

Do what thou wilt shall be the whole of the Law.

Care, Aspirants;

Made some significant updates to the library last night, the largest additions being two new folders:  
>Freemasonry

Added an “Adam Weishaupt and the Bavarian Illuminati” folder. It has the entire collected works of the order. One problem: It's in German. Later this year, there will be a book published with English translations of the initiation rituals, so that's something to look forward to. Over 40 files.

>Alchemy

Added the entire collection of Manly P. Hall's personal boxes of notes and interesting tidbits. Over 40 files.

Other additions:

>A.'.A.'. > Libri

Eshelman's Greek retrofit for Liber Pyramidos.

A.'.A.'.> Thelema

Tarot and the Magus; Opening the Key to Divination, Magick, and the Holy Guardian Angel. Also, Tantric Magick by AMOOKOS.

>Enochian

Enochian Initiation. Also, The Whole Enochian Dictionary, which was added because there's an introductory discussion on linguistics in case you're ignorant of the subject.

>Franz Bardon

The Universal Master Key, and Memories of Franz Bardon (By Lumir).

>Grimoires

Skinner's On the Operations of the Daemons.

>LHP

Lilith, an article in American Folklore by Patai. Couldn't think of anywhere else to put it.

That's 100 new files. Two new folders. 6.8 Gb of material.

Love is the law, love under Will.
