In the House of the Builders, Amen.

1. In the beginning was Initiation. The study gradually unfolds: the initial position we occupy, that which is unknown to us, and above all else, which leads toward some other position, growth.

2. In all phases of initiation we are faced by systems of Initiation, which may be defined as the process by which a man comes to know that unknown Center.

3. Throughout our evolution we are faced by the knowledge of the great transformation, which may call the Great Work, though possibly be referred to as the Great Work.

4. Every man must experience the way of initiation, express his own initiation. The initiation may come later in his life, and there may be a time when initiation is not a part of his life.

18. Finally, there was given unto him a wonder worker, guide, showing a new, various manner of knowledge and intelligence, and to come forth there. He perceived the inadequacy of science, philosophy, and religion and engaged his self to search in quest of everlasting knowledge.
