

A Comparative Worksheet

For

The Azoetia

This document has been compiled in service of those pursuing the sabbatic mysteries in earnest. It highlights both what is new in the 3<sup>rd</sup> edition but more importantly what has been removed or moved in comparison to the 2<sup>nd</sup> edition. At first glance some small images can be seen merely as marginalia and therefore their removal or moving is of no relevance but any attention paid to where in the text images are situated shows that they are extremely relevant. In the case of some images that have been removed it should be clear to the student that they are integral and that their removal was significant.

**REMOVED** – Frontispiece: The Iconoclasm: Moment of the Aethyric I

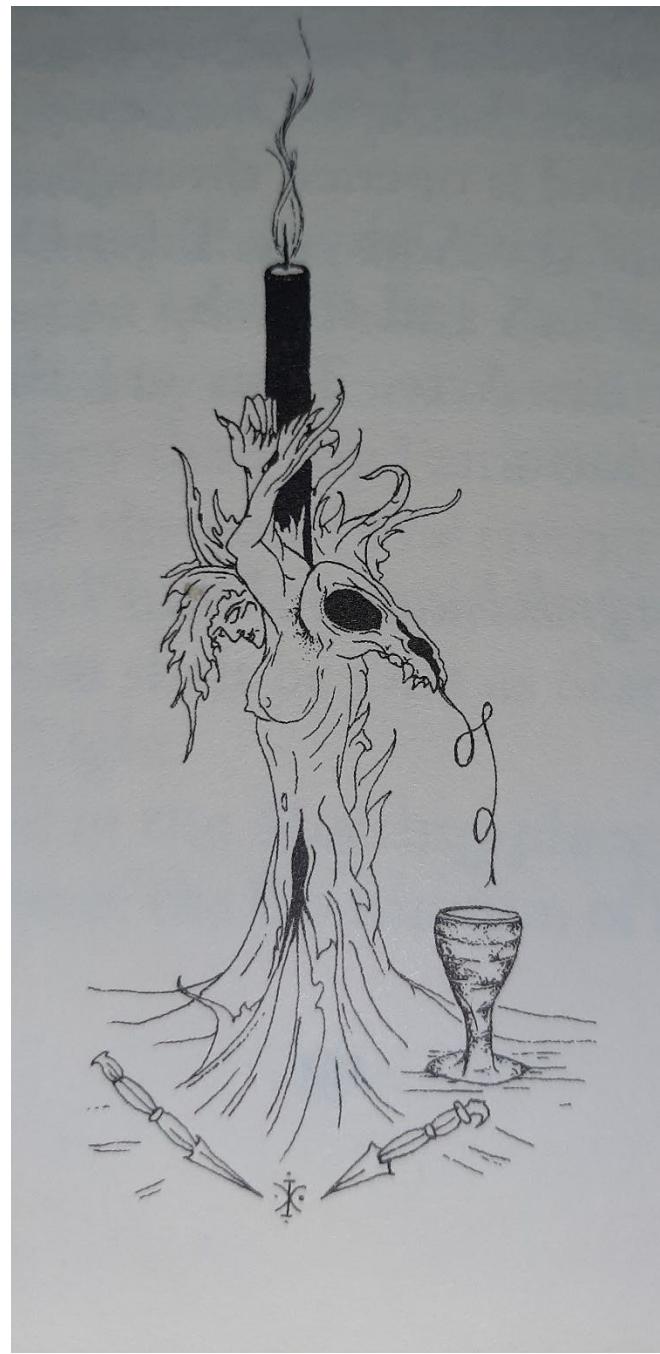

**REMOVED** from the contents page in 3<sup>rd</sup> Edition

Untitled Image – **NEW** in 3<sup>rd</sup> Edition page viii (Would situate before Foreword in Sethos edition)
