

*Operation of Reconciliation for Four
to Six Penitents and an Operant: The
Primary Portion of an Elus Cohen
Working for Group Repentance &
Exorcism.*

Translated by Radiant*Ra & Illustrated by Stephen Murtaugh

Trace several radii to form concentric circles; at the North-West, place the *Good Intelligences* of the seven planets (deer), with a *Sentinel* or Senior Guard (S) in the North; and *opposite* it, in the South, a *Serpent* (face with forked tail), and the *Evil planetary Intelligences* (black bird) at the South-West. One equilateral triangle fills the circles, having its angles to the west, north and south; as well as a second triangle, having its angles to the east, north, and south. A *Word* 10 and its candle are then placed within a smaller *central* triangle. There will be *no* other sign or tracing of characters in this work, and the ones already indicated shall be done with white chalk, except for the malign ones in charcoal. Each penitent and the operant will have a *candle* burning beside him, and will carry it wherever he goes during the operation. As soon as the operant, occupying the center, has *blessed* the apartment and all of the tracings, he and the penitents, with their candles illuminating it, will go to stand *outside* the larger circle; the operant in the *west* of the apartment, the others in order, and all facing the *center*. They will say together or separately the seven *psalms of penitence* and the Litany of the Saints: everyone will make their particular confession and other specific prayers. As soon as each penitent has *finished*, he shall enter the circles at the *S* in the North, and go to stand in one of the four angles (west, north-west, north-east and east); or occupy, in turn, *all six* of the angles formed by the hexagram, if there are the *maximum* number of penitents: Only the *operant* shall be stationed in the center. Receiving there new strength in the secret *prescribed* manner, the operant at his discretion *brings* to the R+ penitents, in the angles *vis-a-vis* them, a *pentacle* for each one to hold with their right hand, while they hold their *candles* in the other. Upon completing this, the operant returns to the center, faces *South*, and makes the following *conjunction*:

"In the name, O + 10, *warning*, fear and trembling are given the chief of evil spirits, and *malediction* to them, by the Eternal, and by me as a man of the *quality* of God's image and likeness. *Hurry*, iniquitous spirits, to *obey* my command, in all the power that is *given* me through Thee of the *Awesome Name* of the Lord (the same) O + 10 (which three times *proclaim*). Come, *hasten* to my orders, *both* names of 5....(satan and barau?) Step out of your southernmost area, and appear now in *front* of this invincible circle, which is the seat of power, and is *emanating* from the sacred decrees that have *spears* upon your iniquities, and by which the avenging and remunerative Lord has *submitted* the most inferior power of Earth for eternity. Come to shame, you that are execrable,

submit your demonic power at my feet, to then be, by my animal and spiritual power, *re-chained* within your deepest abyss! Yes, this terrible power I have *over* you according to my good desire, and according to the will of Him Who alone is formidable, O, O, O."

Note *Pronounce thrice* the central word towards the angle of the *South*, each time stretching to this part the *pentagram* that is taken into the right hand *to curb* the too-hasty arrival of evil spirits, and to have time to *fix*, curse, and *avert* them:

"I urge you (*the same two names of 5*) by the Triple Essence and the three eternal words of power that I hold up to you, O A + 10, O B + 8, O C + 7 *by whom*, henceforth, Lucifer, Barau, Belzebu, and Leviathan, your four principal leaders of demonic regions, no longer have *any* virtue, power, or authority upon our souls, and those of our human brothers and our fellow men, in a *thousand* circumstances of our temporal life, both animal and spiritual; which is *fixed* by the ineffable Creator; through weight, number and measure, as he intended and has *done*. The *Angel* of the Lord God Almighty, O + 7, *Senior Chief Guard of the North* (the *blue book* bears in the margin: O + 7 = *Vauvriel*), breaks you into as many parts as the sand is in the sea! Your infernal and tenebral *abyss* is an eternal chain to you! And *in* this horrible situation you henceforth *serve* as an immemorial example to *all* demons and all mortals. Amen."

Note *To complete* the exorcism, the R+ penitents gather in the Northern angle, *flanking* the operant's position in the center and *facing South*. In this attitude, they *present their pentacles* to the *South*, candles held in the other hand. As the operant pronounces the sentence *against* the evil spirits, the R+ penitents follow with attention, *strongly joining their intent to his*.

hand held pentacles
