So what then will shall be the whole of the Law

So you have not forgotten your function as Comforter. 'Tis the chief of pleasures to hear of any one getting anything.

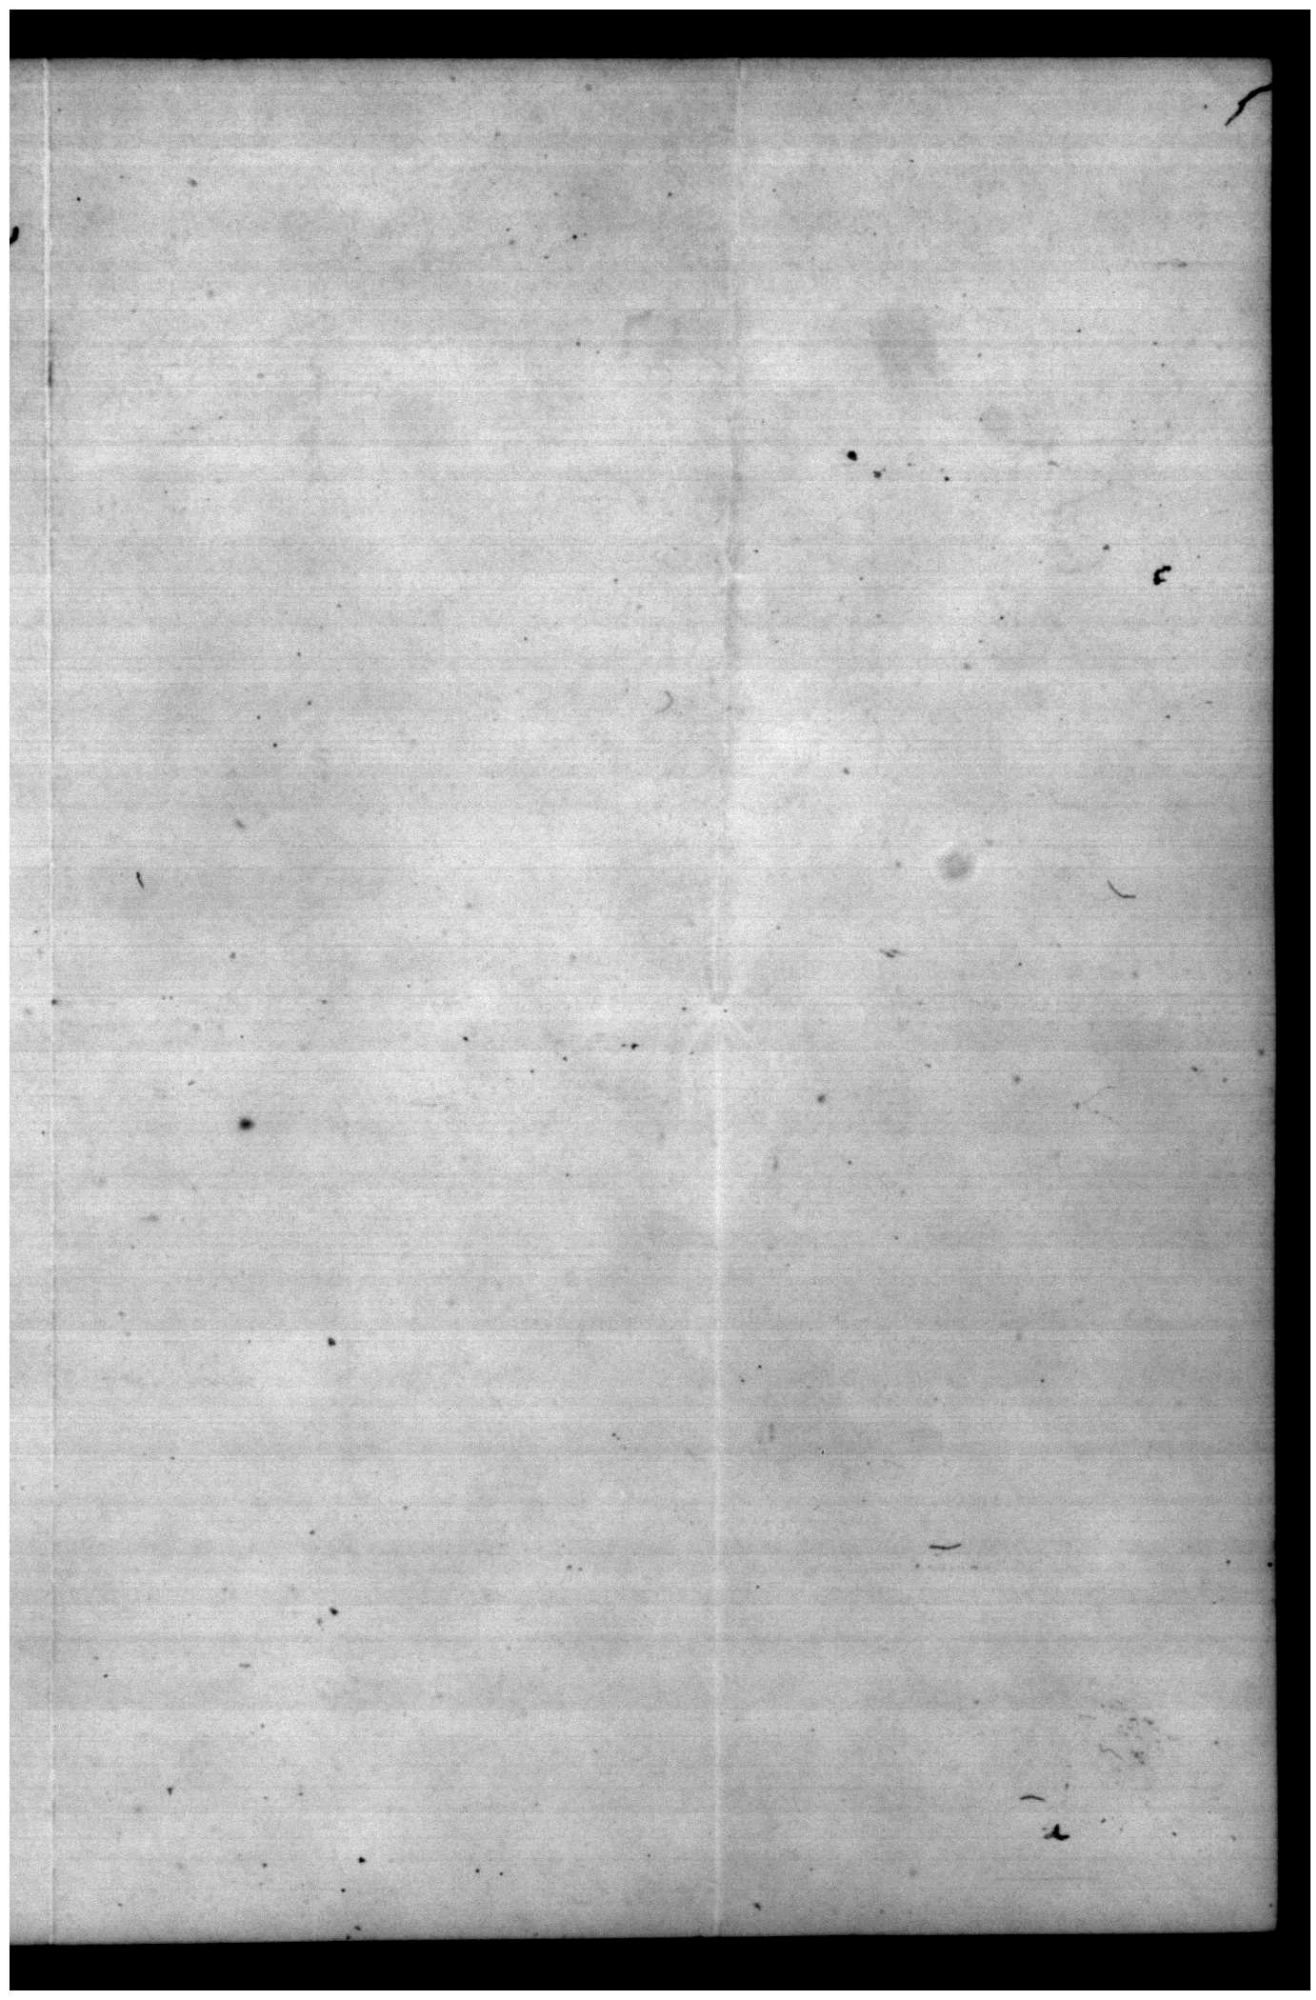

But when he is not even 1/2 of his. The danger of taking anything at its face value (or indeed at any value at all) is really a terrible one. The Chapter in the Book of his "Tennis-court" is indicated, twice daily after exercises, in a little almanac.

I enclose the dollar; I shall never have another, in all likelihood. Frame it, labelled accordingly. I want it before me day that I once did pay some one back.

Ever since you that that vision is the right one for you; so kindly await news of new-old behaviour.
Love, the Law, the under will.

To my dear Ogees.

P.S. I had to take the dollar
out. My mother died & I
had to gather pennies to
cable home. I trust I'll
have another dollar in
a week or ten days.

Dear Mr. Wilkinson,

I am overwhelmed with your letter of the 17th. I have been crying ever since. I had to go to Coney Island to celebrate. It is really awfully nice, and I only hope that other people will take your view.

As for that of your flame-flower, I am even more enchanted. I do really value that opinion more than anything, if only because it is not so much an opinion as an expression of real feeling. After all, we are great fools to analyze the books we read. All art operates by direct impression. Either you get it over, or you don't. If you start to criticize Eva Tanguay, you leave nothing at all.

It is curious that what you say about Lisa is exactly what Kennedy said. I could not in the least understand it because the character is taken from life with considerable exactitude. Talking it over with him, he got it down to the point of saying that his objection was that such a silly fool would not be likely to have such exhausted visions. As a matter of fact, the visions were rather tacked on, but just as any looking glass will reflect any image without caring in the least what that image is, Hyperion or a satyr, and just as those images leave no impression at all upon the glass, so it is with women.

However, if you see any way to coordinate her a little, I wish you would suggest it. Personally, I don't. Of course, I agree about leaving Lisa and the child, but this "butterfly net" is really only the overture to the "wonder-child" novel which I have not yet thought out in the

least. You cannot expect me to give you two novels for \$1.35. As a matter of fact, novel No. 2 is a considerable bother to me because the first happens to be dated. Either I must lay the scene in some inaccessible vastness of the Himalayas or I must trust my frail bark to the stormy and uncharted seas of prophecy.

I have just got your "Black Wind Mill" but have not had time to read it as we are already twenty-four hours late with the August number.

I do not know what the world would do to Oscar Wilde if he returned to it not having died. I know what I would not do. I know also what in any circumstances I am going to do and that is to expose the ~~manly~~ ^{whist} sliminess of the "Ballad of Reading Gaol".

I think of signing my reviews "Kopromastix". One ought to get a sort of café parfait. As soon as I can afford to buy some scented paper, rose-coloured, I shall say directly what I think about those beautiful remarks in pencil. n.p.

July 20. I'm using Lyric Shambles, if there's room. Black Windmill I think yes: I'm rather doubtful. I can't see quite what he's heard, or rather why. Even in B.W. I don't see why the poem is given. Much more fun to let him go ahead, and miss fire. Do come up & see me. I'm lovely here, & I want you to meet Myriam Dewey. Amy

I also want you to write us some letters

Dear Wilkinson:

I thought it better not to answer your letter of August 7, as I was rather expecting you to drop into the office. I do not think you should altogether blame me in the recent matter. I remained in the trenches. It was, of course, mere accident connected with ^a red headed girl ^{named Kate} that lured the modern Rembrandt from New York. I really do not know how it became known that I was in the district unless it was purely divined from the presence of Kennedy. However, we must do what we can.

Kate Seabrooke

I do not quite understand about Ezra Pound and Yarts. I do not know what the suspicions may be, nor is it necessary to inquire, since the whole matter is unfortunately pathological. However the point is that I think you should come to New York without delay.

Your article created quite a stir and we have had lots of letters thanking us for it. It was certainly the feature of the August number. You ought to follow it up. I think your Tolstoi

review will be valuable in this number, more so than the Black Windmill, which by the way we may possibly have to hold over, though I am fighting for extra pages in order to make the world safe for Wilkinson. Your polemical style is unchallenged, and we can bring ourselves into great success of every kind by pushing it.

I am sending you a copy of "Philistine and Genius" by Boris Sidis. I am trying to get him to co-operate in our moral uplift campaign. The particular ^{and on} ~~intermediate~~ request that I make to you is for an article on Freudian Repression. The ~~light~~ I should like you to take is that where a natural instinct is suppressed, it is transformed into insane and monstrous deformities. The analogy that I always have in mind is that of the "Fourth". If this be suppressed, the brain immediately fails to work with propriety and clarity. Perhaps it is a little hard to put that in an article in any detail, but I guess you will know how to bring out the whole business properly. I cannot go with Freud

dreams (as far as I am concerned) have nine times

caricatures of the events of the day before or

but I think that you should write a whole series
of essays of this kind. We shall make a feature

it is about the best bet you have.

St. Louis the Beloved,

Thanks for your letter of the 16th. I have told the
business department about the matter which pertains to them;
and I hope that you will be satisfied, in rather the same way
as a worm might be ~~right for the guard~~ *thankful to God* if nobody actually
stepped on it. But I think that you should look at this
matter in a rather ^{so} instructive light. My idea is to form
what I might call a man-of-the-world party. I want to get
Berçovicⁿⁱ for charity reform, Judge Wells for legal reform,
Boris Sidis for educational reform, yourself for sex reform
and myself for religious reform. This would form the nucleus
of a regular party. We could start to get subscriptions of
the six figure order from sympathizers; have our own organ,
and make a tremendous splash. For example; if we had a wide
spread movement, we could book you to lecture for us at your
own figure. Your work for us is ^{partly} of the nature of advertisement.

You have to remember that nobody else in America would
publish a single word of either the Plea for Better Morals or
the Tolstoi Review, though I am glad to say that the last has
been asked for by "Current Opinion" with the idea of quoting from
it. Every little bit helps in this sort of thing. The great

feel sure that by using the "International" as a means of publicity, you can do a great deal which you could never do in any other way, and no other organ could help you so well at present, because with me you have that pull of which Cicero speaks so eloquently in "~~De~~ Amiticia".

I am sure that you can find time to let me have a couple of thousand words on Repression within the next week or ten days. I want to see your name in some way or another in the paper every month. I only wish it were every week. People forget unless they are reminded all the time, and it would be a fearful mistake for you, after having made a big hit, to drop out.

I sent you the Crucified Saint both because of the extraordinary interest of the story and of the idea that you might use it in the article in some way. You don't need to dress yourself in Freud's pajamas, all you want is a corner of his ^{academic} ~~epedemic~~ robe to cover you. You see Freud has achieved respectability. I will hope to get word from you about this as soon as possible. I am really rather anxious to get the October number through the press right away. In fact, I am sending nearly everything down to the printer to-day.

Hell

Awfully jolly, dear old chappie, to hear from you again so soon. Very glad too of your good news both with regard to Powys and the other matter. I shall be glad to get Shakespeare, but I want something in October of the definite propaganda *type*. We have to print things that are likely to bring in money right away; and the only game is the *U*plift.

As to the liver, I think you know my prescription! Couldn't you reverse that in some way? I expect it is principally the heat. The direct action of the sun's rays seems to have an effect on some people, though it never did on me. In your place I should feel inclined to make a move to the mountains till the worst of the hot weather is over.

About dreams, that I imagine is the explanation given by Freud, that the events of the day are simple expressions, etc.; but this appears to me ~~an evolution~~ *a gross violation* of the law of parsimony. That in fact is the whole trouble with Freud. If you do not agree with him he will not allow you to argue but simply says, you don't understand; you are quite ignorant; just like ~~a~~ *it* theologian. But *it* is quite absurd to say that if a man shoots himself and dies in consequence that the only cause of death is the operation of the outraged ghost of his great-grandmother. It is this that is really at the bottom of the

Dear Wilkinson:

Thanks for yours of August 30th. I am very sorry to hear that you have been under the weather.

We have had a complete shake up in the office, the Business Manager having left ^{is} and replaced by ~~Three~~ Business Managers with the result that I am compelled to print the Athanasian Creed in the next number.

I dare not pray for you on Friday. I am too busy praying for myself, but I will take up the matter Saturday or Monday; besides, the final arbiter is not here on Friday.

I have just heard from Sheridan Bickers who wishes to be warmly remembered to you. His address is 1634 Vine Street, Hollywood, Los Angeles, California. I am up to my eyes just making up the dummy for the October number. When do you come to town?

He wants you to write

My dear Louis:

So glad to get your note of the 5th with the return Shakespeare proofs and the Contents Macabre^s which I think I can possibly use for the November number. The only difficulty seems to be that my devotion to one *Trinity* causes me to regard the local imitation as blasphemy; and I am seriously thinking of getting out. It is no good working if one has nothing to work for.

Your mention of Sorrento is an exceedingly bad taste. It is like the conduct of the Judge of all the *World* in taunting *Dives* with the vision of Lazarus.

Yours ever,

Dear Ghost,

I like the erudite and intense article very much, but I am not quite sure if we can print it. You keep referring to the *Little Review*. However, I shall try.

The Shakespeare story comes out in the next number. I really want the repression article. You see, one can do quite a little, as on page 317 of the October issue, but I did not go into repression itself. I did not want to steal your thunder.

I am very glad to hear that Powys is over his operation. I believe it will add a good many years to his life.

I am rather doubtful about getting "Contes Macabres" in the November number. Several other things have come up of a rather urgent character.

Best of luck.

Dear Ghost,

I am certainly very glad to hear the news about Powys. I had no idea that the matter was so complicated. I wish you would write to Kennedy and arrange to give him at least one more sitting. He is a little shy about writing to you. It is naturally impossible to discuss a matter which has no content whatever and I do not wish to do so, but a picture is a picture and in the interest of art, which after all does exist, this one ought to be finished.

Dear Ghost,

Do what thou wilt shall be the whole of the Law!

I feared when I saw your complimentary beginning that you had bad news for me.

I marked "Erudite and Intense" for December, but at the last moment the entire make-up was altered by a ~~cataclysm~~ ⁱⁿ, with the result that the paper is out a week late and it is full of misprints. I will return the thing to you, as you ask, though possibly, if you cannot use it, you might let me have it back.

The wicked Knopf has never sent me a copy of the "Chaste Man". I may say that I should like an inscribed copy.

Do you understand that all blessings flow from the Business Managers, and that you already have more than your share in being permitted to breathe the beautiful fresh air of Rockaway? I am ~~entreaty~~ ⁱⁿ with some people about the paper, and things may yet turn out decent. In the meanwhile, you and I are in the soup, and I am beginning to doubt whether we even make a good thickening.

Love is the law, love under will!

Yours ever,

Dear Sir:

I am just writing this note to announce that Dr. L. M. Keasbey is now proprietor and editor of the International and I am sure he will maintain the high standing to which you have become accustomed. You will therefore find the prestige value of our magazine unimpaired by changing editorship and I trust that you will allow the publication of those manuscripts of yours, which I have already accepted, as if I was still in charge of the interest of the paper.

Yours very truly,
