us two the necessary protection, so
 that the attack has been more or less wasted on less important people ^{to}
^{their immediate purposes.} Of course, the return of the current is bound to be very deadly for the
 assailants. Remember to allow no feeling of anger or indignation to en-
 ter your heart or mind. These people are as innocent as panic-stricken
 sheep, overwhelmed by formless fear of an Unknown which is only the more
 terrible because they cannot define it. I have found it very hard to re-
 frain from the natural reaction against such abominably vile falsehoods
^{not about me - damn Me! - but} about innocent and noble people who are quite defenceless, and have been
 dragged into the mess merely for their ^{aspirations and} fine perceptions, honour, and loy-
 alty; but I have not allowed myself to express any ^{resentment}, and have
 got to the point of smiling indifference... I trust the Gods to see to it
 that my friends shall not suffer. Help me in my attitude by concentrating
 on the hope that the upshot of all this will be to enlighten the minds
 and hearts of these unfortunate wretches). The Gods are evidently prepar-
 ing the way for us to introduce the Law to the minds of thinkers and seek-
 ers in a much more extended way than would have been possible otherwise,
 even had we had \$10,000 to spend in advertising. 666.

[illegible]

Dorothy Troxel (Sorrow Wisnom) to A.C.

18 Aug 1922.

Mainly about Frank Harris

Date

August 18th

Dorothy Troxel (Wisnom) - A.C.

14

Dear Mr. Crowley,

In what Thor with-
shall be the whole of the Law.

I got yr. letter this
morning from Linda. I am
glad to know yr. address
There and shall send the
magazines I promised right
away. I thought they would
be thought important enough
to be forwarded to you per
Ref. to.

I don't want to write
about Mr. ^{Frank} Harris but I
really cherish a grudge
against him. I want to say
hoping to meet him - a
rather to be quite honest -
on purpose to meet him (the
most stupid thing I ever did)

I was full of the greatest
admiration & respect. He
may be "one of the few great-
writers of the English language"
wh. he certainly is not.
Delivering any message. He has
nothing new to say - merely a
mile way of putting his mediocre
blatantness through.

The first time I heard him
speak it was about Schopenhauer
who's book in hand I waited
which I heard was the date
of his birth - and that he
later paid introduction, and
he was presented - that intrigued
Mr. Harris. He immediately
saw himself another great
person being presented. He roared
and the room rang with
his voice - yes, on family.
He delivered his lectures
oratorically - with a fire

choice of words. The present-
English. The next thing he
was to say, about Goethe -
he got as far as Frau von
Stein - all was forgotten -
he later than von Stein - he
replied her - "She has never
children" - "Fancy being in love
with a woman who has never
children" - He was too much -
Faust was forgotten - "He has
large feet & never children" -
and then the hottest - common
in N. Y. in forty six years -
began to tell on him and
he started a series of lectures
on Oscar Wilde (as myself),
Bernard Shaw (as myself),
(myself and) de Campanella that
emptied the room of the
few remaining admirers, including
myself. I've forgotten most
of what he said. But this

much I know, that he wish-
ed to give any ~~the~~ word to the
people that had - he said
much more forcibly 6 or
hundred times, and that
every one knew any more.

I want to write about the
money part of it - that's too
long to tell. But later on
the funniest story came out.
That I ever heard. I must
try to tell it. A book
dealer a friend of his, had
a banker from Philadelphia
one of his lectures, a
prospective customer for ^{or more} one
of his valuable books. In the
meantime Harris had hung
the paintings of some French
water painters about his room
or commission in case he could
sell some. He called attention
to them at the end of each
of his lectures, knowing that

much I know, that he would
give any ~~the~~ word to the
people that ~~has~~ -- has said
much more forcibly by a
hundred times, and that
every one knows any more.

money part of it -- that's too
long to tell. But later on
the funniest story came out
that I ever heard. I must
try to tell it. A book
dealer, a friend of his, wrote
a banker from Philadelphia
to one of his lectures, a
prospective customer, for ^{or more} one
of his valuable books. In the
meantime Harris had hung
the paintings of some famous
water painters about his room
or commission in case he could
sell some. He called attention
to them at the end of each
of his lectures, knowing that

↳ he then the rate (on his own admission) he called attention to them as rare works of art and tried to interest people.

The aforementioned rich banker and bookseller were present and

Harris was unacquainted with the purpose of the former.

After the lecture he met the banker who was highly pleased with the lecture and inquired for further particulars about the pictures. Harris

extolled them as priceless treasures. The banker said "Do you really like such one so much?" (pointing to one picture). He was particularly gone into ecstasies over, a still life.

flowers, fruit, etc. Harris said that he would rather own it than almost anything else (thinking of his commission).

The banker asked the price of it, and Harris turned to

enquiry in ^{the} for the painter
who was sitting nearby. Then
the bookseller said sotto
voce with great disgust -
"a nice mess, and what are
you going to do now?" Harris
with a sinking feeling both
the banker & - was \$5.00. He
promptly wrote out a cheque,
handed it to the painter &
insisted on presenting it to Mr.
Harris. The beautiful ^{enthusiasm} which
Rat had aroused his ^{enthusiasm} as a
(and was worth \$10) as a
token of the evening's pleasure.
Harris tried his best to
explain that he had no
room to put it in but it
was no use. He had to
thank him graciously and
ask him over to his house
to see his books. Finally
he had to return the
influence & make him a

presented the book of his
choice - a very valuable
edition of poems by Lord Alfred
Douglas with marginal writings
by the author, really worth
four hundred. The banker
demurred but finally accepted.

A few days later Harris
approached the painter to
collect the commission due
on the sale of the picture (the
only one that ever sold). The
painter was adamant. A com-
mission for the picture did
not give him: never! The
painter sailed for London &
Harris went to court for
justice. I doubt if he ever
got it - in fact I'm sure he
didn't. This is the true
unhappy story of the strange
Jettie story.

What a lot of gossip I
write. But so unimportant -
the ancient history now any day.

ing for Dr. Libran. I
have been able to get
to him yet, but I shall
believe in him until I am a
letter. You may see it quite
differently when you read it
in the magazines. But, of
course, I know there are a
lot of charlatans out here.

I wish that if it weren't
too much trouble you would
tell me your opinion about
Madam Blavatsky's "Secret
Doctrine". I have been studying
it - or rather, trying to.

I have read the circumstances
under which the books were
supposed to have been written,
and it is needless to say
that the books must have
written themselves without
aid. That much is patent,
that no matter how learned
we may have been, it would
have been the work of a
lifetime if we could have

does it all, which, as
probably could have
of course it is impossible for
me to have any opinion
about it. I could not verify
her quotations from ancient
manuscripts & books or alter
to their meaning. You'll probably
say then why think about it.
But we have to think about
something.

For one thing I wonder if
her assertions about the previous
forgetful races of mankind are
based on true facts. She
proves it in quotations from
many authors - Plato of course,
which I read & find susceptible
of a more exact translation
and others back to the Ptolemy
but which of course I don't
know anything about.

Geology doesn't say the submerges
continued - but we are sure
that they were inhabited by
civilized men - But is that

does it all, which, as
probably could have
of course it is impossible for
me to have any opinion
about it. I could not verify
her quotations from ancient
manuscripts & books or alter-
to their meaning. You'll probably
say then why think about it.
But we have to think about
something.

For one thing I wonder if
her assertions about the previous
forgetful races of mankind are
based on true facts. She
proves it in quotations from
many authors - Plato, of course,
which I read & find susceptible
of a more literal translation
and others back to the Ptolemy
but which of course I don't
know anything about.

Geology doesn't say the submerges
continued - but we are sure
that they were inhabited by
civilized men - But as that

is logical enough it is as
well to believe it.
He makes wild assertions in detail.
The eclipsing of the sun results
from the variations of the
obliquity of the ecliptic - which
he says is 40° . Flammarion
says it is $23^\circ 37'$ and could not
produce the great changes of
climate that fable has
ascribed to it.

That is only a small thing
that came into my mind. But
if I find such mistakes
with my small knowledge, what
must this find.

He mentions the planetary
systems of the sun and
the inhabitants thereof. but
one can prove to him true.
He quotes the passage from
Johannes Kepler which suits his
purpose. And, by the way, he
also writes a very interesting
chapter on magic in

his book "The City in Nature"
I think it was. I think you
ought to add his works
to the list. Not you demand
that "you" should read (in the box.)

Do you agree with him about
the existence, a tiquity of
our Planetary chain - is the
Seven Rounds, Root races, and
particularly their evolution "from
ethereal to material", &
back again into relative physical
fertility of texture, so every
living organic species of animal,
with vegetation includes changes
with every new root race."

Please tell me which you
think the Secret Doctrine is
worth. It must be worth
nothing.

I'll send the papers with
this, I think they will interest
you. I hope very much that
you will come to America in
the autumn, that I'll see
you if you do.

I was awfully glad to
get yr. letter & hope
you will write soon again.

be the whole of the Law.

I was so glad to get
yr. letter after I had nearly
given up hope of hearing. The
later letters such a long time
to reach you in Cefalu - and
now that - going away this
will probably never find you.

I was glad to hear a little
news about where you are
but as to what you are
doing I ^{always} have to fill that in
with my imagination.

If you want to reach
Mr. Harris you can always
get him in time if you

write in care of Mrs. S. S. 9
Gidlow, 447 West 22nd St. N.Y.C.
He was his secretary in
Pearson's and would always
know where to find him.
Pearson goes on after a fashion
a very tenth rate paper. Mr.
Harris was in France all
last winter, but is back
here now I hear. Did you
know he was quite mad -
obsessed with a sort of persecution
mania, or dreadful megalomania -
He was sad to see - until
you understood that - he was
perfectly happy in being persecuted -
would have been bitterly disappointed
if he could not have had any thing
to complain about - he simply
revels in being an unappreciated
pen in a land of brutality -
but he really was without
funds except for what he

could pick up here & there from
unsuspecting persons. He & Mr.
Bruno were shameless - he put
him up to telling all kinds of
sob stories about his precarious
condition - He was rather fulsome.
Bruno spoke so nicely about
you that my heart warmed to
him - he didn't speak nicely
about anyone else. But he was
even worse than Mr. Harris and
the last time I heard from him
he signed his letter with signif-
icant literatures "yrs. hungrily."
I felt sorry for about five
minutes - but he has been
so blatantly dishonest and I
didn't worry about it.

There were the last words I
heard Mr. Harris say - "What
he was sent to this planet
to deliver a message" - such
nonsense. I wonder when
people will be able to see
themselves as they are - of

microscopically small importance -
infinitely insignificant in the
universe. I am so tormented with
all this insane megalomania
that possesses every body. People
cling to the idea of immortality -
perhaps there is some significance
in that - that they want - I
wonder what they think
they have ever done to deserve
it.

I couldn't get a very clear
idea of what Cefalun is like
from your description. Do you
really like it there as much?
I don't think I'd like to come
there even if I could. You've
changed since you've been there,
haven't you?

Since I wrote last night -
I happened to find a new
Pearsons and it is really
awfully good. Lots of interest.

things in it - so I'll send
one with this letter. If you
read it you'll be interested
in the article about Dr. Abrams
of San Francisco. He sounds
perfectly wonderful, and perhaps
it's true. There might be
one great man alive - really
caring for the welfare of his
fellow sufferers, trying to help
them. My mother is very ill
from some mysterious disease.
If she is well enough to get
back to California in the
autumn I shall see that
she goes to this doctor. No one
else can help her.

Do please write to me
sometimes - something I can
understand. I wish you were
in New York instead of
Lafayette - but now that I

have talked to a few people
or met a few - I see that
you work over here was not
easy. One man in particular
I thought was deeply
interested in the Equinoxes -
he talked about mysticism &
magic all the time & professed
to be devoted to the study -
and I lent him some of
your books - and never heard
of him about them - in a
few days he was off on his
little megalomaniac business -
trying to get engagements - to
show off - and I thought
from the way he talked he
would be filled with enthusiasm
to try asana etc. - and
so it goes. It must be
discouraging.

Please let me know how
you are going to be in

My dear Weirum,

Frank Harris

93

Delightful to have your l. l. this a.m.
Very amusing. His message has
nothing to do w. w. he has to say at
any publ. time, his point of view is
his message. 'It doesn't matter
much w. anybody thinks in the
long run, but how they think it
counts.'

I agree w. him about the man

b. did w. the pict. when he had
bt. it & he sold H. the com.

You have not been taught to
think clearly; that is why I

- Adams

would to try my hand at teaching
you. The fact of Dr. A.'s being
praised in the magazines, for ex.,
would go far to prejudice me
to go against him. Don't you
know that every patent med.
vender can produce thousands
of perf. genuine testimonials. It
does not even have to be a
fake - the evidence is worth-
less owing prin. to the cross
called post hoc propter hoc
and not distributed medicin. If
you don't know what they are,
find out. ^{generally}

B's "Secret Doctrines" is a
hotch potch, mostly fake, some
her author's are worthless
Some she invented herself.
The idea appears to have been
to publish fragments of initiated
knowledge in such a form
that only initiates could pick

them out of the rubbish.

You can hardly blame her
however for quoting the passages
from Shakespeare which suit her
purpose. You can hardly expect the poor
woman to quote the pass. w. don't
suit her pur. or do you expect
her to quote the whole animal?

(*) I don't bother my head
about the root races. These
baseless speculations do not
interest me. It is quite enough
to deal w. all the facts we really
know & ~~note~~ coordinate them,
adding gradually as we learn.

The imp. thing is to have a
well-ordered mind. You have the
essence of it but you need training
v. badly. You have had no eding
at all in the proper sense of the
word. The result is that you
have no standard of validity
by w. to test new ideas & experiences.

You have a wild fiery intelligence
but it is all in the air.

I hope indeed to see you some-
time. You need to be beaten w. a very
thick stick, (mystically speaking)
and then to be sent to some
place where you can set your
mental house in order. It's no
good you trying to write Beethoven
Symphonies until you have ^{settled} settled
in your mind w. you mean by an
octave.

93

$\frac{93}{90}$

COLLEGIUM AD SPIRITUM SANCTUM ,

Cefalù, Sicily .

Apr. 4, 1923. e.v.

Care Frater,

93,

I'm expecting Dunhill's to send you a pound of Tobacco to Southampton for me . Please get it through the frontier as well as you can . I wouldn't bother you, but one can't get Tobacco into this country, even by paying duty, without infinite pains, *unless brought by hand - diplomatically.*

If you have any school books suited for young children among your discarded effects bring them along or have them sent out here.

Be careful in Southampton. You may be subjected to unexpected annoyances . "Conceal thy ~~the~~ figure, thy tenets and thy travelling". I should cross to France the same evening as you arrive . I think there is a mid-night boat .

If you have time in Southampton buy ^{the} two biggest oil reading lamps that you can find. (If your time is short, buy them in Paris.) I don't know whether reflectors increase the power or not . What I want is to be able to read at night without straining my eyes. Bring extra chimneys and wicks. If there is some better lamp, acetylene, for instance, that will do, but in that case bring about a year's supply of carbide. One can't rely on buying anything here, or even at Palermo or Naples. We have no gas or electricity. Get best quality of chimneys and plenty of them.

As you know all about astronomy bring a telescope with a 93-inch refractor . I am very keen to see a bit more of the stars, also Saturn. Bring one or two astronomical books if you have them with photographs of the most interesting things. Seriously, I should like some sort of telescope here. The air is so clear and the nights so wonderful, but I take it that an instrument big enough to be really interesting would run into the hundreds or thousands, and require a concrete platform etc..

You will have to change from train to boat at Naples. Please go to the Galleria Umberto and buy me 4 boxes (25 in a box) of assorted Havana cigars, the biggest size and darkest colour you can find, but each box a different brand. Think of it , one can't even buy cigars in Palermo !!!

The boat leaves Naples for Palermo about 6 or 7 P.M. I will try to meet you in Palermo the following morning. You are due to land about 8 or 9 A.M. If I am unable , pick out the porter of the Hotel des Palmes and trust everything to him- getting through customs and all. Lunch at the Palmes and come here by the afternoon train. You must wire me from Modane what night you cross from Naples. If you wired from Naples ten to one I should not get the telegram in time.

x This is a joke.

COLLEGIUM AD SPIRITUM LACUM
Café, 11.11.11. 11.11.11.

Dear Father,

93.

I'm expecting Dumbill's to send me a letter. I would like to see it. Please get it through the post. I would like to see it. Please get it through the post. I would like to see it. Please get it through the post.

If you have any more letters for your children, please send them. I would like to see them. Please send them. I would like to see them. Please send them.

Be careful in Southampton. I would like to see you. Please send me a letter. I would like to see you. Please send me a letter. I would like to see you. Please send me a letter.

If you have time in Southampton, I would like to see you. Please send me a letter. I would like to see you. Please send me a letter. I would like to see you. Please send me a letter.

As you know, I am very busy. I would like to see you. Please send me a letter. I would like to see you. Please send me a letter. I would like to see you. Please send me a letter.

You will have to change from Southampton to Portsmouth. Please send me a letter. I would like to see you. Please send me a letter. I would like to see you. Please send me a letter.

The post leaves Southampton for Portsmouth about 11.11.11. I will be there. Please send me a letter. I would like to see you. Please send me a letter. I would like to see you. Please send me a letter.

x This is a joke.

If you can get Kohinear H.B. pencils- hexagonal - bring along a couple of dozen.

etc. and did some work before I climbed everything to do round the world.

climbing mountains, and discovering the secrets of Eastern Philosophy.

My mathematics is not strong; hence my need of Norman. I have been

working hard the last two years at Russell, Einstein, Heddington, & Co.

I learnt a good deal personally from J.W. Sullivan, who does the mat-

hematical and scientific criticism for the Times. He was profoundly im-

pressed by my demonstration of the greater-human knowledge and power of

the Author of the Book of the Law, as are all other intelligent people

to whom I explain the facts. These facts, indeed, are so convincing that

people are annoyed. They are afraid that they will have to live up their

P.S. I'm very interested by your demonstration of the value
of Kultur & Science, is Egoptoni (???) I mean Slayers
of the Ego) I had never understood exactly how they were
useful in this manner, though I knew they were, of course. I like
too your view of "life" as the period of the combined functions
of a more or less real & a purely imaginary idea. But it won't go
all the way. I'm extremely keen to be cross-examined by an expert
in my theory of the development of the heterogeneous positions from
the homogeneous Negative; beginning with my equations $0 \approx \text{Saw-}$
thing; and $0 = \text{...}$ and $(\phi)_{m} = (\phi)_{m} + \dots$ (so that the
consequences of identical claims appear different & not differently
in relation to each other, all these phenomena being illusions representing
possible ways of expanding 0. Oh hell! you made me as mad
as I am in my life by saying you couldn't teach me any Math
(unless you meant that my brain was like pellets - as I often fear
it is) of Whitehead & ... Well, I suppose! - I have only the small "Notes"
(Memoirs) at first it hardly has Russell or Eddington & Poincaré. I can't see the
significance of it, & it seems disorganized & incomplete. Will read it
again - on your W > the rest - but I need you to hook up my mind with
these hoppers. (Good remark of yours about their anti-intellectual influences)
The fact is that I have an intuition (instinct) of the Universe
which needs to be schooled in terms of intellectual thought by a
Mind, then on either side - a bridge for the Great Gulf Fixed - and
Mind, O.P. Dear God! I am appalled by the vastness of the World
before us - even the scraps in actual sight. But well be it, I know
it all, won't we? I have found my fulcrum to move the world
Metaphysically, I'm anxious about it! bbb.

Pⁿ. S. I'm very impressed by your demonstration of the value
 of Kultur & Science, is Egoktoni (???) I mean Slayers
 of the Ego) I had never understood exactly how they were
 useful for this purpose, though I knew they were, of course. I like,
 too, your view of "life" as the period of the combined functions
 of a more or less real & a purely imaginary idea. But it won't go
 all the way. I'm extremely keen to be cross-examined by an expert
 in my theory of the development of the heterogeneous primitives from
 the homogeneous Negative; beginning with my equations $O = S + a$
 thing; and $O = a + m + (-m)$; and $(\phi)m = (\phi_1)m + a$ (so that the
 complexes of identical elements appear different & act differently
 in relation to each other, all these phenomena being illusions representing
 possible ways of expanding O . Oh hell! you made me as mad
 as I am in my life by saying you couldn't teach me any Math
 (unless you meant that my brain was hopelessly - as I often fear
 it is) of Whitehead & - rather, I suppose! - I have only the small "Intro-
 duction" at first it hardly than Russell or Eddington or Poincaré. I can't see the
 ultimate meaning of it, & it seems disordered & incomplete. Will read it
 again - on your W > the rest - but I need you to hook up my mind with
 these hoppers. (Good remark of yours about their anti-religious complexes)
 The fact is that I have an intuitive (instinctive) conception of the Universe
 which needs to be expressed in terms of intellectual thought by a
 Mind, then on either side - a bridge for the Great Gulf Fixed - my
 Mind, O.P. Dear God! I am appalled by the vastness of the World
 before us - even the scraps in actual sight. But well do it, damn
 it all, for me? I have found my Fulcrum to move the world
 Metaphysically, I'm anxious about it! bbb.

S. I'm very interested by your demonstration of the value
 of Kultur & Science, is Egoktoni (???) (mean Slayers
 of the Ego) I had never understood exactly how they were
 useful in this purpose, though I knew they were, of course. I like,
 too, your view of "life" as the period of the combined functions
 of a more or less real & a purely imaginary idea. But it won't go
 all the way. I've extremely been to be cross-examined by an exact
 on my theory of the development of the heterogeneous positives from
 the homogeneous Negative; beginning with my equations $0 \approx \text{Some-}$
 $\text{thing; and } 0 = +m + (-m)$; and $(\phi)m = (\phi_1)m + n$ (so that the
 complexes of identical elements appear different & act differently
 in relation to each other, all these phenomena being "illusions" representing
 possible ways of expanding 0 . Oh hell! you made me as mad
 as I was in my life by saying you couldn't teach me any Math
 (unless you meant that my brain was hopelessly - as I often fear
 it is) of Whitehead - & Wether, I suppose! - I have only the small "Intro-
 (to Math)" at first it hardly than Russell or Eddington a Prince. I can't see the
 ultimate meaning of it, & it seems disconcerted & incomplete. Will read it
 again - on your W > the rest - but I need you to hook up my mind with
 these hoppers. (Good remark of yours about their anti-religious complexes)
 The last is that I have an i-brairi (intitiled) conception of the Universe
 which needs to be exchanged in terms of intellectual thought by a
 Mind then on either side - a Bridge for the Great Gulf Fixed - and
 Mind, O.P.V. Dear God! I am appalled by the vastness of the Work
 before us - even the scraps in actual sight. But we'll do it, damn
 it all, won't we? I have found my Fulcrum to move the world
 Notropally, I'm anxious about it! bbb.

Caro Frater,

Do what thou wilt shall be the whole of the Law.

I was very glad to get your budget of Mar. 10 - 14. Your remarks on the Ego seem to me extremely illuminating. We must talk over the subject at length. I am feeling rotten; so excuse brevity.

Note the extraordinary muddle created by my misinterpretation of your telegram "Madeira next Gibraltar". I wired on Apr. 8 "Prof. Mudd Edinburgh Castle Madeira/Gibraltar impossible Proceed Southampton 606" and got a telegram from Lisbon on the 7th. "Vaisseau suivre but Funchal madeira votre 41. cinq proc Mudd Edinburgh castle confirme (or a) d'urgence." I could not make out whether they had or had not sent on my cable intelligently; so wired this morning "Mudd Passenger Edinburgh Castle Funchal Madeira Proceed Southampton 718". I don't know whether this will reach you. Again I am muddled by your statement that you might find it difficult to ^{get to} Gibraltar. I had no idea that you would let yourself get so short of money. It looks to me as if the whole business were a complicated ordeal for you devised by the Gods through the medium of my mind. My sole idea was to arrange for our meeting as soon and as simply as possible. The precautions taken appear to have complicated things as absurdly as possible. I have visions of your haunting the Post Office at Gibraltar for the next 300 years, utterly penniless, and unable to communicate with any one, and to get assistance from any quarter. It is certainly strange how I am prevented from leaving

and I have been for so long. Why must we incarnate? That we may understand and learn the nature of the Spirit which we are used to disguise.

Care Frater,

Do what thou wilt shall be the whole of the Law.

I was very glad to get your budget of Mar. 10 - 14. Your remarks on the
Ego seem to me extremely illuminating. We must talk over the subject
at length. I am feeling rotten; so excuse brevity.

Note the extraordinary muddle created by my misinterpretation of
your telegram "Madeira next Gibraltar". I wired on Apr. 7, "Edinburgh
Castle Madeira/Gibraltar impossible Proceed Southampton etc"
and got a telegram from Lisbon on the 7th. "Vaisseau suivre but funchal
madeira votre 41 cinq proc Mudd Edinburgh castle confirme (or) d'ar-
gence." I could not make out whether they had or had not sent on my
cable intelligently; so wired this morning "Mudd Passenger Edinburgh
Castle Funchal Madeira Proceed Southampton 715". I don't know whether
this will reach you. Again I am muddled by your statement that you
might find it difficult to Gibraltar. I had no idea that you would let
yourself get so short of money. It looks to me as if the whole busi-
ness were a complicated ordeal for you devised by the Gods through the
medium of my mind. My sole idea was to arrange for our meeting as soon
and as simply as possible. The precautions taken appear to have com-
plicated things as absurdly as possible. I have visions of your haunt-
ing the Post Office at Gibraltar for the next 300 years, utterly penni-
less, and unable to communicate with any one, and to get assistance from
any quarter. It is certainly strange how I am prevented from leaving

and I have been for so long. Why must we incarnate? That we may understand
and learn the nature of the Spirit which we are vain to escape.

Gettin'. I meant to go to Palermo to-day. The doctor being very anxious
for me to have a change and let the rainin' come and done since dawn.
The kitchen department ask you to bring from Paris bottles
of the various herbs used in cooking; things like thyme, mint, etc.,
and mixed herbs. Also curry powder and Chinese Tea.

Excuse all this; but consider us as living on a desert island.
Love is the law, loveunder will.

Yours fraternally, *T. B. [unclear]*

P.S. I have not forwarded your letter to Hollings. That miserable
creature that runs the shop would certainly fall dead in his tracks.
I doubt whether he would comply with the instructions, even if he sur-
vived; and it will be much better for you to make whatever arrangements
are necessary when you arrive here. I sent on the one to Dorothy. I
and written him myself the letter explaining that I was a rock-climber
and a skeptic of the deepest dye. I am, I think, in no way
about your father and friends - I think it would be very bad
policy for me to write to them. I suggest that you should write from
Southampton or Paris, saying simply that you received news on landing
which obliged you to hasten to your destination and that you were to
be able to spend 6 weeks or so in England during August. (Helen then
to Einstein for packing 6 weeks into a month. I give this address for
Helen to see you here about the entry of Sol into Taurus.)

[Handwritten notes and signatures at the bottom of the page, including "T. B. [unclear]" and "D. B. [unclear]"]

policy for me to w

to prove that the Book of the Land was dictated by Sanchely
with knowledge of power as far beyond mine as mine
are beyond those of an antelope - as far as we may
; where.

Cefalù . I mean to go to Palermo to-day, the doctor being very anxious
for me to have a change. And it is raining cats and dogs since dawn !

The kitchen department ask you to bring from Paris bottles
of the various herbs used in cooking; things like thyme , mint, etc.,
and mixed herbs . Also curry powder and Chinese Tea.

Excuse all this; but consider us as living on a desert island!

Love is the law, love under will,

Yours fraternally, The Beast 666.

P.S. I have not forwarded your letter to Hollings. That miserable
creature that runs the shop would certainly fall dead in his tracks.
I doubt whether he would comply with the instructions, even if he sur-
vived; and it will be much better for you to make whatever arrangements
are necessary when you arrive here. I sent on the one to Doughty. I
had written him myself the ^{day} before, explaining that I am a rock-climber
and a skeptic of the deepest dye. Also, giving him one or two facts about

About your father and friends - I think it would be very bad
policy for me to write to them . I suggest that you should write from
Southampton or Paris, saying simply that you received news on landing
which obliged you to hasten to your destination, and that you hope to
be able to spend 6 weeks or so in England during August. (Refer them
to Einstein for packing 6 weeks into a month .) Give this address for
reply. Refuse to talk to newspapers, unless they approach you.
Hoping to see you here about the entry of Sol into Taurus.

P.P.S. I can
do nothing serious
to you until I see
you. I will be
in the city of
the world - which we are
all of us.

* Leave this ray of promise to
with my aim in arrival.
